

Facility ID: 0302000288 Issuance type: Title V Draft Permit

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part III" and before "I. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

b State Only Enforceable Section

1. The following insignificant emissions units are located at this facility:
 - 3.26 million Btu/hour natural gas-fired boiler, emissions unit B001;
 - 4.2 million Btu/hour natural gas-fired boiler, emissions unit B002;
 - foam rebond line with steam curing, emissions unit P002;
 - 4,961-gallon methylene chloride pressure tank, emissions unit T001;
 - 11,532-gallon toluene diisocyanate tank, emissions unit T002;
 - 11,532-gallon polyether polyol tank, emissions unit T003;
 - 11,532-gallon polyether polyol tank, emissions unit T004;
 - 6,016-gal mondur HR toluene diisocyanate tank, emissions unit T005; and
 - 6,016-gal polyether polyol tank, emissions unit T006.

Each insignificant emissions unit at this facility must comply with all applicable State and federal regulations, as well as any emission limitations and/or control requirements contained within a Permit to Install (PTI) for the emissions unit.

Facility ID: 0302000288 Emissions Unit ID: Z002 Issuance type: Title V Draft Permit

A. State and Federally Enforceable Section

The following emissions unit terms and conditions are federally enforceable with the exception of those listed below which are enforceable under state law only.

- 1. None.

I. Applicable Emissions Limitations and/or Control Requirements

- 1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
foam pouring line (P001)	OAC rule 3745-21-07(G)	refer to section A.II.1 of the terms and conditions of this permit.

- 2. **Additional Terms and Conditions**

- (a) None
