

PERMIT TO OPERATE AN AIR CONTAMINANT SOURCE

Date of Issuance 02/18/94

Application No. 1576051347F004

Effective Date 02/18/94

Permit Fee \$000

This document constitutes issuance to:

DIAND SUPPLY COMPANY
1000 WARNER ROAD S.E.
CANTON

OHIO 44707

of a permit to operate for:

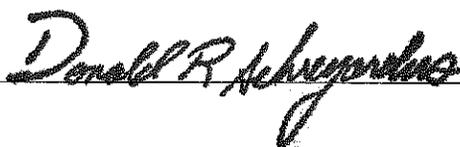

CONCRETE BATCHING, TRANSFER AGGR. & CEMENT, VENTS
CONCRETE BATCHING PLANT

The following terms and conditions are hereby expressly incorporated into this permit to operate:

1. This permit to operate shall be effective until 02/18/97
You will be contacted approximately six months prior to this date regarding the renewal of this permit. If you are not contacted, please write to the appropriate Ohio EPA field office.
2. The above-described source is and shall remain in full compliance with all applicable State and federal laws and regulations and the terms and conditions of this permit.
3. Prior to any modification of this source, as defined in rule 3745-31-01 of the Ohio Administrative Code (OAC), a permit to install must be granted by the Ohio EPA pursuant to OAC Chapter 3745-31.
4. The Director of the Ohio EPA or an authorized representative may, subject to the safety requirements of the permit holder, enter upon the premises of this source at any time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State and federal air pollution laws and regulations and the terms and conditions of this permit.
5. A permit fee in the amount specified above must be remitted within 15 days from the issuance date of this permit.
6. Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA field office must be notified in writing of any transfer of this permit.
7. This source and any associated air pollution control system(s) shall be maintained regularly in accordance with good engineering practices in order to minimize air contaminant emissions. Any malfunction of this source or any associated air pollution control system(s) shall be reported immediately to the appropriate Ohio EPA field office in accordance with OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of this source.
8. Any unauthorized or emergency release of an air contaminant from this source which, due to the toxic or hazardous nature of the material, may pose a threat to public health, or otherwise endanger the safety or welfare of the public, shall be reported immediately to the appropriate Ohio EPA field office (during normal business hours) or to the Ohio EPA's Emergency Response Group (1-800-282-9378). (Additional reporting may be required pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act.)
9. The appropriate Ohio EPA field office is:
AIR POLLUTION CNTRL DIV. CANTON CITY HEALTH DEPT. -
CITY HALL 420 MARKET AVE. NORTH
CANTON, OH 44702-1544 (216)-489-3385
10. If this term and condition is checked, the permit holder is subject to the attached special terms and conditions.

OHIO ENVIRONMENTAL PROTECTION AGENCY

Director

EPA 3834
Revised 9-90

APPLICATION NUMBER: 15 76 05 1347 F004
FACILITY NAME: DIANO SUPPLY COMPANY
EQUIPMENT DESCRIPTION: CONCRETE BATCHING, TRANSFER AGGR. & CEMENT, VENTS
COMPANY ID: CONCRETE BATCHING PLANT

SPECIAL TERMS AND CONDITIONS

1. Applicable State Regulation(s)

The following rules of the Ohio Administrative Code establish the applicable emission limitations and/or control requirements for this source:

3745-17-07
3745-17-08
3745-17-11
3745-35-02

(This condition in no way limits the applicability of other requirements of the Ohio Administrative Code to this source.)

2. This air contaminant source shall consist of the transfer of sand and aggregate to elevated storage bins, the unloading of cement to elevated storage silo, and the cement silo vent for the operation of the concrete batching plant.

3. Cement Transferring and Storage

Cement shall be transferred pneumatically to storage. The pneumatic system shall be adequately enclosed so as to eliminate at all times visible emissions of fugitive dust. Any visible emissions of cement emanation from the delivery vehicle shall be cause for the immediate halt of the unloading process and the refusal of the cement load until the situation is corrected.

The cement silo vent shall be adequately enclosed and vented to a fabric filter. The enclosure shall be sufficient so as to minimize at all times visible emissions of fugitive dust at the points of capture. The fabric filter shall achieve an outlet emissions rate of not greater than 0.030 grains of particulate emissions per dry standard cubic foot of exhaust gases or there shall be no visible emissions from the outlet, whichever is greater.

4. Transfer of Sand and Aggregate

All sand and aggregate transferred to the elevated storage bins shall contain sufficient moisture so as to minimize or eliminate visible emissions of fugitive dust and the elevated storage bins shall be enclosed.

During the loading of the sand and aggregate conveyor, the drop height of the front-end loader shall be minimized in order to minimize or eliminate the visible emissions of fugitive dust.

This facility, shall maintain records of the amounts of sand, stone and cement processed at this facility, These records shall be keep in a central location for a minimum of three years and shall be made available upon request to the Ohio EPA.
