

Facility ID: 0250090823 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION\*\*\*

**Part II - Special Terms and Conditions**

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
  - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
  - (a) None.

**A. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Crematory Incinerator rated at 150 lbs/hr, unit #2	OAC 3745-17-09 (B)	0.10 lb of particulate emissions per 100 lbs material charged
	OAC 3745-31-05 PTI 02-8064	Visible particulate emissions shall not exceed five percent opacity on a six-minute average.
	OAC 3745-17-09 (C)	There shall be no objectionable odors in any exhaust gases.
	OAC 3745-17-07 (A)	The emissions limit based on this rule is less stringent than the limit established pursuant to OAC 3745-31-05.

2. **Additional Terms and Conditions**
  - (a) None

**B. Operational Restrictions**

1. The incinerator shall be operated only by adequately trained personnel.
2. This emissions unit shall not be used to dispose of infectious or medical waste as defined in OAC 3745-75-01.
3. The heat timer model MLS-A smoke alarm system shall be operated at all times when the incinerator is in operation and shall be maintained in accordance with the recommendations of the manufacturer.
4. During a cremation burn, the temperature of the secondary combustion chamber shall be maintained at a minimum of 1500 degrees Fahrenheit.

**C. Monitoring and/or Record Keeping Requirements**

1. The permittee shall operate and maintain a continuous temperature monitor and recorder for the secondary combustion chamber operating temperature. The temperature monitor and recorder shall be calibrated, operated and maintained in accordance with the manufacturer's recommendation, instructions and applicable operating manual(s).

**D. Reporting Requirements**

1. The permittee shall submit temperature deviation (excursion) reports that identify all periods of time during which the secondary combustion chamber temperature did not comply with the temperature limitation specified above.

**E. Testing Requirements**

1. Compliance with the emissions limitations in Section A.1 of these terms and conditions shall be determined in accordance with the following methods:
  - a. Emissions Limitations: 0.10 pound PE per 100 pounds of material charged.  
  
Applicable Compliance Method: If required, compliance with this mass emission limitation shall be based on stack testing per OAC rule 3745-17-03 (B)(8).
  - b. Emissions Limitation: Visible particulate emissions shall not exceed five percent opacity on six-minute

average.

Applicable Compliance Method: USEPA Method 9 (40 CFR Part 60, Appendix A.)

F. **Miscellaneous Requirements**

1. None
