

Re: Permit to Install
Stark County
Application No. 15-282

July 31, 1985

Gregory Galvanizing & Metal Processing, Inc.
P.O. Box 6029
Canton, Ohio 44706

Attention: Steve Gregory

CERTIFIED MAIL

Dear Sir:

Enclosed please find an Ohio EPA Permit to Install which will allow you to install the described source(s) in a manner indicated in the permit. Because this permit contains several conditions and restrictions I urge you to read it carefully.

You are hereby notified that this action by the Director is final and may be appealed to the Environmental Board of Review pursuant to Chapter 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed with the Environmental Board of Review within thirty (30) days after notice of the Director's action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency and the Environmental Law Division of the Office of the Attorney General within three (3) days of filing with the Board. An appeal may be filed with the Environmental Board of Review at the following address:

Environmental Board of Review
250 East Town Street, Room 101
Columbus, Ohio 43215

Very truly yours,

A handwritten signature in cursive script that reads "Patricia P. Walling". The signature is written in dark ink and is positioned above the typed name and title.

Patricia P. Walling, Manager
Authorization & Compliance Section
Division of Air Pollution Control

PPW/gs

cc: US EPA
Canton Division of Air Pollution Control

Permit to Install Terms and Conditions

Application No. 15-282
APS Premise No. 1576051532
Permit Fee: \$1180.00

Name of Facility: Gregory Galvanizing and Metal Processing, Inc.

Person to Contact: Steven Gregory

Address: P.O. Box 6029
Canton, Ohio 44706

Location of proposed source(s): 4100 13th St., S.W.
Canton, Ohio

Description of proposed source(s): Continuous Galvanizing Line and 2
Gas Fired Boilers with Packed Tower
Scrubber for Acid-Alkalai Emissions

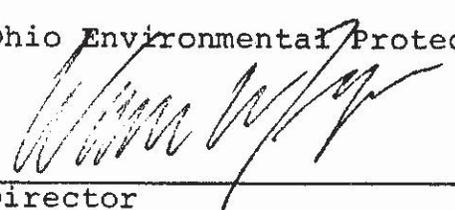

Date of Issuance: July 31, 1985

Effective Date: July 31, 1985

The above named entity is hereby granted a permit to install for the above described source(s) pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described source(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described source(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Director

Gregory Galvanizing & Metal Processing, Inc.
Application No. 15-282

Substantial construction for installation must take place within eighteen months of the effective date of this permit. This deadline may be extended by up to twelve months, if application is made to the Director no less than sixty days before the expiration of this permit and the party shows good cause for any such extension.

The Director of the Ohio Environmental Protection Agency, or his authorized representatives, may enter upon the premises of the above named applicant during construction and operation at any reasonable time for the purpose of making inspections, conducting tests, examining records or reports pertaining to the construction, modification or installation of the above described source of environmental pollutants.

If the construction of the proposed source has already begun or has been completed prior to the date the Director of the Ohio Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC Rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities prove to be inadequate or cannot meet applicable standards.

The specified permit fee must be remitted within 15 days of the effective date of this permit to install.

This permit shall apply only to the source(s) shown on the application approved by the Ohio Environmental Protection Agency.

The appropriate District Office of the Ohio EPA or Local Air Pollution Control Agency shall be notified, in writing as to (a) the construction starting date (b) the construction completion date and (c) the date the facilities were placed into operation.

Emissions from the sources shall not exceed the emission limits specified below:

<u>OEPA Source No.</u>	<u>Source and Identification</u>	<u>BAT Determination</u>	<u>Applicable OAC Rule</u>	<u>Annual Emissions (T/YR)</u>
B001	N. Am. Boiler 1.2 MM BTU	Natural Gas	3745-17-10	.03
B002	N. Am. Boiler 1.2 MM BTU	Natural Gas	3745-17-10	.03
P001	Continuous Galvanizing Line	Packed Tower Scrubber (for Acid-Alkalai)	3745-17-11	26.28

SUMMARY
 TOTAL FACILITY EMISSIONS

<u>Pollutant</u>	<u>Tons/Year</u>
Particulate Matter	26.34

As specified in OAC 3745-31-05, all new sources must, at a minimum, employ Best Available Technology. The following terms and conditions fulfill these requirements and any applicable federal regulations.

The 2 natural gas process steam boilers shall be limited to the use of natural gas.

The galvanizing line shall be equipped with air pollution control devices with a particulate matter design control efficiency of at least 90%. The particulate matter emissions from this source shall not exceed 21.67 lbs./hr.

Gregory Galvanizing shall comply with any applicable state and federal requirements concerning the disposal of waste material generated at this facility.
