Dear Permit Holder:

Enclosed please find a final Ohio Environmental Protection Agency (EPA) Air Pollution Permit-to-Install (PTI) which will allow you to install or modify the described emissions unit(s) in a manner indicated in the permit. Because this permit contains several conditions and restrictions, we urge you to read it carefully. Because this permit contains conditions and restrictions, please read it very carefully. In this letter you will find the information on the following topics:

- **How to appeal this permit**
- **How to save money, reduce pollution and reduce energy consumption**
- **How to give us feedback on your permitting experience**
- **How to get an electronic copy of your permit**

**How to appeal this permit**

The issuance of this PTI is a final action of the Director and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Ohio Treasurer Josh Mandel," which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
77 South High Street, 17th Floor  
Columbus, OH 43215

## **How to save money, reduce pollution and reduce energy consumption**

The Ohio EPA is encouraging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Compliance Assistance and Pollution Prevention at (614) 644-3469. Additionally, all or a portion of the capital expenditures related to installing air pollution control equipment under this permit may be eligible for financing and State tax exemptions through the Ohio Air Quality Development Authority (OAQDA) under Ohio Revised Code Section 3706. For more information, see the OAQDA website: [www.ohioairquality.org/clean\\_air](http://www.ohioairquality.org/clean_air)

## **How to give us feedback on your permitting experience**

Please complete a survey at [www.epa.ohio.gov/dapc/pemitsurvey.aspx](http://www.epa.ohio.gov/dapc/pemitsurvey.aspx) and give us feedback on your permitting experience. We value your opinion.

## **How to get an electronic copy of your permit**

This permit can be accessed electronically via the eBusiness Center: Air Services in Microsoft Word format or in Adobe PDF on the Division of Air Pollution Control (DAPC) Web page, [www.epa.ohio.gov/dapc](http://www.epa.ohio.gov/dapc) by clicking the "Search for Permits" link under the Permitting topic on the Programs tab.

If you have any questions, please contact Cleveland Division of Air Quality at (216)664-2297 or the Office of Compliance Assistance and Pollution Prevention at (614) 644-3469.

Sincerely,

*Michael W. Ahern*

**Final Permit-to-Install**  
Rochling Glastic Composites  
**Permit Number:** P0111968  
**Facility ID:** 1318544510  
**Effective Date:** 11/21/2012

## Authorization

Facility ID: 1318544510  
Facility Description: Plastic products NEC  
Application Number(s): M0001988  
Permit Number: P0111968  
Permit Description: PTI administrative modification for emissions unit P065 to remove styrene monitoring terms since air toxics policy does not apply due to MACT Subpart WWWW applicability. (Superseded PTI P0110228).  
Permit Type: Administrative Modification  
Permit Fee: \$0.00  
Issue Date: 11/21/2012  
Effective Date: 11/21/2012

This document constitutes issuance to:

Rochling Glastic Composites  
4321 Glenridge Road  
South Euclid, OH 44121-2891

of a Permit-to-Install for the emissions unit(s) identified on the following page.

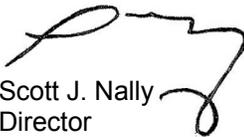

Ohio Environmental Protection Agency (EPA) District Office or local air agency responsible for processing and administering your permit:

Cleveland Division of Air Quality  
2nd Floor  
75 Erieview Plaza  
Cleveland, OH 44114  
(216)664-2297

The above named entity is hereby granted a Permit-to-Install for the emissions unit(s) listed in this section pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

  
Scott J. Nally  
Director

**Final Permit-to-Install**  
Rochling Glastic Composites  
**Permit Number:** P0111968  
**Facility ID:** 1318544510  
**Effective Date:** 11/21/2012

## Authorization (continued)

Permit Number: P0111968

Permit Description: PTI administrative modification for emissions unit P065 to remove styrene monitoring terms since air toxics policy does not apply due to MACT Subpart WWWW applicability. (Superseded PTI P0110228).

Permits for the following Emissions Unit(s) or groups of Emissions Units are in this document as indicated below:

<b>Emissions Unit ID:</b>	<b>P065</b>
Company Equipment ID:	Pultrusion Line 39
Superseded Permit Number:	P0110228
General Permit Category and Type:	Not Applicable

**Final Permit-to-Install**  
Rochling Glastic Composites  
**Permit Number:** P0111968  
**Facility ID:** 1318544510  
**Effective Date:** 11/21/2012

## **A. Standard Terms and Conditions**

## **1. Federally Enforceable Standard Terms and Conditions**

- a) All Standard Terms and Conditions are federally enforceable, with the exception of those listed below which are enforceable under State law only:
  - (1) Standard Term and Condition A.2.a), Severability Clause
  - (2) Standard Term and Condition A.3.c) through A. 3.e) General Requirements
  - (3) Standard Term and Condition A.6.c) and A. 6.d), Compliance Requirements
  - (4) Standard Term and Condition A.9., Reporting Requirements
  - (5) Standard Term and Condition A.10., Applicability
  - (6) Standard Term and Condition A.11.b) through A.11.e), Construction of New Source(s) and Authorization to Install
  - (7) Standard Term and Condition A.14., Public Disclosure
  - (8) Standard Term and Condition A.15., Additional Reporting Requirements When There Are No Deviations of Federally Enforceable Emission Limitations, Operational Restrictions, or Control Device Operating Parameter Limitations
  - (9) Standard Term and Condition A.16., Fees
  - (10) Standard Term and Condition A.17., Permit Transfers

## **2. Severability Clause**

- a) A determination that any term or condition of this permit is invalid shall not invalidate the force or effect of any other term or condition thereof, except to the extent that any other term or condition depends in whole or in part for its operation or implementation upon the term or condition declared invalid.
- b) All terms and conditions designated in parts B and C of this permit are federally enforceable as a practical matter, if they are required under the Act, or any of its applicable requirements, including relevant provisions designed to limit the potential to emit of a source, are enforceable by the Administrator of the U.S. EPA and the State and by citizens (to the extent allowed by section 304 of the Act) under the Act. Terms and conditions in parts B and C of this permit shall not be federally enforceable and shall be enforceable under State law only, only if specifically identified in this permit as such.

## **3. General Requirements**

- a) The permittee must comply with all terms and conditions of this permit. Any noncompliance with the federally enforceable terms and conditions of this permit constitutes a violation of the Act, and is grounds for enforcement action or for permit revocation, revocation and re-issuance, or modification.

- b) It shall not be a defense for the permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the federally enforceable terms and conditions of this permit.
- c) This permit may be modified, revoked, or revoked and reissued, for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or revocation, or of a notification of planned changes or anticipated noncompliance does not stay any term and condition of this permit.
- d) This permit does not convey any property rights of any sort, or any exclusive privilege.
- e) The permittee shall furnish to the Director of the Ohio EPA, or an authorized representative of the Director, upon receipt of a written request and within a reasonable time, any information that may be requested to determine whether cause exists for modifying or revoking this permit or to determine compliance with this permit. Upon request, the permittee shall also furnish to the Director or an authorized representative of the Director, copies of records required to be kept by this permit. For information claimed to be confidential in the submittal to the Director, if the Administrator of the U.S. EPA requests such information, the permittee may furnish such records directly to the Administrator along with a claim of confidentiality.

#### **4. Monitoring and Related Record Keeping and Reporting Requirements**

- a) Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall maintain records that include the following, where applicable, for any required monitoring under this permit:
  - (1) The date, place (as defined in the permit), and time of sampling or measurements.
  - (2) The date(s) analyses were performed.
  - (3) The company or entity that performed the analyses.
  - (4) The analytical techniques or methods used.
  - (5) The results of such analyses.
  - (6) The operating conditions existing at the time of sampling or measurement.
- b) Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.
- c) Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall submit required reports in the following manner:
  - (1) Reports of any required monitoring and/or recordkeeping of federally enforceable information shall be submitted to the Cleveland Division of Air Quality.

- (2) Quarterly written reports of (i) any deviations from federally enforceable emission limitations, operational restrictions, and control device operating parameter limitations, excluding deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06, that have been detected by the testing, monitoring and recordkeeping requirements specified in this permit, (ii) the probable cause of such deviations, and (iii) any corrective actions or preventive measures taken, shall be made to the Cleveland Division of Air Quality. The written reports shall be submitted (i.e., postmarked) quarterly, by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. See A.15. below if no deviations occurred during the quarter.
  - (3) Written reports, which identify any deviations from the federally enforceable monitoring, recordkeeping, and reporting requirements contained in this permit shall be submitted (i.e., postmarked) to the Cleveland Division of Air Quality every six months, by January 31 and July 31 of each year for the previous six calendar months. If no deviations occurred during a six-month period, the permittee shall submit a semi-annual report, which states that no deviations occurred during that period.
  - (4) This permit is for an emissions unit located at a Title V facility. Each written report shall be signed by a responsible official certifying that, based on information and belief formed after reasonable inquiry, the statements and information in the report are true, accurate, and complete.
- d) The permittee shall report actual emissions pursuant to OAC Chapter 3745-78 for the purpose of collecting Air Pollution Control Fees.

## **5. Scheduled Maintenance/Malfunction Reporting**

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction, i.e., upset, of any emissions units or any associated air pollution control system(s) shall be reported to the Cleveland Division of Air Quality in accordance with paragraph (B) of OAC rule 3745-15-06. (The definition of an upset condition shall be the same as that used in OAC rule 3745-15-06(B)(1) for a malfunction.) The verbal and written reports shall be submitted pursuant to OAC rule 3745-15-06.

Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emission unit(s) that is (are) served by such control system(s).

## **6. Compliance Requirements**

- a) The emissions unit(s) identified in this Permit shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.
- b) Any document (including reports) required to be submitted and required by a federally applicable requirement in this permit shall include a certification by a responsible official that, based on information and belief formed after reasonable inquiry, the statements in the document are true, accurate, and complete.

- c) Upon presentation of credentials and other documents as may be required by law, the permittee shall allow the Director of the Ohio EPA or an authorized representative of the Director to:
  - (1) At reasonable times, enter upon the permittee's premises where a source is located or the emissions-related activity is conducted, or where records must be kept under the conditions of this permit.
  - (2) Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit, subject to the protection from disclosure to the public of confidential information consistent with ORC section 3704.08.
  - (3) Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under this permit.
  - (4) As authorized by the Act, sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit and applicable requirements.
- d) The permittee shall submit progress reports to the Cleveland Division of Air Quality concerning any schedule of compliance for meeting an applicable requirement. Progress reports shall be submitted semiannually or more frequently if specified in the applicable requirement or by the Director of the Ohio EPA. Progress reports shall contain the following:
  - (1) Dates for achieving the activities, milestones, or compliance required in any schedule of compliance, and dates when such activities, milestones, or compliance were achieved.
  - (2) An explanation of why any dates in any schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

## **7. Best Available Technology**

As specified in OAC Rule 3745-31-05, new sources that must employ Best Available Technology (BAT) shall comply with the Applicable Emission Limitations/Control Measures identified as BAT for each subject emissions unit.

## **8. Air Pollution Nuisance**

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

## **9. Reporting Requirements**

The permittee shall submit required reports in the following manner:

- a) Reports of any required monitoring and/or recordkeeping of state-only enforceable information shall be submitted to the Cleveland Division of Air Quality.
- b) Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from state-only required emission limitations, operational restrictions, and control device operating parameter limitations that have

been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the Cleveland Division of Air Quality. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted (i.e., postmarked) quarterly, by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

## **10. Applicability**

This Permit-to-Install is applicable only to the emissions unit(s) identified in the Permit-to-Install. Separate application must be made to the Director for the installation or modification of any other emissions unit(s).

## **11. Construction of New Sources(s) and Authorization to Install**

- a) This permit does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. This permit does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the application and terms and conditions of this permit. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of this permit does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Issuance of this permit is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.
- b) If applicable, authorization to install any new emissions unit included in this permit shall terminate within eighteen months of the effective date of the permit if the owner or operator has not undertaken a continuing program of installation or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.
- c) The permittee may notify Ohio EPA of any emissions unit that is permanently shut down (i.e., the emissions unit has been physically removed from service or has been altered in such a way that it can no longer operate without a subsequent "modification" or "installation" as defined in OAC Chapter 3745-31) by submitting a certification from the authorized official that identifies the date on which the emissions unit was permanently shut down. Authorization to operate the affected emissions unit shall cease upon the date certified by the authorized official that the emissions unit was permanently shut down. At a minimum, notification of permanent shut down shall be made or confirmed by marking the affected emissions unit(s) as "permanently shut down" in Ohio EPA's "Air Services" along with the date the emissions unit(s) was permanently removed and/or disabled. Submitting the facility profile update will constitute notifying of the permanent shutdown of the affected emissions unit(s).

- d) The provisions of this permit shall cease to be enforceable for each affected emissions unit after the date on which an emissions unit is permanently shut down (i.e., emissions unit has been physically removed from service or has been altered in such a way that it can no longer operate without a subsequent "modification" or "installation" as defined in OAC Chapter 3745-31). All records relating to any permanently shutdown emissions unit, generated while the emissions unit was in operation, must be maintained in accordance with law. All reports required by this permit must be submitted for any period an affected emissions unit operated prior to permanent shut down. At a minimum, the permit requirements must be evaluated as part of the reporting requirements identified in this permit covering the last period the emissions unit operated.

No emissions unit certified by the authorized official as being permanently shut down may resume operation without first applying for and obtaining a permit pursuant to OAC Chapter 3745-31.

- e) The permittee shall comply with any residual requirements related to this permit, such as the requirement to submit a deviation report, air fee emission report, or other any reporting required by this permit for the period the operating provisions of this permit were enforceable, or as required by regulation or law. All reports shall be submitted in a form and manner prescribed by the Director. All records relating to this permit must be maintained in accordance with law.

## **12. Permit-To-Operate Application**

The permittee is required to apply for a Title V permit pursuant to OAC Chapter 3745-77. The permittee shall submit a complete Title V permit application or a complete Title V permit modification application within twelve (12) months after commencing operation of the emissions units covered by this permit. However, if the proposed new or modified source(s) would be prohibited by the terms and conditions of an existing Title V permit, a Title V permit modification must be obtained before the operation of such new or modified source(s) pursuant to OAC rule 3745-77-04(D) and OAC rule 3745-77-08(C)(3)(d).

## **13. Construction Compliance Certification**

The applicant shall identify the following dates in the online facility profile for each new emissions unit identified in this permit.

- a) Completion of initial installation date shall be entered upon completion of construction and prior to start-up.
- b) Commence operation after installation or latest modification date shall be entered within 90 days after commencing operation of the applicable emissions unit.

## **14. Public Disclosure**

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

**15. Additional Reporting Requirements When There Are No Deviations of Federally Enforceable Emission Limitations, Operational Restrictions, or Control Device Operating Parameter Limitations**

If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly (i.e., postmarked), by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters.

**16. Fees**

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable permit-to-install fees within 30 days after the issuance of any permit-to-install. The permittee shall pay all applicable permit-to-operate fees within thirty days of the issuance of the invoice.

**17. Permit Transfers**

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The new owner must update and submit the ownership information via the "Owner/Contact Change" functionality in Air Services once the transfer is legally completed. The change must be submitted through Air Services within thirty days of the ownership transfer date.

**18. Risk Management Plans**

If the permittee is required to develop and register a risk management plan pursuant to section 112(r) of the Clean Air Act, as amended, 42 U.S.C. 7401 et seq. ("Act"), the permittee shall comply with the requirement to register such a plan.

**19. Title IV Provisions**

If the permittee is subject to the requirements of 40 CFR Part 72 concerning acid rain, the permittee shall ensure that any affected emissions unit complies with those requirements. Emissions exceeding any allowances that are lawfully held under Title IV of the Act, or any regulations adopted thereunder, are prohibited.

**Final Permit-to-Install**  
Rochling Glastic Composites  
**Permit Number:** P0111968  
**Facility ID:** 1318544510  
**Effective Date:** 11/21/2012

## **B. Facility-Wide Terms and Conditions**

1. All the following facility-wide terms and conditions are federally enforceable with the exception of those listed below which are enforceable under state law only:
  - a) None.
2. Applicable Emissions Limitations and/or Control Requirements
  - a) Emissions from this facility shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table:

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	40 CFR Part 63, Subpart WWWW (40 CFR 63.5780 - 5935)	Organic hazardous air pollutants (Organic HAPs) shall not exceed emissions standards as specified in 40 CFR 63.5805, Subpart WWWW.  See 2.b)(1). below.
b.	40 CFR Part 63, Subpart WWWW (40 CFR 63.5780 - 5935)	Work practice standards must be followed in accordance with the applicable portions of 40 CFR 63.5805 and Table 4.
c.	40 CFR Part 63.1 through 63.15, Subpart A.	The General Provisions that apply are specified in Table 15 of 40 CFR Part 63, Subpart WWWW.

b) Additional Terms and Conditions

(1) This facility is subject to the requirements of 40 CFR Part 63 Subpart WWWW – National Emission Standards for Hazardous Air Pollutants for Specific Open Molding, Centrifugal Casting, Pultrusion, and Continuous Lamination/Casting Operations. The permittee shall comply with the applicable emission limitations and operational restrictions specified in 40 CFR Part 63.5780 to 63.5935. The complete MACT requirements, including the MACT General Provisions may be accessed via the internet from the Electronic Code of Federal Regulations (e-CFR) website <http://www.ecfr.gpoaccess.gov> or by contacting the Cleveland Division of Air Quality (Cleveland DAQ).

c) Operational Restrictions

(1) The permittee shall comply with the applicable operational restrictions and requirements under 40 CFR, Part 63, Subpart WWWW, including the following sections:

63.5805	Table 4 – work practice standards
---------	-----------------------------------

[Authority for term: OAC rule 3745-77-07(A)(1) and 40 CFR, Part 63, Subpart WWWW]

d) Monitoring and/or Recordkeeping Requirements

- (1) The permittee shall comply with the applicable monitoring and recordkeeping requirements under 40 CFR, Part 63, Subpart WWWW, including the following sections:

63.5895(c) – (d)	Records of resin use, organic HAP content, operation and application methods.
63.5915(a)	Copy of compliance notification(s) and report(s)
63.5915(c)	Records of all calculations and data used to determine organic HAP emission factors; or Average organic HAP content for operations listed in tables 3, 5, and 7 of the subpart.
63.5915(d)	Certified statement of compliance with work practice requirements.
63.5920(a) – (d)	Recordkeeping format and retention requirements.

[Authority for term: OAC rule 3745-77-07(A)(1) and 40 CFR Part 63 Subpart WWWW]

e) Reporting Requirements

- (1) The permittee shall comply with the applicable reporting requirements under 40 CFR, Part 63, Subpart WWWW, including the following sections:

63.5905(b)	15-day notification of changes.
63.5910(a) – (b) and Table 14	Semi-annual compliance reports.
63.5910(c) – (i) and Table 14	Content of semi-annual compliance reports.

[Authority for term: OAC rule 3745-77-07(A)(1) and 40 CFR Part 63 Subpart WWWW]

f) Testing Requirements

- (1) Compliance with the Emissions Limitations and/or Control Requirements specified in b) of these terms and conditions shall be determined in accordance with the following methods:

- a. The permittee shall comply with the applicable compliance requirements under 40 CFR, Part 63, Subpart WWWW, including the following sections:

63.5900	Demonstration of continuous compliance
---------	--

**Final Permit-to-Install**  
Rochling Glastic Composites  
**Permit Number:** P0111968  
**Facility ID:** 1318544510  
**Effective Date:** 11/21/2012

## **C. Emissions Unit Terms and Conditions**

**1. P065, Pultrusion Line 39**

**Operations, Property and/or Equipment Description:**

Pultrusion Line - Wet out bath and cutting saw for plastic molding. Emissions unit controlled by a central dust collector.

a) The following emissions unit terms and conditions are federally enforceable with the exception of those listed below which are enforceable under state law only.

(1) None.

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operation(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures are identified below. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3) As effective 11/30/2001	Fugitive organic compound emissions shall not exceed 40.0 lbs/day from the pultrusion line (P065).  Particulate emissions shall not exceed 1.0 lb/hr from this emissions unit (stack emissions).  Visible particulate emissions from the baghouse stack shall not exceed 5% opacity, as a 6-minute average, except as provided by rule.
b.	OAC rule 3745-31-05(E) (PTI 13-04722 issued 11/1/2007 and modified PTI P0110228 issued 9/6/2012)	Fugitive organic compound emissions shall not exceed 7.3 tons/yr from the pultrusion line (P065).  Fugitive organic compound (OC) emissions shall not exceed 2.56 tons/yr from all cleanup material employed in emissions units P023, P026, P027, P028, P029, P030, P032, P033, P034, P035, P036, P037, P038, P039, P040 and P065 combined .

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
c.	OAC rule 3745-17-07(A)(1)	Visible particulate emissions from the baghouse stack shall not exceed 20% opacity, as a 6-minute average, except as provided by rule.  This limit applies after the SIP is approved per b)(2)e. below.
d.	OAC rule 3745-17-11(B)	2.91 lbs of particulate emissions (PE)/hr (stack emissions).  This limit applies after the SIP is approved per b)(2)e. below.
e.	OAC rule 3745-21-25	The requirements of this rule are equivalent to the MACT requirements in 40 CFR Part 63, Subpart WWWW.
f.	OAC rule 3745-31-05(A)(3)(a)(ii) As effective 12/01/2006	See b)(2)c. and b)(2)d. below.
g.	40 CFR Part 63, Subpart WWWW	The permittee shall comply with the applicable requirements of 40 CFR Part 63, Subpart WWWW (National Emission Standards for Hazardous Air Pollutants: Reinforced Plastic Composites Production) as specified in Section B..

(2) Additional Terms and Conditions

- a. The particulate emissions from this emissions unit shall be vented to the central baghouse dust collector that controls the particulate emissions from all of the emissions units at this facility.
- b. The OC emission factors used to calculate the OC emissions were established by the permittee. Should more accurate emission factors be developed in the future, the permittee shall use them, provided the emission factors are mutually agreeable between the Ohio EPA, through the Cleveland DAQ, and Glastic Corporation, South Euclid Facility.

- c. Permit to Install P0111968 for this air contaminant takes into account the following voluntary restrictions (including the use of any applicable air pollution control equipment) as proposed by the permittee for the purpose of avoiding Best Available Technology (BAT) requirements for particulate emissions under OAC rule 3745-31-05(A)(3):
  - i. Use of baghouse by pultrusion line #39 (P065).
- d. Permit to Install P0111968 for this air contaminant takes into account the following voluntary restrictions (including the use of any applicable air pollution control equipment) as proposed by the permittee for the purpose of avoiding Best Available Technology (BAT) requirements for organic compound emissions under OAC rule 3745-31-05(A)(3):
  - i. Adherence to work practice standards and engineering controls specified in 40 CFR 63, Subpart WWWW.
- e. The permittee has satisfied the Best Available Technology (BAT) requirements pursuant to PAC paragraph 3745-31-05(A)(3), as effective November 30, 2001, in this permit. On December 1, 2006, paragraph (A)(3) was revised to conform to ORC changes effective August 3, 2006 (SB 265 changes), such that BAT is no longer required by State regulations for NAAQS pollutants less than ten tons per year. However, that rule revision has not yet been approved by the U.S. EPA as a revision to Ohio's State Implementation Plan (SIP). Therefore, until the SIP revision occurs and the U.S. EPA approves the revision to OAC rule 3745-31-05, the requirements to satisfy BAT as part of the federally-approved SIP for Ohio.

Once the U.S. EPA approves the December 1, 2006 version of OAC rule 3745-31-05, then these emission limits/control measures no longer apply.
- f. The emission of organic material from the pultrusion operation consists of styrene, a photochemically reactive material and hazardous air pollutant (HAP).
- g. In accordance with paragraph (A)(3) of OAC rule 3745-21-25, upon achieving compliance with this rule, the reinforced plastic composite production operations at this facility are not required to meet the February 18, 2008 revision of OAC rule 3745-21-07.

c) Operational Restrictions

- (1) The permittee shall operate the baghouse whenever this emissions unit is in operation. The permittee shall maintain the baghouse in accordance with the manufacturer's recommendations, instructions, and/or operating manuals, with any modifications deemed necessary by the permittee.

In the event that the baghouse is not operating in accordance with the manufacturer's recommendations, instructions, or operating manuals, with any modifications deemed necessary by the permittee, the control device shall be expeditiously repaired and returned to these documented operating conditions.

[Authority for term: OAC rule 3745-77-07(A)(1)]

- (2) The permittee shall keep containers that store HAP-containing materials and cleanup materials closed or covered, except during the additional or removal of materials. Bulk HAP-containing material storage tanks may be vented as necessary for safety.

[Authority for term: OAC rule 3745-77-07(A)(1).

d) **Monitoring and/or Recordkeeping Requirements**

- (1) The permittee shall maintain and record the following information for each day when this emissions unit is in operation:
  - a. the name of each type of pultrusion part;
  - b. the emission factor for each type of pultrusion part, in lbs of OC emissions/square foot of wet area/hr;
  - c. the wet area for each type of pultrusion part, in square feet;
  - d. the OC emissions for each type of pultrusion part, in lbs [(b) x (c)];
  - e. the total OC emissions from all pultrusion parts, in lbs [summation of (d) for all pultrusion parts made];
  - f. the total number of hours this emissions unit was in operation; and
  - g. the average hourly OC emission rate, in lbs/hr (e/f).

[Authority for term: OAC rule 3745-77-07(C)(1)]

- (2) The permittee shall maintain monthly records of the following information for emissions units P023, P026, P027, P028, P029, P030, P032, P033, P034, P035, P036, P037, P038, P039, P040 and P065 combined:
  - a. the volume of each cleanup material dispensed, in gallons;
  - b. the volume of each cleanup material returned, in gallons;
  - c. the volume of each evaporated cleanup material, in gallons. This shall be calculated by subtracting the volume of each returned cleanup material from the volume of each dispensed cleanup material [(a) - (b)];
  - d. the OC content of each cleanup material employed, in lbs/gallon; and

- e. the OC emissions from all cleanup materials employed, in lbs [the summation of (c) x (d) for all cleanup material employed).

[Authority for term: OAC rule 3745-77-07(C)(1)]

- (3) The permittee shall maintain annual records of the total OC emissions from all cleanup material employed for the calendar year, in tons [summation of d)(2)e. for all months of the calendar year and divided by 2,000 lbs/ton].

[Authority for term: OAC rule 3745-77-07(C)(1)]

- (4) The permittee shall perform weekly checks, when the emissions unit is in operation and when the weather conditions allow, for any visible PE from the stack serving this emissions unit. The presence or absence of any visible emissions shall be noted in an operations log. If visible emissions are observed, the permittee shall also note the following in the operations log:

- a. the color of the emissions;
- b. whether the emissions are representative of normal operations;
- c. if the emissions are not representative of normal operations, the cause of the abnormal emissions;
- d. the total duration of any visible emission incident; and
- e. any corrective actions taken to eliminate the visible emissions.

If the weekly checks show visible emissions that are representative of normal operation for 12 consecutive operating weeks, the required frequency of visible emissions checks may be reduced to monthly. If a subsequent check indicates abnormal visible emissions, the frequency of emissions checks shall revert to weekly until such time there are 12 consecutive operating weeks of normal visible emissions

[Authority for term: OAC rule 3745-77-07(C)(1)]

- (5) The permittee shall maintain daily records that document any time period when the dry filtration system was not in service with this emissions unit was in operation.

[Authority for term: OAC rule 3745-77-07(C)(1)]

e) Reporting Requirements

- (1) The permittee shall submit quarterly deviation (excursion) reports that include an identification of each day during which the daily OC emission limitation for this emissions unit was exceeded, and what the daily OC emissions were for each such day.

[Authority for term: OAC rule 3745-77-07(C)(1)]

- (2) The quarterly deviation (excursion) reports shall be submitted in accordance with the Standard Terms and Conditions of this permit.

[Authority for term: OAC rule 3745-15-03(B)(1)(a), OAC rule 3745-15-03(c), and OAC rule 3745-77-07(C)(1)]

- (3) The permittee shall notify Cleveland DAQ in writing of any daily records showing that the baghouse was not in service when the emissions unit was in operation. The notification shall include a copy of such record and shall be sent within 30 days after the event occurs.

[Authority for term: OAC rule 3745-77-07(C)(1)]

- (4) The permittee shall submit semiannual written reports that (a) identify all days during which any visible PE were observed from the stack serving this emissions unit and (b) describe any corrective actions taken to eliminate the visible particulate emissions. These reports shall be submitted to the Cleveland DAQ by January 31 and July 31 of each year and shall cover the previous 6-month period.

[Authority for term: OAC rule 3745-77-07(C)(1)]

- (5) The permittee shall submit annual reports to the Cleveland Division of Air Quality that specify the total OC emissions (i.e., from all the pultrusion parts made by this emissions unit and from cleanup material employed from all pultrusion lines) for the previous calendar year, in tons. The reports shall be submitted by April 15 of each year. This reporting requirement may be satisfied by including and identifying the specific emission data for this emissions unit in the annual Fee Emission Reports.

[Authority for term: OAC rule 3745-77-07(C)(1)]

- (6) Unless other arrangements have been approved by the Director, all notifications and reports shall be submitted through the Ohio EPA's eBusiness Center: Air Services online web portal.

[Authority for term: OAC rule 3745-77-07(C)(1)]

f) Testing Requirements

- (1) Compliance with the Emissions Limitations and/or Control Requirements specified in b) of these terms and conditions shall be determined in accordance with the following methods:

a. Emission Limitation:

40 lbs of OC emissions/day, from the pultrusion line (fugitive emissions).

Applicable Compliance Method:

Compliance with the daily OC emission limitation shall be determined by the record keeping requirements specified by in d)(1). [Authority for term: OAC rule 3745-77-07(C)(1)]

b. Emission Limitation:

7.3 tons of OC emissions per year from the pultrusion line

Applicable Compliance Method:

Compliance shall be determined by summing the daily OC emissions and dividing by 2,000 lbs/ton.

[Authority for term: OAC rule 3745-77-07(C)(1)]

c. Emission Limitation:

Fugitive OC emissions shall not exceed 2.56 tons/year from all cleanup material employed for emissions units P023, P026, P027, P028, P029, P030, P032, P033, P034, P035, P036, P037, P038, P039, P040 and P065 combined

Applicable Compliance Method:

Compliance shall be determined through the recordkeeping requirements established in d)(2) and d)(3).

[Authority for term: OAC rule 3745-77-07(C)(1)]

d. Emission Limitation:

Particulate emissions shall not exceed 1.0 lb/hour from this emissions unit.

Applicable Compliance Method:

If required, compliance with the lb/hour limitation shall be demonstrated through emissions test performed in accordance with 40 CFR Part 60, Appendix A, Methods 1 through 5 and the procedures specified in OAC rule 3745-17-03(B)(1).

[Authority for term: OAC rule 3745-77-07(C)(1)]

e. Emission Limitation:

Visible particulate emissions from the baghouse stack shall not exceed 5% opacity as a 6-minute average.

Applicable Compliance Method:

If required, compliance shall be determined through visible emissions observations performed in accordance with 40 CFR Part 60, Appendix A, Method 9.

[Authority for term: OAC rule 3745-77-07(C)(1)]

f. Emission Limitation:

Visible particulate emissions from the baghouse stack shall not exceed 20% opacity, as a 6-minute average. This limit applies after the SIP is approved per b)(2)e.

Applicable Compliance Method:

If required, compliance shall be determined through visible emissions observations performed in accordance with 40 CFR Part 60, Appendix A, Method 9.

[Authority for term: OAC rule 3745-77-07(C)(1)]

g. Emission Limitation:

2.91 lbs of particulate emissions (PE)/hr, from emission unit P065 (stack emissions). This limit applies after the SIP is approved per b)(2)e.

Applicable Compliance Method:

The hourly PE emission rate from the baghouse stack was determined by the following methodology:

$HER = (DCFR) \times (DCEF) \times (TI) \times (CONV) = \text{lb PE/hr (combined total for all emission units that are vented to the baghouse)}$

HER = hourly emission rate (lb of PE/hr);

DCFR = total dust collector flow rate (dscf/min);

DCEF = dust collector efficiency (grain/dscf);

TI = time (60 minutes/hr); and

CONV = conversion factor 1 lb/7,000 grains).

If required, the permittee shall demonstrate compliance with the hourly PE limitation through emission tests performed in accordance with 40 CFR Part 60, Appendix A, Methods 1-5, as appropriate.

[Authority for term: OAC rule 3745-77-07(C)(1)]

g) Miscellaneous Requirements

(1) Potential to emit calculations:

particulate emissions:

Controlled outlet emission rate from baghouse:

$$22,703 \text{ dscf/min} \times 0.005 \text{ gr/dscf} \times 60 \text{ mins/hr} \times \text{lb}/7000 \text{ gr} = 0.97 \text{ lb PE/hr; and}$$

$$0.97 \text{ lb PE/hr} \times (8,760 \text{ hrs/year}) \times (\text{ton}/2000 \text{ lbs}) = 4.25 \text{ TPY of PE (total for all emissions units that are vented to the baghouse)}$$

[Authority for term: OAC rule 3745-77-07(C)(1)]
