

Facility ID: 0448011709 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
J001 - Waste cooking oil cargo tank truck load rack	OAC rule 3745-31-05(A)(3) (PTI 04-01268 issued 9/6/2001)	0.4 pound of organic compounds (OC) per thousand gallons loaded; and 2.4 tons per year OC emissions.

2. **Additional Terms and Conditions**
 - (a) None

B. Operational Restrictions

1. None

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall maintain monthly records of the pounds of material loaded into cargo trucks.

D. Reporting Requirements

1. None

E. Testing Requirements

1. Compliance with the emission limitations of this permit to install shall be determined in accordance with the following methods (where compliance is required to be determined by calculation, the data to be used in the calculation is the data required to be collected by the terms of this permit):
Emission Limitation:
0.4 pound OC per thousand gallons loaded

Applicable Compliance Method:
If required, compliance shall be demonstrated using Equation 1 of AP-42 Section 5.2 for splash fill dated January 1995.
Emission Limitation:
2.4 tons per year OC emissions

Applicable Compliance Method:
This emission limitation was based on the allowable emission limitation of 0.4 pound OC per thousand gallons loaded multiplied by the maximum daily throughput of 32,000 gallons per day, multiplied by 365 days per year and divided by 2,000 pounds per ton. If required, the records maintained under C.1 and emission calculation using Equation 1 of AP-42 Section 5.2 dated January 1995 shall be used to demonstrate compliance with the annual emission limit.

F. Miscellaneous Requirements

1. None

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
T001 - Tank No. 1 16,000 gallon fixed roof, heated storage tank	OAC rule 3745-31-05(A)(3)	0.3 ton per year organic compound (OC) emissions
	OAC rule 3745-21-09(L)	exempt (see A.2.b)
	40 CFR Part 60 Subpart Kb	See A.2.a

2. Additional Terms and Conditions

- (a) This emissions unit is exempt from the requirements of 40 CFR Part 60, Subpart Kb, since the tank capacity is less than 19,815 gallons.
In accordance with OAC rule 3745-21-09(L)(2), this storage tank is exempt from the requirements of OAC rule 3745-21-09(L)(1) because the tank has a capacity of less than 40,000 gallons.

B. Operational Restrictions

1. None

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall keep readily accessible records showing the dimension of the storage vessel and an analysis showing the capacity of the storage vessel. This record shall be kept for the life of the emissions unit.
2. The permittee shall maintain records of the following information:
 - a. The types of petroleum liquids stored in the tank.
 - b. The maximum true vapor pressure (in pounds per square inch absolute), as stored, of each liquid.
 - c. The throughput of the petroleum liquids stored in the tank (in gallons per calendar year).

D. Reporting Requirements

1. None

E. Testing Requirements

1. Compliance with the emission limitation of 0.3 ton/yr OC shall be determined in accordance with AP-42 chapter 7 dated September, 1997, or the latest version of TANKS computer software from EPA.

F. Miscellaneous Requirements

1. None
