Dear Permit Holder:

A draft of the Ohio Administrative Code (OAC) Chapter 3745-31 Air Pollution Permit-to-Install for the referenced facility has been issued for the emissions unit(s) listed in the Authorization section of the enclosed draft permit. This draft action is not an authorization to begin construction or modification of your emissions unit(s). The purpose of this draft is to solicit public comments on the permit. A public notice will appear in the Ohio EPA Weekly Review and the local newspaper, Mansfield News-Journal. A copy of the public notice and the draft permit are enclosed. This permit can be accessed electronically on the Division of Air Pollution Control (DAPC) Web page, www.epa.ohio.gov/dapc by clicking the "Issued Air Pollution Control Permits" link. Comments will be accepted as a marked-up copy of the draft permit or in narrative format. Any comments must be sent to the following:

Andrew Hall
Permit Review/Development Section
Ohio EPA, DAPC
50 West Town Street, Suite 700
P.O. Box 1049
Columbus, Ohio 43216-1049

and Ohio EPA DAPC, Northwest District Office
347 North Dunbridge Road
Bowling Green, OH 43402

Comments and/or a request for a public hearing will be accepted within 30 days of the date the notice is published in the newspaper. You will be notified in writing if a public hearing is scheduled. A decision on issuing a final permit-to-install will be made after consideration of comments received and oral testimony if a public hearing is conducted. Any permit fee that will be due upon issuance of a final Permit-to-Install is indicated in the Authorization section. Please do not submit any payment now. If you have any questions, please contact Ohio EPA DAPC, Northwest District Office at (419)352-8461.

Sincerely,

Michael W. Ahern, Manager
Permit Issuance and Data Management Section, DAPC

PUBLIC NOTICE
11/14/2011 Issuance of Draft Air Pollution Permit-To-Install

Jay Plastics, Inc.
150 East Longview Avenue,
Mansfield, OH 44903-4206
Richland County

FACILITY DESC.: All Other Plastics Product Manufacturing

PERMIT #: P0108820

PERMIT TYPE: Initial Installation

PERMIT DESC: Plastic parts coating line consisting of primer booth, IR Flash oven, base coat booth, IR flash oven, thermal top coat booth, thermal cure oven, UV coating booth, IR flash oven, and UV cure oven.

The Director of the Ohio Environmental Protection Agency issued the draft permit above. The permit and complete instructions for requesting information or submitting comments may be obtained at: epa.ohio.gov/dapc/permit by entering the permit # or: Andrea Moore, Ohio EPA DAPC, Northwest District Office, 347 North Dunbridge Road, Bowling Green, OH 43402. Ph: (419)352-8461

Permit Strategy Write-Up

1. Check all that apply:

[X] Synthetic Minor Determination

Netting Determination

2. Source Description:

Jay Plastics Incorporated is a plastics fabrication facility located in Mansfield, Ohio. The company has proposed to add an additional plastic parts coating line consisting of primer booth, IR Flash oven, base coat booth, IR flash oven, thermal top coat booth, thermal cure oven, UV coating booth, IR flash oven, and UV cure oven (Emissions Unit K001).

3. Facility Emissions and Attainment Status:

Jay Plastics is located in Richland County and is classified as a "major source" Title V permitting requirements but is not classified as a "major stationary source" for Prevention of Significant Deterioration (PSD) purposes because the existing coating lines have federally enforceable restrictions in place which limit the potential emissions to 230 tons per year of volatile organic compounds (VOC). In addition, the facility is not considered a "major source" for MACT permitting requirements as the existing coating lines also have federally enforceable restrictions in place which limit the potential emissions to 9.90 tons per year for any individual Hazardous Air Pollutant (HAP) and 24.90 tons per year for any combination of HAPs. Richland County is designated attainment for all criteria pollutants.

4. Source Emissions:

Jay Plastics Inc, has proposed to include the new plastic parts coating line consisting of primer booth, IR Flash oven, base coat booth, IR flash oven, thermal top coat booth, thermal cure oven, UV coating booth, IR flash oven, and UV cure oven (Emissions Unit K001) into the facility's current federally enforceable restriction of 230 tons per year for VOC.

5. Conclusion:

As part of the company's strategy to maintain its status as "non- major" for MACT and PSD permitting applicability, this PTI will incorporate federally enforceable permit conditions to include this emission unit into the facilities current restrictions. Therefore, there will be no change in the status of this facility.

6. Please provide additional notes or comments as necessary:
None

7. Total Permit Allowable Emissions Summary (for informational purposes only):

Table with 2 columns: Pollutant, Tons Per Year. Rows include OC (230.0), Individual HAP (9.9), and Combined HAPs (24.9).

Permit Fee: \$200.00 *DO NOT send payment at this time, subject to change before final issuance*
Issue Date: 11/14/2011
Effective Date: To be entered upon final issuance

This document constitutes issuance to:

Jay Plastics, Inc.
150 East Longview Avenue
Mansfield, OH 44903-4206

of a Permit-to-Install for the emissions unit(s) identified on the following page.

Ohio EPA District Office or local air agency responsible for processing and administering your permit:

Ohio EPA DAPC, Northwest District Office
347 North Dunbridge Road
Bowling Green, OH 43402
(419)352-8461

The above named entity is hereby granted a Permit-to-Install for the emissions unit(s) listed in this section pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Scott J. Nally
Director

Authorization (continued)

Permit Number: P0108820
Permit Description: Plastic parts coating line consisting of primer booth, IR Flash oven, base coat booth, IR flash oven, thermal top coat booth, thermal cure oven, UV coating booth, IR flash oven, and UV cure oven.

Permits for the following Emissions Unit(s) or groups of Emissions Units are in this document as indicated below:

Emissions Unit ID:	K001
Company Equipment ID:	R017
Superseded Permit Number:	
General Permit Category and Type:	Not Applicable

A. Standard Terms and Conditions

1. Federally Enforceable Standard Terms and Conditions

- a) All Standard Terms and Conditions are federally enforceable, with the exception of those listed below which are enforceable under State law only:
 - (1) Standard Term and Condition A.2.a), Severability Clause
 - (2) Standard Term and Condition A.3.c) through A. 3.e) General Requirements
 - (3) Standard Term and Condition A.6.c) and A. 6.d), Compliance Requirements
 - (4) Standard Term and Condition A.9., Reporting Requirements
 - (5) Standard Term and Condition A.10., Applicability
 - (6) Standard Term and Condition A.11.b) through A.11.e), Construction of New Source(s) and Authorization to Install
 - (7) Standard Term and Condition A.14., Public Disclosure
 - (8) Standard Term and Condition A.15., Additional Reporting Requirements When There Are No Deviations of Federally Enforceable Emission Limitations, Operational Restrictions, or Control Device Operating Parameter Limitations
 - (9) Standard Term and Condition A.16., Fees
 - (10) Standard Term and Condition A.17., Permit Transfers

2. Severability Clause

- a) A determination that any term or condition of this permit is invalid shall not invalidate the force or effect of any other term or condition thereof, except to the extent that any other term or condition depends in whole or in part for its operation or implementation upon the term or condition declared invalid.
- b) All terms and conditions designated in parts B and C of this permit are federally enforceable as a practical matter, if they are required under the Act, or any of its applicable requirements, including relevant provisions designed to limit the potential to emit of a source, are enforceable by the Administrator of the U.S. EPA and the State and by citizens (to the extent allowed by section 304 of the Act) under the Act. Terms and conditions in parts B and C of this permit shall not be federally enforceable and shall be enforceable under State law only, only if specifically identified in this permit as such.

3. General Requirements

- a) The permittee must comply with all terms and conditions of this permit. Any noncompliance with the federally enforceable terms and conditions of this permit constitutes a violation of the Act, and is grounds for enforcement action or for permit revocation, revocation and re-issuance, or modification.

- b) It shall not be a defense for the permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the federally enforceable terms and conditions of this permit.
- c) This permit may be modified, revoked, or revoked and reissued, for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or revocation, or of a notification of planned changes or anticipated noncompliance does not stay any term and condition of this permit.
- d) This permit does not convey any property rights of any sort, or any exclusive privilege.
- e) The permittee shall furnish to the Director of the Ohio EPA, or an authorized representative of the Director, upon receipt of a written request and within a reasonable time, any information that may be requested to determine whether cause exists for modifying or revoking this permit or to determine compliance with this permit. Upon request, the permittee shall also furnish to the Director or an authorized representative of the Director, copies of records required to be kept by this permit. For information claimed to be confidential in the submittal to the Director, if the Administrator of the U.S. EPA requests such information, the permittee may furnish such records directly to the Administrator along with a claim of confidentiality.

4. Monitoring and Related Record Keeping and Reporting Requirements

- a) Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall maintain records that include the following, where applicable, for any required monitoring under this permit:
 - (1) The date, place (as defined in the permit), and time of sampling or measurements.
 - (2) The date(s) analyses were performed.
 - (3) The company or entity that performed the analyses.
 - (4) The analytical techniques or methods used.
 - (5) The results of such analyses.
 - (6) The operating conditions existing at the time of sampling or measurement.
- b) Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.
- c) Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall submit required reports in the following manner:
 - (1) Reports of any required monitoring and/or recordkeeping of federally enforceable information shall be submitted to the Ohio EPA DAPC, Northwest District Office.
 - (2) Quarterly written reports of (i) any deviations from federally enforceable emission limitations, operational restrictions,

and control device operating parameter limitations, excluding deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06, that have been detected by the testing, monitoring and recordkeeping requirements specified in this permit, (ii) the probable cause of such deviations, and (iii) any corrective actions or preventive measures taken, shall be made to the Ohio EPA DAPC, Northwest District Office. The written reports shall be submitted (i.e., postmarked) quarterly, by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. See A.15. below if no deviations occurred during the quarter.

- (3) Written reports, which identify any deviations from the federally enforceable monitoring, recordkeeping, and reporting requirements contained in this permit shall be submitted (i.e., postmarked) to the Ohio EPA DAPC, Northwest District Office every six months, by January 31 and July 31 of each year for the previous six calendar months. If no deviations occurred during a six-month period, the permittee shall submit a semi-annual report, which states that no deviations occurred during that period.
 - (4) This permit is for an emissions unit located at a Title V facility. Each written report shall be signed by a responsible official certifying that, based on information and belief formed after reasonable inquiry, the statements and information in the report are true, accurate, and complete.
- d) The permittee shall report actual emissions pursuant to OAC Chapter 3745-78 for the purpose of collecting Air Pollution Control Fees.

5. Scheduled Maintenance/Malfunction Reporting

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction, i.e., upset, of any emissions units or any associated air pollution control system(s) shall be reported to the Ohio EPA DAPC, Northwest District Office in accordance with paragraph (B) of OAC rule 3745-15-06. (The definition of an upset condition shall be the same as that used in OAC rule 3745-15-06(B)(1) for a malfunction.) The verbal and written reports shall be submitted pursuant to OAC rule 3745-15-06.

Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emission unit(s) that is (are) served by such control system(s).

6. Compliance Requirements

- a) The emissions unit(s) identified in this Permit shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.
- b) Any document (including reports) required to be submitted and required by a federally applicable requirement in this permit shall include a certification by a responsible official that, based on information and belief formed after reasonable inquiry, the statements in the document are true, accurate, and complete.
- c) Upon presentation of credentials and other documents as may be required by law, the permittee shall allow the Director of the Ohio EPA or an authorized representative of the Director to:

- (1) At reasonable times, enter upon the permittee's premises where a source is located or the emissions-related activity is conducted, or where records must be kept under the conditions of this permit.
 - (2) Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit, subject to the protection from disclosure to the public of confidential information consistent with ORC section 3704.08.
 - (3) Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under this permit.
 - (4) As authorized by the Act, sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit and applicable requirements.
- d) The permittee shall submit progress reports to the Ohio EPA DAPC, Northwest District Office concerning any schedule of compliance for meeting an applicable requirement. Progress reports shall be submitted semiannually or more frequently if specified in the applicable requirement or by the Director of the Ohio EPA. Progress reports shall contain the following:
- (1) Dates for achieving the activities, milestones, or compliance required in any schedule of compliance, and dates when such activities, milestones, or compliance were achieved.
 - (2) An explanation of why any dates in any schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

7. Best Available Technology

As specified in OAC Rule 3745-31-05, new sources that must employ Best Available Technology (BAT) shall comply with the Applicable Emission Limitations/Control Measures identified as BAT for each subject emissions unit.

8. Air Pollution Nuisance

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

9. Reporting Requirements

The permittee shall submit required reports in the following manner:

- a) Reports of any required monitoring and/or recordkeeping of state-only enforceable information shall be submitted to the Ohio EPA DAPC, Northwest District Office.
- b) Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from state-only required emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the Ohio EPA DAPC, Northwest District Office. If no deviations occurred during a calendar quarter, the permitteeshall

submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted (i.e., postmarked) quarterly, by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

10. Applicability

This Permit-to-Install is applicable only to the emissions unit(s) identified in the Permit-to-Install. Separate application must be made to the Director for the installation or modification of any other emissions unit(s).

11. Construction of New Sources(s) and Authorization to Install

- a) This permit does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. This permit does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the application and terms and conditions of this permit. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of this permit does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Issuance of this permit is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.
- b) If applicable, authorization to install any new emissions unit included in this permit shall terminate within eighteen months of the effective date of the permit if the owner or operator has not undertaken a continuing program of installation or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.
- c) The permittee may notify Ohio EPA of any emissions unit that is permanently shut down (i.e., the emissions unit has been physically removed from service or has been altered in such a way that it can no longer operate without a subsequent "modification" or "installation" as defined in OAC Chapter 3745-31) by submitting a certification from the authorized official that identifies the date on which the emissions unit was permanently shut down. Authorization to operate the affected emissions unit shall cease upon the date certified by the authorized official that the emissions unit was permanently shut down. At a minimum, notification of permanent shut down shall be made or confirmed by marking the affected emissions unit(s) as "permanently shut down" in Ohio EPA's "Air Services" along with the date the emissions unit(s) was permanently removed and/or disabled. Submitting the facility profile update will constitute notifying of the permanent shutdown of the affected emissions unit(s).
- d) The provisions of this permit shall cease to be enforceable for each affected emissions unit after the date on which an emissions unit is permanently shut down (i.e., emissions unit has been physically removed from service or has been altered in such a way that it can no longer operate without a subsequent "modification" or "installation" as defined in OAC Chapter 3745-31). All

records relating to any permanently shutdown emissions unit, generated while the emissions unit was in operation, must be maintained in accordance with law. All reports required by this permit must be submitted for any period an affected emissions unit operated prior to permanent shut down. At a minimum, the permit requirements must be evaluated as part of the reporting requirements identified in this permit covering the last period the emissions unit operated.

No emissions unit certified by the authorized official as being permanently shut down may resume operation without first applying for and obtaining a permit pursuant to OAC Chapter 3745-31.

- e) The permittee shall comply with any residual requirements related to this permit, such as the requirement to submit a deviation report, air fee emission report, or other any reporting required by this permit for the period the operating provisions of this permit were enforceable, or as required by regulation or law. All reports shall be submitted in a form and manner prescribed by the Director. All records relating to this permit must be maintained in accordance with law.

12. Permit-To-Operate Application

The permittee is required to apply for a Title V permit pursuant to OAC Chapter 3745-77. The permittee shall submit a complete Title V permit application or a complete Title V permit modification application within twelve (12) months after commencing operation of the emissions units covered by this permit. However, if the proposed new or modified source(s) would be prohibited by the terms and conditions of an existing Title V permit, a Title V permit modification must be obtained before the operation of such new or modified source(s) pursuant to OAC rule 3745-77-04(D) and OAC rule 3745-77-08(C)(3)(d).

13. Construction Compliance Certification

The applicant shall identify the following dates in the online facility profile for each new emissions unit identified in this permit.

- a) Completion of initial installation date shall be entered upon completion of construction and prior to start-up.
- b) Commence operation after installation or latest modification date shall be entered within 90 days after commencing operation of the applicable emissions unit.

14. Public Disclosure

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

15. Additional Reporting Requirements When There Are No Deviations of Federally Enforceable Emission Limitations, Operational Restrictions, or Control Device Operating Parameter Limitations

If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly (i.e., postmarked), by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters.

16. Fees

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable permit-to-install fees within 30 days after the issuance of any permit-to-install. The permittee shall pay all applicable permit-to-operate fees within thirty days of the issuance of the invoice.

17. Permit Transfers

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The new owner must update and submit the ownership information via the "Owner/Contact Change" functionality in Air Services once the transfer is legally completed. The change must be submitted through Air Services within thirty days of the ownership transfer date.

18. Risk Management Plans

If the permittee is required to develop and register a risk management plan pursuant to section 112(r) of the Clean Air Act, as amended, 42 U.S.C. 7401 et seq. ("Act"), the permittee shall comply with the requirement to register such a plan.

19. Title IV Provisions

If the permittee is subject to the requirements of 40 CFR Part 72 concerning acid rain, the permittee shall ensure that any affected emissions unit complies with those requirements. Emissions exceeding any allowances that are lawfully held under Title IV of the Act, or any regulations adopted thereunder, are prohibited.

B. Facility-Wide Terms and Conditions

Effective Date: To be entered upon final issuance

1. All the following facility-wide terms and conditions are federally enforceable with the exception of those listed below which are enforceable under state law only:
 - a) None.

C. Emissions Unit Terms and Conditions

1. K001, R017

Operations, Property and/or Equipment Description:

Plastic parts coating line consisting of primer booth, IR Flash oven, base coat booth, IR flash oven, thermal top coat booth, thermal cure oven, UV coating booth, IR flash oven, and UV cure oven.

a) The following emissions unit terms and conditions are federally enforceable with the exception of those listed below which are enforceable under state law only.

(1) b)(1)d. and d)(9)

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operation(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures are identified below. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	ORC 3704.03 (T)	84.36 tons volatile organic compounds (VOC)/rolling 12-month period, from coating and cleaning operations
b.	OAC rule 3745-31-05 (D)	230.0 tons of VOC per rolling, 12-month period, from the coatings and cleanup materials employed in emissions units K001, R003 through R016, R101 through R103, R105, and R108 through R112, combined 9.90 tons per rolling, 12-month period for any individual Hazardous Air Pollutant (HAP) and 24.90 tons per rolling, 12-month period for any combination of HAPs for emissions units K001, R003 through R016, R101 through R103, R105, and R108 through R112, combined. See b)(2)a.
c.	OAC rule 3745-17-11 (C)	See c)(2), c)(3), and d)(1) through d)(5)
d.	OAC rule 3745-114-01 ORC 3704.03(F)	See d)(9)

(2) Additional Terms and Conditions

a. This permit establishes the following federally enforceable emission limitations for purposes of avoiding the applicability of Maximum Achievable Control

Technology (MACT) regulations and maintains the facility as a minor source for attainment New Source Review:

230.0 tons of VOC per rolling, 12-month period from the coatings and cleanup materials employed in emissions units K001, R003 through R016, R101 through R103, R105, and R108 through R112, combined [See c)(1)].

9.90 tons per rolling, 12-month period for any individual Hazardous Air Pollutant (HAP) and 24.90 tons per rolling, 12-month period for any combination of HAPs for emissions units K001, R003 through R016, R101 through R103, R105, and R108 through R112 combined. Hazardous Air Pollutant (HAP) means any air pollutant listed in or pursuant to Section 112 (b) of the Clean Air Act.

Federally enforceable VOC and HAP emission limitations were established in previously issued permits for emissions units R003 through R016, R101 through R103, R105, and R108 through R112, and as such the facility has existing usage and VOC and HAP emissions records for the coating operations in lieu of establishing monthly restrictions for the first year of operation.

c) Operational Restrictions

- (1) The maximum rolling, 12-month quantity of coatings and cleanup materials employed in emissions units K001, R003 through R016, R101 through R103, R105, and R108 through R112, combined, is limited by the following equation:

12 n

ΣΣ [(V_i)(G_i)] ÷ 2000 lbs/ton ≤ 230.0

M=1 i=1

where,

M = the increment of the rolling, 12-month period;

V_i = VOC content in pounds per gallon of each coating/cleanup employed;

G_i = Gallons used of each coating and cleanup material for the rolling, 12-month period

n = total number of unique coatings and cleanup materials employed in emissions units K001, R003 through R016, R101 through R103, R105, and R108 through R112

- (2) The permittee shall install and operate a dry filtration system* and water wash system* for the control of particulate emissions whenever this emissions unit is in operation and shall maintain the dry particulate filter and water wash in accordance with the manufacturer's recommendations, instructions, and/or operating manual(s), with any modifications deemed necessary by the permittee

*UV coating booth is equipped with dry filtration. Basecoat, Primer Coat, and Topcoat booths are equipped with water wash.

- (3) In the event the particulate filter system and/or water wash is not operating in accordance with the manufacturer's recommendations, instructions, or operating manual, with any modifications deemed necessary by the permittee, the control device shall be expeditiously repaired or otherwise returned to these documented operating conditions.
- d) **Monitoring and/or Recordkeeping Requirements**
- (1) The permittee shall maintain documentation of the manufacturer's recommendations, instructions, or operating manuals for the dry particulate filter and water wash control, along with documentation of any modifications deemed necessary by the permittee. These documents shall be maintained at the facility and shall be made available to the appropriate Ohio EPA District Office or local air agency upon request.
 - (2) The permittee shall conduct periodic inspections of the dry particulate filter and water wash control to determine whether it is operating in accordance with the manufacturers recommendations, instructions, or operating manuals with any modifications deemed necessary by the permittee or operator. These inspections shall be performed at a frequency that shall be based upon the recommendation of the manufacturer and the permittee shall maintain a copy of the manufacturers recommended inspection frequency and it shall be made available to the Ohio EPA upon request.
 - (3) In addition to the recommended periodic inspections, not less than once each calendar year the permittee shall conduct a comprehensive inspection of the dry particulate filter and water wash control while the emissions unit is shut down and perform any needed maintenance and repair to ensure that it is operated in accordance with the manufacturer's recommendations.
 - (4) The permittee shall document each inspection (periodic and annual) of the dry particulate filter system and water wash control system and shall maintain the following information:
 - a. the date of the inspection;
 - b. a description of each/any problem identified and the date it was corrected;
 - c. a description of any maintenance and repairs performed; and
 - d. the name of person who performed the inspection.

These records shall be maintained at the facility for not less than five years from the date the inspection and any necessary maintenance or repairs were completed and shall be made available to the appropriate Ohio EPA District Office or local air agency upon request.
 - (5) The permittee shall maintain records that document any time periods when the dry particulate filter and/or water wash control was not in service when the emissions unit(s) was/were in operation, as well as, a record of all operations during which the dry particulate filter and/or water wash control was not operated according to the manufacturers recommendations with any documented modifications made by the

permittee. These records shall be maintained for a period of not less than five years and shall be made available to the Ohio EPA upon request.

- (6) The permittee shall collect and record the following information each month for coating/cleanup material usage in the emissions unit:
- a. The name and identification number of each coating and cleanup material employed;
 - b. The number of gallons of each coating and cleanup material employed;
 - c. The VOC content of each coating and cleanup material employed, as applied, in lbs/gallon;
 - d. The VOC emissions from each coating and cleanup material employed, in lbs, [d)(6)b. x d)(6)c.];
 - e. The total VOC emissions from all coatings and cleanup materials employed, in tons, [sum of d)(6)d. x 1 ton/2000 lbs]; and
 - f. The total annual VOC emissions, in tons, from all coatings and cleanup materials employed, based upon a rolling, 12-month summation [the sum of d)(6)e. per rolling, 12-month period].
- (7) The permittee shall collect and record the following information each month for all coatings and cleanup materials employed in emissions units K001, R003 through R016, R101 through R103, R105, and R108 through R112, combined:
- a. the name and identification number of each coating and cleanup material employed;
 - b. the VOC content of each coating and cleanup material employed, in pounds per gallon, as applied;
 - c. the volume, in gallons, of each coating and cleanup material employed;
 - d. the VOC emission rate for each coating and cleanup material employed [d)(7)b. x d)(7)c.], in pounds.
 - e. the cumulative monthly VOC emission rate for all coatings and cleanup materials employed (summation of d)(7)d. x 1 ton/2000 lbs), in tons; and
 - f. the rolling, 12-month VOC emissions, for all coatings and cleanup materials, in tons.
- (8) The permittee shall collect and record the following HAP information each month for emissions K001, R003 through R016, R101 through R103, R105, and R108 through R112, combined:
- a. the name and identification number of each coating and cleanup material employed;

- b. the amount of each individual HAP in each coating and cleanup material, in lbs/gallon, as applied;
 - c. the number of gallons of each coating and cleanup material employed;
 - d. the emission rate for each individual HAP from each coating and cleanup material employed [d)(8)b. x d)(8)c.] for each individual HAP, in lbs;
 - e. the total emission rate for each individual HAP from all the coatings and cleanup materials employed (for each individual HAP, the summation of d)(8)d. for all coatings and cleanup materials), in lbs;
 - f. the total HAP emission rate for all HAPs, combined from all the coatings and cleanup materials employed (summation of d)(8)e. x 1 ton/2000 lbs for all HAPs for all coatings and cleanup materials), in tons; and
 - g. the rolling, 12-month emissions of each individual HAP and all HAPs, combined, in tons.
- (9) Modeling to demonstrate compliance with, the "Toxic Air Contaminant Statute", ORC 3704.03(F)(4)(b) and OAC rule 3745-114-01, was not necessary because the emissions unit's maximum annual emissions for each toxic air contaminant, as defined in OAC rule 3745-114-01, will be less than 1.0 ton per year. OAC Chapter 3745-31 requires permittees to apply for and obtain a new or modified Permit to Install (PTI), prior to making a "modification" as defined by OAC rule 3745-31-01. The permittee is hereby advised that changes in the composition of the materials, or use of new materials, that would cause the emissions of any toxic air contaminant to increase to above 1.0 ton per year may require the permittee to apply for and obtain a new PTI.
- e) Reporting Requirements
- (1) The permittee shall submit quarterly deviation (excursion) reports that identify the following:
- a. all exceedances of the 84.36 tons VOC/rolling, 12 month period from coating and cleaning operations.
 - b. all exceedances of the rolling, 12-month emission limitation of 230.0 tons for emissions units K001, R003 through R016, R101 through R103, R105, and R108 through R112 combined.
 - c. all exceedances of the rolling, 12-month individual HAP and combined HAPs emission limitations of 9.90 tons and 24.90 tons, respectively for emissions units K001, R003 through R016, R101 through R103, R105, and R108 through R112 combined.
 - d. any daily record showing that the dry particulate filter system and/or water wash control was not in service or not operated according to manufacturer's recommendations (with any documented modifications made by the permittee) when the emission unit was in operation.

These reports shall be submitted in accordance with the reporting requirements of the Standard Terms and Conditions of this permit.

- (2) Unless other arrangements have been approved by the Director, all notifications and reports shall be submitted through the Ohio EPA's eBusiness Center: Air Services online web portal.
- f) Testing Requirements
- (1) Compliance with the Emissions Limitations and/or Control Requirements specified in section b) of these terms and conditions shall be determined in accordance with the following methods:
 - a. Emission Limitation:
84.36 tons VOC/rolling, 12-month period from coating and cleaning operations

Applicable Compliance Method:
Compliance shall be based upon the recordkeeping requirements in section d)(6) of this permit.
 - b. Emission Limitation:
230.0 tons of VOC per rolling, 12-month period from the coatings and cleanup materials employed in emissions units K001, R003 through R016, R101 through R103, R105, and R108 through R112, combined

Applicable Compliance Method:
Compliance shall be based upon the recordkeeping requirements in section d)(7) of this permit.
 - c. Emission Limitation:
9.90 tons per rolling, 12- month period for any individual Hazardous Air Pollutant (HAP) and 24.90 tons per rolling, 12-month period for any combination of HAPs for emissions units K001, R003 through R016, R101 through R103, R105, and R108 through R112, combined.

Applicable Compliance Method:
Compliance shall be based upon the recordkeeping requirements in section d)(8) of this permit.
- g) Miscellaneous Requirements
- (1) None.
