**Application No: 05-14397**

**Fac ID: 0575010106**

**DATE: 2/8/2007**

American Trim L.L.C.  
Bob Ostendorf  
1501 W Michigan Ave  
Sidney, OH 45365

Enclosed please find an Ohio EPA Permit to Install which will allow you to install the described source(s) in a manner indicated in the permit. Because this permit contains several conditions and restrictions, I urge you to read it carefully.

The Ohio EPA is urging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Pollution Prevention at (614) 644-3469.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
309 South Fourth Street, Room 222  
Columbus, OH 43215

Sincerely,

*Michael W. Ahern*

Terms and Conditions**

**Issue Date: 2/8/2007  
Effective Date: 2/8/2007**

---

**FINAL PERMIT TO INSTALL 05-14397**

Application Number: 05-14397  
Facility ID: 0575010106  
Permit Fee: **\$200**  
Name of Facility: American Trim L.L.C.  
Person to Contact: Bob Ostendorf  
Address: 1501 W Michigan Ave  
Sidney, OH 45365

Location of proposed air contaminant source(s) [emissions unit(s)]:  
**1501 W Michigan Ave  
Sidney, Ohio**

Description of proposed emissions unit(s):  
**PTI application for adding a 3.0 MMBtu/hr natural gas fired oven on C-5 coating/printing press.**

The above named entity is hereby granted a Permit to Install for the above described emissions unit(s) pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

---

Chris Korleski  
Director

## Part I - GENERAL TERMS AND CONDITIONS

### A. State and Federally Enforceable Permit-To-Install General Terms and Conditions

#### 1. Monitoring and Related Recordkeeping and Reporting Requirements

- a. Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall maintain records that include the following, where applicable, for any required monitoring under this permit:
  - i. The date, place (as defined in the permit), and time of sampling or measurements.
  - ii. The date(s) analyses were performed.
  - iii. The company or entity that performed the analyses.
  - iv. The analytical techniques or methods used.
  - v. The results of such analyses.
  - vi. The operating conditions existing at the time of sampling or measurement.
- b. Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.
- c. Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall submit required reports in the following manner:
  - i. Reports of any required monitoring and/or recordkeeping of federally enforceable information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
  - ii. Quarterly written reports of (i) any deviations from federally enforceable emission limitations, operational restrictions, and control device operating parameter limitations, excluding deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06, that have been detected by the testing, monitoring and recordkeeping requirements specified in this permit, (ii) the probable cause of such deviations, and (iii) any corrective actions or preventive measures taken, shall be made to

American Trim L.L.C.  
PTI Application: 05-14397  
Issued: 2/8/2007

Facility ID: 0575010106

the appropriate Ohio EPA District Office or local air agency. The written reports shall be submitted (i.e., postmarked) quarterly, by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. See B.9 below if no deviations occurred during the quarter.

- iii. Written reports, which identify any deviations from the federally enforceable monitoring, recordkeeping, and reporting requirements contained in this permit shall be submitted (i.e., postmarked) to the appropriate Ohio EPA District Office or local air agency every six months, by January 31 and July 31 of each year for the previous six calendar months. If no deviations occurred during a six-month period, the permittee shall submit a semi-annual report, which states that no deviations occurred during that period.
  - iv. If this permit is for an emissions unit located at a Title V facility, then each written report shall be signed by a responsible official certifying that, based on information and belief formed after reasonable inquiry, the statements and information in the report are true, accurate, and complete.
- d. The permittee shall report actual emissions pursuant to OAC Chapter 3745-78 for the purpose of collecting Air Pollution Control Fees.

## 2. Scheduled Maintenance/Malfunction Reporting

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction, i.e., upset, of any emissions units or any associated air pollution control system(s) shall be reported to the appropriate Ohio EPA District Office or local air agency in accordance with paragraph (B) of OAC rule 3745-15-06. (The definition of an upset condition shall be the same as that used in OAC rule 3745-15-06(B)(1) for a malfunction.) The verbal and written reports shall be submitted pursuant to OAC rule 3745-15-06.

Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emission unit(s) that is (are) served by such control system(s).

## 3. Risk Management Plans

If the permittee is required to develop and register a risk management plan pursuant to section 112(r) of the Clean Air Act, as amended, 42 U.S.C. 7401 et seq. ("Act"), the permittee shall comply with the requirement to register such a plan.

American Trim L.L.C.  
PTI Application: 05-14397  
Issued: 2/8/2007

Facility ID: 0575010106

#### 4. Title IV Provisions

If the permittee is subject to the requirements of 40 CFR Part 72 concerning acid rain, the permittee shall ensure that any affected emissions unit complies with those requirements. Emissions exceeding any allowances that are lawfully held under Title IV of the Act, or any regulations adopted thereunder, are prohibited.

#### 5. Severability Clause

A determination that any term or condition of this permit is invalid shall not invalidate the force or effect of any other term or condition thereof, except to the extent that any other term or condition depends in whole or in part for its operation or implementation upon the term or condition declared invalid.

#### 6. General Requirements

- a. The permittee must comply with all terms and conditions of this permit. Any noncompliance with the federally enforceable terms and conditions of this permit constitutes a violation of the Act, and is grounds for enforcement action or for permit revocation, revocation and re-issuance, or modification
- b. It shall not be a defense for the permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the federally enforceable terms and conditions of this permit.
- c. This permit may be modified, revoked, or revoked and reissued, for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or revocation, or of a notification of planned changes or anticipated noncompliance does not stay any term and condition of this permit.
- d. This permit does not convey any property rights of any sort, or any exclusive privilege.
- e. The permittee shall furnish to the Director of the Ohio EPA, or an authorized representative of the Director, upon receipt of a written request and within a reasonable time, any information that may be requested to determine whether cause exists for modifying or revoking this permit or to determine compliance with this permit. Upon request, the permittee shall also furnish to the Director or an authorized representative of the Director, copies of records required to be kept by this permit. For information claimed to be confidential in the submittal to the Director, if the Administrator of the U.S. EPA requests such information, the permittee may furnish such records directly to the Administrator along with a claim of confidentiality.

**American Trim L.L.C.**  
**PTI Application: 05-14397**  
**Issued: 2/8/2007**

**Facility ID: 0575010106**

## **7. Fees**

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable permit-to-install fees within 30 days after the issuance of any permit-to-install. The permittee shall pay all applicable permit-to-operate fees within thirty days of the issuance of the invoice.

## **8. Federal and State Enforceability**

Only those terms and conditions designated in this permit as federally enforceable, that are required under the Act, or any its applicable requirements, including relevant provisions designed to limit the potential to emit of a source, are enforceable by the Administrator of the U.S. EPA and the State and by citizens (to the extent allowed by section 304 of the Act) under the Act. All other terms and conditions of this permit shall not be federally enforceable and shall be enforceable under State law only.

## **9. Compliance Requirements**

- a. Any document (including reports) required to be submitted and required by a federally applicable requirement in this permit shall include a certification by a responsible official that, based on information and belief formed after reasonable inquiry, the statements in the document are true, accurate, and complete.
- b. Upon presentation of credentials and other documents as may be required by law, the permittee shall allow the Director of the Ohio EPA or an authorized representative of the Director to:
  - i. At reasonable times, enter upon the permittee's premises where a source is located or the emissions-related activity is conducted, or where records must be kept under the conditions of this permit.
  - ii. Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit, subject to the protection from disclosure to the public of confidential information consistent with ORC section 3704.08.
  - iii. Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under this permit.

American Trim L.L.C.  
PTI Application: 05-14397  
Issued: 2/8/2007

Facility ID: 0575010106

- iv. As authorized by the Act, sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit and applicable requirements.
- c. The permittee shall submit progress reports to the appropriate Ohio EPA District Office or local air agency concerning any schedule of compliance for meeting an applicable requirement. Progress reports shall be submitted semiannually, or more frequently if specified in the applicable requirement or by the Director of the Ohio EPA. Progress reports shall contain the following:
  - i. Dates for achieving the activities, milestones, or compliance required in any schedule of compliance, and dates when such activities, milestones, or compliance were achieved.
  - ii. An explanation of why any dates in any schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

#### 10. Permit-To-Operate Application

- a. If the permittee is required to apply for a Title V permit pursuant to OAC Chapter 3745-77, the permittee shall submit a complete Title V permit application or a complete Title V permit modification application within twelve (12) months after commencing operation of the emissions units covered by this permit. However, if the proposed new or modified source(s) would be prohibited by the terms and conditions of an existing Title V permit, a Title V permit modification must be obtained before the operation of such new or modified source(s) pursuant to OAC rule 3745-77-04(D) and OAC rule 3745-77-08(C)(3)(d).
- b. If the permittee is required to apply for permit(s) pursuant to OAC Chapter 3745-35, the source(s) identified in this permit is (are) permitted to operate for a period of up to one year from the date the source(s) commenced operation. Permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws, regulations, and policies. Pursuant to OAC Chapter 3745-35, the permittee shall submit a complete operating permit application within ninety (90) days after commencing operation of the source(s) covered by this permit.

#### 11. Best Available Technology

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

**American Trim L.L.C.**  
**PTI Application: 05-14397**  
**Issued: 2/8/2007**

**Facility ID: 0575010106**

**12. Air Pollution Nuisance**

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

**American Trim L.L.C.**  
**PTI Application: 05-14397**  
**Issued: 2/8/2007**

**Facility ID: 0575010106**

### **13. Permit-To-Install**

A permit-to-install must be obtained pursuant to OAC Chapter 3745-31 prior to "installation" of "any air contaminant source" as defined in OAC rule 3745-31-01, or "modification", as defined in OAC rule 3745-31-01, of any emissions unit included in this permit.

## **B. State Only Enforceable Permit-To-Install General Terms and Conditions**

### **1. Compliance Requirements**

The emissions unit(s) identified in this Permit shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.

### **2. Reporting Requirements**

The permittee shall submit required reports in the following manner:

- a. Reports of any required monitoring and/or recordkeeping of state-only enforceable information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
- b. Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from state-only required emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the appropriate Ohio EPA District Office or local air agency. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted (i.e., postmarked) quarterly, by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

### **3. Permit Transfers**

Any transferee of this permit shall assume the responsibilities of the prior permit holder.

**American Trim L.L.C.**  
**PTI Application: 05-14397**  
**Issued: 2/8/2007**

**Facility ID: 0575010106**

The appropriate Ohio EPA District Office or local air agency must be notified in writing of any transfer of this permit.

**American Trim L.L.C.**  
**PTI Application: 05-14397**  
**Issued: 2/8/2007**

**Facility ID: 0575010106**

**4. Authorization To Install or Modify**

If applicable, authorization to install or modify any new or existing emissions unit included in this permit shall terminate within eighteen months of the effective date of the permit if the owner or operator has not undertaken a continuing program of installation or modification or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation or modification. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

**5. Construction of New Sources(s)**

This permit does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. This permit does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the application and terms and conditions of this permit. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of this permit does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Issuance of this permit is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.

**6. Public Disclosure**

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

**7. Applicability**

This Permit to Install is applicable only to the emissions unit(s) identified in the Permit To Install. Separate application must be made to the Director for the installation or modification of any other emissions unit(s).

**8. Construction Compliance Certification**

American Trim L.L.C.  
 PTI Application: 05-14397  
 Issued: 2/8/2007

Facility ID: 0575010106

If applicable, the applicant shall provide Ohio EPA with a written certification (see enclosed form if applicable) that the facility has been constructed in accordance with the permit-to-install application and the terms and conditions of the permit-to-install. The certification shall be provided to Ohio EPA upon completion of construction but prior to startup of the source.

**9. Additional Reporting Requirements When There Are No Deviations of Federally Enforceable Emission Limitations, Operational Restrictions, or Control Device Operating Parameter Limitations (See Section A of This Permit)**

If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly (i.e., postmarked), by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters.

**C. Permit-To-Install Summary of Allowable Emissions**

**SUMMARY (for informational purposes only)  
 TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS**

<u>Pollutant</u>	<u>Tons Per Year</u>
NOx	2.714
CO	1.104
PE	0.086
PM10	0.1
SO2	0.008
VOC	14.92*

\* Combined allowable from emissions units K005-K009.

**American Trim L.L.C.**  
**PTI Application: 05-14397**  
**Issued: 2/8/2007**

**Facility ID: 0575010106**

**Part II - FACILITY SPECIFIC TERMS AND CONDITIONS**

**A. State and Federally Enforceable Permit To Install Facility Specific Terms and Conditions**

None

**B. State Only Enforceable Permit To Install Facility Specific Terms and Conditions**

None

**Part III - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)**

**A. State and Federally Enforceable Section**

**I. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

**Operations, Property, and/or Equipment - (K005) - Coating line with a 3.0 MMBtu/hr natural gas fired curing oven.**

Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
OAC rule 3745-31-05(A)(3)	<p>The Volatile organic compound (VOC) content of the coatings shall not exceed 5.35 pounds per gallon.</p> <p>The emissions from natural gas and propane combustion in the drying ovens shall not exceed the following:</p> <p>0.6 lb/hr and 2.714 tons/yr nitrogen oxides (NOx)            0.252 lb/hr and 1.104 ton/yr carbon monoxide (CO)            0.02 lb/hr and 0.086 ton/yr filterable particulate emissions (PE)            0.023 lb/hr and 0.1 ton/yr PM10            0.002 lb/hr and 0.008 ton/yr sulfur dioxide (SO2)            0.017 lb/hr and 0.072 ton/yr VOC</p> <p>Compliance with the requirements of this rule also include compliance with the requirements of OAC rules 3745-17-07(A) and 3745-21-09(U)(2)(e)(iii).</p>

Emissions Unit ID: K005

OAC rule 3745-31-05(C)	<p>The VOC emissions, for emissions units K005 through K009, combined, shall not exceed 14.87 tons per rolling, 12-month period.</p> <p>The actual usage of Hazardous Air Pollutants (HAPs), as identified in Section 112(b) of Title III of the Clean Air Act, from all non-insignificant emissions units at this facility shall not exceed 9.0 TPY* for any single HAP and 22.5 TPY* for any combination of HAPs. Compliance with the above limitations shall be based on a rolling, 12-month summation.</p> <p>See section A.2.c.</p>
OAC rule 3745-21-09(U)(2)(e)(iii)	The coatings usage in this emissions unit shall not exceed ten gallons per day.
OAC rule 3745-17-10(B)	0.02 lb PE per mmBtu for the drying oven
OAC rule 3745-17-07(A) (for the drying ovens)	The Visible PE from any stack shall not exceed 20 percent opacity, as a six-minute average, except as specified by rule.
OAC rule 3745-21-08(B)	None. See A.I.2.b.
OAC rule 3745-23-06(B)	None. See A.I.2.b.

## 2. Additional Terms and Conditions

- 2.a** The emission limitations for PM<sub>10</sub>, SO<sub>2</sub>, NO<sub>x</sub>, CO and VOC from the combustion of natural gas, propane and/or electric in the drying ovens are established to reflect potentials to emit for this emissions unit. Therefore, no additional monitoring, record keeping and/or reporting requirements are necessary to ensure compliance with these limitations.
- 2.b** The permittee has satisfied the "best available control techniques and operating practices" and "latest available control techniques and operating practices" required pursuant to OAC rules 3745-21-08 and 3745-23-06, respectively by committing to comply with the best available technology (BAT) and best available control technology (BACT) requirements established pursuant to this permit to install.

On November 5, 2002, OAC rule 3745-21-08 was revised to delete paragraph (B); therefore, paragraph (B) is no longer part of the State regulations. However, that rule revision has not yet been submitted to the U.S. EPA as a revision to Ohio's

State Implementation Plan (SIP). Therefore, until the SIP revision occurs and the U.S. EPA approves the revisions to OAC rule 3745-21-08, the requirement to satisfy the "best available control techniques and operating practices" still exists

**Issued: 2/8/2007**

as part of the federally approved SIP for Ohio.

On February 15, 2005, OAC rule 3745-23-06 was rescinded; therefore, it is no longer part of the State regulations. However, that rule revision has not yet been submitted to the U.S. EPA as a revision to Ohio's State Implementation Plan (SIP). Therefore, until the SIP revision occurs and the U.S. EPA approves the revisions to OAC rule 3745-23-06, the requirement to satisfy the "latest available control techniques and operating practices" still exists as part of the federally approved SIP for Ohio.

- 2.c** The actual usage of Hazardous Air Pollutants (HAPs), as identified in Section 112(b) of Title III of the Clean Air Act, from all non-insignificant emissions units at this facility shall not exceed 9.0 TPY\* for any single HAP and 22.5 TPY\* for any combination of HAPs. Compliance with the above limitations shall be based on a rolling, 12-month summation.

\*This assumes the HAPs emitted are the same as the amount of HAPs used since all HAPs used evaporate.

## **II. Operational Restrictions**

1. When the drying oven is used on parts coated by this emissions unit the oven shall only employ: natural gas, propane, and/or electric heating.
2. The combined emissions of VOC from emissions units K005 through K009, inclusive, shall not exceed 14.87 tons per rolling, 12-month period, calculated according to the following formula:

$$[\text{SUM of all } \{(P_i)(VOC_i) \div 2000\} - \{(R_p)(P_o)(VOC_o) \div 2000\}]$$

where:

P<sub>i</sub> = usage of each coating, cleanup, or restoration material in gallons;

VOC<sub>i</sub> = volatile Organic compound content of each coating, cleanup, or restoration material in pounds VOC per gallon;

R<sub>p</sub> = ratio of solvent used on emissions units K005 through K009 to (total solvent used on all emissions units - the amount of solvent used on emissions unit K045);

Emissions Unit ID: K005

Po =total gallons of recovered solvents less the gallons of solvent recovered from emissions unit K045, for the subject time period; and

VOC<sub>Co</sub> = VOC content of recovered solvents in pounds of VOC per gallon

### III. Monitoring and/or Recordkeeping Requirements

1. The permittee shall collect and record the following information each day this emissions unit is in operation:
  - a. the name and identification number of each coating employed;
  - b. the volume, in gallons, of each coating employed;
  - c. the total volume, in gallons, of all the coatings employed; and
  - d. the VOC content of each coating employed, in lbs/gallon of coating.
2. The permittee shall collect and record the following information each month for emissions units K005 through K009, combined:
  - a. the name or identification number for each coating and cleanup/restoration solvent employed;
  - b. the VOC content of each coating and cleanup/restoration solvent material employed, in pounds per gallon, as applied;
  - c. the volume, in gallons, of each coating and cleanup/restoration solvent material employed;
  - d. the VOC emissions, in tons, as determined by the equation in Section A.II.2. of these terms and conditions; and
  - e. the rolling, 12-month VOC emissions, in tons.
3. For each day during which the permittee employs fuel other than natural gas or propane in this emissions unit, the permittee shall maintain a record of the type and quantity of fuel burned.
4. The permittee shall collect and record the following information each month for the HAP(s) employed in all non-insignificant emissions units at this facility:
  - a. the emission unit's source identification and description that Hazardous Air Pollutant (HAP) containing materials were employed;
  - b. the name and identification number of each HAP containing material employed;

**Issued: 2/8/2007**

- c. the individual HAP\* content for each HAP containing material employed, in pounds of individual HAP per gallon, as employed;
  - d. The amount of each HAP containing material employed, in gallons;
  - e. the total individual HAP usage for each HAP from the above listed materials employed, in pounds or tons per month [for each HAP the sum of (c) times (d)];
  - f. the total combined HAP usage from all above listed materials employed, in pounds or tons per month [the sum of (c) times (d) for each coating];
  - g. the updated rolling, 12-month summation of usage for each individual HAP\*\*, in pounds or tons. This shall include the information for the current month and the preceding eleven calendar months; and
  - h. the updated rolling, 12-month summation of usage for total combined HAP\*\*, in pounds or tons. This shall include the information for the current month and the preceding eleven calendar months.
- \* A listing of the HAPs can be found in Section 112(b) of the Clean Air Act or can be obtained by contacting your Ohio EPA, Southwest District Office contact. This information does not have to be kept on a line-by-line basis.
- \*\* This assumes the HAP(s) emitted are the same as the amounts of HAP(s) used since all HAP(s) used evaporate.

#### **IV. Reporting Requirements**

1. The permittee shall submit the following quarterly deviation (excursion) reports, in accordance with the General Terms and Conditions of this permit, for the following information:
  - a. all exceedances of the maximum daily coating usage limitation of 10 gallons;
  - b. all exceedances of the maximum allowable coatings VOC content of 5.35 pounds per gallon, as applied;
  - c. all exceedances of the rolling, 12-month VOC emission limitation of 14.87 tons (for emissions units K005 through K009, combined);

Emissions Unit ID: K005

- d. an identification of each month during which the individual HAP emissions from all non-insignificant emissions units at this facility exceeded 9.0 tons per year, based on a 12-month rolling average; and
  - e. an identification of each month during which the combined HAP emissions all non-insignificant emissions units at this facility exceeded 22.5 tons per year, based on a 12-month rolling average.
2. The permittee shall notify the Director (the Ohio EPA, Southwest District Office) of any record showing the use of a fuel other than natural gas or propane in this emissions unit. The notification shall include a copy of such record and shall be sent to the Director (the Ohio EPA, Southwest District Office) within 30 days following the end of the calendar month.

**V. Testing Requirements**

1. Compliance with the emission limitation(s) in Section A.1. of these terms and conditions shall be determined in accordance with the following method(s):
  - a. Emission Limitation:  
  
The VOC content of the coatings shall not exceed 5.35 pounds per gallon of coating.

**Issued: 2/8/2007**

Applicable Compliance Method:

Compliance with the allowable VOC content limitation above shall be demonstrated through the record keeping requirements as established in Section A.III.1.d of this permit.

b. Emission Limitation:

The VOC emissions shall not exceed 14.87 tons per rolling, 12-month period (for emissions units K005 through K009, combined)

Applicable Compliance Method:

Compliance with the annual allowable VOC emission limitation above shall be demonstrated through the record keeping requirements established in Section A.III.2 of this permit.

c. Emission Limitation:

The VOC emissions shall not exceed 14.87 tons per rolling, 12-month period (for this emissions unit)

Applicable Compliance Method:

As long as compliance with the combined annual VOC emission limitation (for emissions unit K005 through K009, combined) is maintained, compliance with the annual VOC emission limitation for this emission unit shall be assumed.

d. Operational Restriction:

10 gallons of coatings/day

Applicable Compliance Method:

Compliance with the operational restriction above shall be demonstrated through the record keeping requirements as established in Section A.III.1 of this permit.

e. Emission Limitation:

Visible PE from any stack shall not exceed 20 percent opacity, as a six-minute

Issued: 2/8/2007

average, except as specified by rule.

Applicable Compliance Method:

Compliance shall be determined through visible emission observations performed in accordance with 40 CFR Part 60, Appendix A, Method 9 and the procedures specified in OAC rule 3745-17-03(B)(1).

f. Emission Limitations:

0.6 lb/hr and 2.714 tons/yr NO<sub>x</sub>

0.252 lb/hr and 1.104 ton/yr CO

0.02 lb/hr and 0.086 ton/yr PE

0.023 lb/hr and 0.1 ton/yr PM<sub>10</sub>

0.002 lb/hr and 0.008 ton/yr SO<sub>2</sub>

0.017 lb/hr and 0.072 ton/yr VOC

3.41 lb/hr and 14.92 ton/yr VOC \*

\* Combined allowable from emissions units K005-K009.

Applicable Compliance Method:

The permittee may demonstrate compliance with the hourly allowable emission limitations above by multiplying the maximum hourly natural gas/propane consumption rate by the appropriate emission factor from USEPA's AP-42.

If required, the permittee shall demonstrate compliance with the hourly allowable emission limitations above based on the results of emission testing conducted in accordance with the following Methods:

- i. for NO<sub>x</sub>, Methods 1 - 4 and 7 of 40 CFR Part 60, Appendix A;
- ii. for CO, Methods 1 - 4 and 10 of 40 CFR Part 60, Appendix A;
- iii. for PE, Methods 1 - 5 of 40 CFR Part 60, Appendix A;
- iv. for PM<sub>10</sub>, Methods 201 and 202 of 40 CFR Part 60, Appendix A;
- v. for SO<sub>2</sub>, Methods 1 - 4 and 10 of 40 CFR Part 60, Appendix A; and
- vi. for VOC, Methods 18, 25, or 25A, as appropriate, of 40 CFR Part 60,

Emissions Unit ID: K005

Appendix A.

Compliance with the annual allowable emission limitations above shall be ensured as long as compliance with the hourly allowable emission limitations is maintained (the annual allowable limitations were determined by multiplying the hourly allowable limitations by 8760, and then dividing by 2000).

2. Formulation data of USEPA Method 24 shall be used to determine the VOC content of each coating and cleanup/restoration solvent material.

**VI. Miscellaneous Requirements**

None

Issued: 2/8/2007

**B. State Only Enforceable Section**

**I. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

**Operations, Property, and/or Equipment - (K005) - Addition of 3.0 MMBtu/hr natural gas fired curing oven to K005 permit application.**

Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
None	None

2. **Additional Terms and Conditions**

- 2.a None

**II. Operational Restrictions**

None

**III. Monitoring and/or Recordkeeping Requirements**

1. The permit to install for this emissions unit (K006) was evaluated based on the actual materials (typically coatings and cleanup materials) and the design parameters of the emissions unit's exhaust system, as specified by the permittee in the permit to install application. The Ohio EPA's "Review of New Sources of Air Toxic Emissions" policy ("Air Toxic Policy") was applied for each pollutant emitted by this emissions unit using data from the permit to install application and the SCREEN 3.0 model. The predicted 1-hour maximum ground-level concentration from the use of the SCREEN 3.0 model was compared to the Maximum Acceptable Ground-Level Concentration (MAGLC). The following summarizes the results of the modeling for the "worst case" pollutant(s):

Pollutant: Methyl ethyl ketone (MEK)

TLV (mg/m<sup>3</sup>): 590 mg/m<sup>3</sup>

Maximum Hourly Emission Rate (g/sec): 0.43

Issued: 2/8/2007

Predicted 1-Hour Maximum Ground-Level Concentration (mg/m<sup>3</sup>): 0.269

MAGLC (mg/m<sup>3</sup>): 14.0

Physical changes to or changes in the method of operation of the emissions unit after its installation or modification could affect the parameters used to determine whether or not the "Air Toxic Policy" is satisfied. Consequently, prior to making a change that could impact such parameters, the permittee shall conduct an evaluation to determine that the "Air Toxic Policy" will still be satisfied. If, upon evaluation, the permittee determines that the "Air Toxic Policy" will not be satisfied, the permittee will not make the change. Changes that can affect the parameters used in applying the "Air Toxic Policy" include the following:

- a. changes in the composition of the materials used or the use of new materials, that would result in the emission of a compound or chemical with a lower Threshold Limit Value (TLV) than the lowest TLV previously modeled, as documented in the most current version of the American Conference of Governmental Industrial Hygienists' (ACGIH's) handbook entitled "TLVs and BEIs" ("Threshold Limit Values for Chemical Substances and Physical Agents, Biological Exposure Indices");
  - b. changes in the composition of the materials, or use of new materials, that would result in an increase in emissions of any pollutant with a listed TLV that was proposed in the application and modeled; and
  - c. physical changes to the emissions unit or its exhaust parameters (e.g., increased/ decreased exhaust flow, changes in stack height, changes in stack diameter, etc.).
2. If the permittee determines that the "Air Toxic Policy" will be satisfied for the above changes, the Ohio EPA will not consider the change(s) to be a "modification" under OAC rule 3745-31-01 solely due to the emissions of any type of toxic air contaminant not previously emitted, and a modification of the existing permit to install will not be required, even if the toxic air contaminant emissions are greater than the de minimis level in OAC rule 3745-15-05. If the change(s) meet(s) the definition of a "modification" under other provisions of the rule, then the permittee shall obtain a final permit to install prior to the change.

The permittee shall collect, record, and retain the following information when it

Emissions Unit ID: K005

conducts evaluations to determine that the changed emissions unit will still satisfy the "Air Toxic Policy":

- a. a description of the parameters changed (composition of materials, new pollutants emitted, change in stack/exhaust parameters, etc.);
- b. documentation of the evaluation and determination that the changed emissions unit still satisfies the "Air Toxic Policy"; and
- c. where computer modeling is performed, a copy of the resulting computer model runs that show the results of the application of the "Air Toxic Policy" for the change.
