Fac ID: 0641170264**

DATE: 5/25/2006

Martin Marietta Materials Inc.
Mitch Scott
PO Box 30013
Raleigh, NC 276220013

Enclosed please find an Ohio EPA Permit to Install which will allow you to install the described source(s) in a manner indicated in the permit. Because this permit contains several conditions and restrictions, I urge you to read it carefully.

The Ohio EPA is urging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Pollution Prevention at (614) 644-3469.

You are hereby notified that this action by the Director is final and may be appealed to the Ohio Environmental Review Appeals Commission pursuant to Chapter 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed within thirty (30) days after the notice of the Directors action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency within three (3) days of filing with the Commission. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
309 South Fourth Street, Room 222
Columbus, Ohio 43215

Sincerely,

Michael W. Ahern, Manager
Permit Issuance and Data Management Section
Division of Air Pollution Control

CC: USEPA

**Permit To Install
Terms and Conditions**

**Issue Date: 5/25/2006
Effective Date: 5/25/2006**

FINAL PERMIT TO INSTALL 06-08084

Application Number: 06-08084
Facility ID: 0641170264
Permit Fee: **\$1450**
Name of Facility: Martin Marietta Materials Inc.
Person to Contact: Mitch Scott
Address: PO Box 30013
Raleigh, NC 276220013

Location of proposed air contaminant source(s) [emissions unit(s)]:

**Walden St.
Tiltonville, Ohio**

Description of proposed emissions unit(s):

Material handling storage piles roadways and parking areas and diesel generator.

The above named entity is hereby granted a Permit to Install for the above described emissions unit(s) pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Director

Part I - GENERAL TERMS AND CONDITIONS

A. Permit to Install General Terms and Conditions

1. Compliance Requirements

The emissions unit(s) identified in this Permit to Install shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.

2. Reporting Requirements

The permittee shall submit required reports in the following manner:

- a. Reports of any required monitoring and/or record keeping information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
- b. Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and record keeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the appropriate Ohio EPA District Office or local air agency. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly, i.e., by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

3. Records Retention Requirements

Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.

4. Inspections and Information Requests

The Director of the Ohio EPA, or an authorized representative of the Director, may, subject to the safety requirements of the permittee and without undue delay, enter upon

Martin Marietta Materials Inc.
PTI Application: 06-08084
Issued: 5/25/2006

Facility ID: 0641170264

the premises of this source at any reasonable time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State air pollution laws and regulations and the terms and conditions of this permit. The permittee shall furnish to the Director of the Ohio EPA, or an authorized representative of the Director, upon receipt of a written request and within a reasonable time, any information that may be requested to determine whether cause exists for modifying, reopening or revoking this permit or to determine compliance with this permit. Upon verbal or written request, the permittee shall also furnish to the Director of the Ohio EPA, or an authorized representative of the Director, copies of records required to be kept by this permit.

5. Scheduled Maintenance/Malfunction Reporting

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction of any emissions units or any associated air pollution control system(s) shall be reported to the appropriate Ohio EPA District Office or local air agency in accordance with paragraph (B) of OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emissions unit(s) that is (are) served by such control system(s).

6. Permit Transfers

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA District Office or local air agency must be notified in writing of any transfer of this permit.

7. Air Pollution Nuisance

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

8. Termination of Permit to Install

This Permit to Install shall terminate within eighteen months of the effective date of the Permit to Install if the owner or operator has not undertaken a continuing program of installation or modification or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation or modification. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

9. Construction of New Sources(s)

Martin Marietta Materials Inc.
PTI Application: 06-08084
Issued: 5/25/2006

Facility ID: 0641170264

The proposed emissions unit(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed sources cannot meet the requirements of this permit or cannot meet applicable standards.

If the construction of the proposed emissions unit(s) has already begun or has been completed prior to the date the Director of the Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.

10. Public Disclosure

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

11. Applicability

This Permit To Install is applicable only to the emissions unit(s) identified in the Permit To Install. Separate Permit To Install for the installation or modification of any other emissions unit(s) are required for any emissions unit for which a Permit To Install is required.

12. Best Available Technology

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

Martin Marietta Materials Inc.
 PTI Application: 06-08084
 Issued: 5/25/2006

Facility ID: 0641170264

13. Source Operation and Operating Permit Requirements After Completion of Construction

This facility is permitted to operate each source described by this Permit to Install for a period of up to one year from the date the source commenced operation. This permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws, regulations, and policies. Pursuant to OAC Chapter 3745-35, the permittee shall submit a complete operating permit application within ninety (90) days after commencing operation of the emissions unit(s) covered by this permit.

14. Construction Compliance Certification

The applicant shall provide Ohio EPA with a written certification (see enclosed form) that the facility has been constructed in accordance with the Permit to Install application and the terms and conditions of the Permit to Install. The certification shall be provided to Ohio EPA upon completion of construction but prior to startup of the source.

15. Fees

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable Permit to Install fees within 30 days after the issuance of this Permit to Install.

B. Permit to Install Summary of Allowable Emissions

The following information summarizes the total allowable emissions, by pollutant, based on the individual allowable emissions of each air contaminant source identified in this permit.

**SUMMARY (for informational purposes only)
 TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS**

<u>Pollutant</u>	<u>Tons Per Year</u>
NO _x	24.70
CO	5.70
SO ₂	4.20
PE	0.79
VOC	0.80

7

PTI Application: 06-08084
Issued: 5/25/2006

Facility ID: 0641170264

PART II - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
F001 - Material Handling - (8) Conveyers, (1) Hopper and Crane/Material Barges	OAC rule 3745-31-05(A)(3)	<p>Emissions shall not exceed:</p> <p>0.38 TPY of particulate emissions (PE);</p> <p>Visible particulate emissions shall not exceed 10% opacity as a three-minute average.</p> <p>The permittee shall implement best available control measures that are sufficient to minimize or eliminate visible emissions of fugitive dust (see Sections A.2.b through A.2.d).</p>
	OAC rule 3745-17-08 (B)	<p>The emission limitation specified by this rule is less stringent than the emission limitation established pursuant to OAC rule 3745-31-05(A)(3).</p>
	OAC rule 3745-17-07 (B)	<p>The emission limitation specified by this rule is less</p>

stringent than the emission limitation established pursuant to OAC rule 3745-31-05(A)(3).

2. Additional Terms and Conditions

2.a The material handling operation(s) that are covered by this permit and subject to the above-mentioned requirements are listed below:

- Barge Hopper
- Portable Field Conveyor No. 1
- Portable Field Conveyor No. 2
- Portable Field Conveyor No. 3
- Portable Field Conveyor No. 4
- Portable Field Conveyor No. 5
- Portable Field Conveyor No. 6
- Portable Field Conveyor No. 7
- Portable Field Conveyor No. 8
- Conveyor Drop to Pile

2.b The permittee shall employ best available control measures for the above-identified material handling operations for the purpose of ensuring compliance with the above-mentioned applicable requirements. In accordance with the permittee’s permit application, the permittee has committed to perform the following control measures to ensure compliance:

material handling operations

control measure(s)

- Barge Hopper
- Portable Field Conveyor No. 1
- Portable Field Conveyor No. 2
- Portable Field Conveyor No. 3
- Portable Field Conveyor No. 4
- Portable Field Conveyor No. 5
- Portable Field Conveyor No. 6
- Portable Field Conveyor No. 7
- Portable Field Conveyor No. 8

- Drop Height Reduction
- Inherent Moisture Content

Conveyor Drop to Pile

Nothing in this paragraph shall prohibit the permittee from employing other control measures to ensure compliance.

- 2.c** The above-mentioned control measures shall be employed for each applicable material handling operation. If the permittee determines, as a result of the inspection conducted pursuant to the monitoring section of this permit, that the above-mentioned control measures are not adequate to ensure compliance, additional control measures shall be required, such as watering. Any required implementation of control measures shall continue during any such operation until further observation confirms that use of the measure is unnecessary.
- 2.d** Implementation of the above-mentioned control measures in accordance with the terms and conditions of this permit is appropriate and sufficient to satisfy the requirements of OAC rules 3745-17-08 and 3745-31-05.

B. Operational Restrictions

- 1.** The maximum annual throughput for this emissions unit shall not exceed 500,000 tons, based upon a rolling, 12 month summation of the throughput.

To ensure enforceability during the first 12 calendar months of operation or the first 12 calendar months following the issuance of this permit, the permittee shall not exceed the throughput specified in the following table:

<u>Month</u>	<u>Maximum Allowable Cumulative Throughput (tons)</u>
1	135,000
1-2	270,000
1-3	405,000
1-4	500,000
1-5	500,000
1-6	500,000
1-7	500,000
1-8	500,000
1-9	500,000
1-10	500,000
1-11	500,000
1-12	500,000

After the first 12 calendar months of operation or the first 12 calendar months following the issuance of this permit, compliance with the annual throughput limitation shall be based upon a rolling, 12 month summation of the throughput.

C. Monitoring and/or Record keeping Requirements

1. Except as otherwise provided in this section, for material handling operations that are not adequately enclosed, the permittee shall perform inspections of such operations in accordance with the following minimum frequencies:

<u>material handling operation(s)</u>	<u>minimum inspection frequency</u>
Barge Hopper	Daily
Portable Field Conveyor No. 1	Daily
Portable Field Conveyor No. 2	Daily
Portable Field Conveyor No. 3	Daily
Portable Field Conveyor No. 4	Daily
Portable Field Conveyor No. 5	Daily
Portable Field Conveyor No. 6	Daily
Portable Field Conveyor No. 7	Daily
Portable Field Conveyor No. 8	Daily
Conveyor Drop to Pile	Daily

2. The above-mentioned inspections shall be performed during representative, normal operating conditions.
3. The permittee shall maintain records of the following information:
 - a. The date and reason any required inspection was not performed;
 - b. The date of each inspection where it was determined by the permittee that it was necessary to implement the control measures;
 - c. The dates the control measures were implemented; and
 - d. On a calendar quarter basis, the total number of days the control measures were implemented.

The information in 3.d. shall be kept separately for each material handling operation

identified above, and shall be updated on a calendar quarter basis within 30 days after the end of each calendar quarter.

4. The permittee shall maintain monthly records of the following information:
 - a. The throughput for each month; and
 - b. Beginning after the first 12 calendar months of operation or the first 12 calendar months following the issuance of this permit, the rolling, 12 month summation of the throughput.

Also, during the first 12 calendar months of operation or the first 12 calendar months following the issuance of this permit, the permittee shall record the cumulative throughput for each calendar month.

D. Reporting Requirements

1. The permittee shall submit deviation reports that identify any of the following occurrences:
 - a. Each day during which an inspection was not performed by the required frequency; and
 - b. Each instance when a control measure, that was to be performed as a result of an inspection, was not implemented.

The deviation reports shall be submitted in accordance with the reporting requirements of the General Terms and Conditions of this permit.

2. The permittee shall submit quarterly deviation (excursion) reports that identify all exceedances of the rolling, 12 month throughput limitation; and for the first 12 calendar months of operation or the first 12 calendar months following the issuance of this permit, all exceedances of the maximum allowable cumulative throughput levels. These reports shall be submitted in accordance with the reporting requirements specified in Part 1 - General Terms and Conditions, Section A of this permit.

E. Testing Requirements

1. Compliance with the emission limitations specified in section A.1. of these terms and conditions shall be determined in accordance with the following methods:

- a. Emission Limitation:
 0.38 TPY of PE

Applicable Compliance Method:

Compliance with the tons per year emission limitation shall be demonstrated using the emission factor from AP-42, Table 11.19.2-2, 09/1985 for a material transfer point (0.00014 lb/ton) and equation 1 from section 13.2.4.3, 01/1995 to determine emissions from material handling (0.0049 lb/ton using, mean wind speed (U) = 8.7 mph and material moisture content (M) = 2%) as shown in the following calculation.

$$((0.00014 \text{ lb/ton} * 500,000 \text{ tons/yr}) * 9(\text{transfer points})) / 2000 \text{ lb/ton} + (0.0049 \text{ lb/ton} * 500,000 \text{ tons/yr} * 0.05(\text{control efficiency of 95\%}) / 2000 \text{ lb/ton} = 0.376 \text{ tons/yr}$$

- b. Emissions Limitation:
 Visible particulate emissions shall not exceed 10% opacity as a three-minute average.

Applicable Compliance Method:

If required, the permittee shall demonstrate compliance with this emission limitation in accordance with Method 9 of 40 CFR Part 60, Appendix A.

F. Miscellaneous Requirements

1. Pursuant to OAC rule 3745-31-03(A)(1)(p), the permittee of a portable emissions unit may relocate within the State of Ohio without first obtaining a permit to install (PTI) providing certain criteria are met. The portable emissions unit shall meet one of the two following scenarios in order to qualify for this PTI exemption for the new location:
 - a. The following determinations have been documented, pursuant to OAC rule 3745-31-03(A)(1)(p)(i):
 - i. The portable emissions unit is equipped with the best available technology for such portable emissions unit;
 - ii. The portable emissions unit is operating pursuant to a currently effective permit to operate (PTO) or registration status;

Emissions Unit ID: **F001**

- iii. The applicant has provided proper notice of intent to relocate the portable emissions unit to the Ohio EPA Southeast District Office and the appropriate field office having jurisdiction over the new site within a minimum of 30 days prior to the scheduled relocation; and
 - iv. In the Ohio EPA Southeast District Office's and the appropriate field office's (having jurisdiction over the new site) judgement, the proposed site is acceptable under OAC rule 3745-15-07.
- b. In the alternative, pursuant to OAC rule 3745-31-03(A)(1)(p)(ii), the permittee of a portable emissions unit may relocate within the State of Ohio without first obtaining a PTI, providing the following criteria of OAC rule 3745-31-05(E) are met:
- i. The portable emissions unit permittee possesses an Ohio EPA PTI, PTO or registration status;
 - ii. The portable emissions unit is equipped with best available technology;
 - iii. The portable emissions unit owner has identified the proposed site to Ohio EPA;
 - iv. Ohio EPA has determined that the portable emissions unit, at the proposed site, will have an acceptable environmental impact;
 - v. A public notice, consistent with OAC Chapter 3745-47, is published in the county where the proposed site is located;
 - vi. The owner of the proposed site has provided the portable emissions unit owner with approval or equivalent declaration that it is acceptable to the site owner to move the portable emissions unit to this proposed site; and
 - vii. The portable emissions unit owner has provided Ohio EPA with 15 days written notice of the relocation.

Any site approvals issued by the Ohio EPA, pursuant to OAC rule 3745-31-03(A)(1)(p)(ii), shall be valid for no longer than 3 years and are subject to renewal.

In order for the Ohio EPA Southeast District Office and the appropriate field office having jurisdiction over the new site to determine compliance with all of the above criteria, the permittee of the portable or mobile emissions unit must file a " Notice of

Martin**PTI A****Issued: 5/25/2006**Emissions Unit ID: **F001**

Intent to Relocate", within the specified time frame (30 or 15 days) prior to the relocation of the emissions unit with the Ohio EPA Southeast District Office and the appropriate field office having jurisdiction over the new site. Upon receipt of the notice, the Ohio EPA Southeast District Office, and/or appropriate field office having jurisdiction over the new site, will evaluate the request in accordance with the above criteria.

Failure to submit said notification and to receive Ohio EPA approval prior to relocation of the emissions unit may result in fines and civil penalties.

Pursuant to OAC rule 3745-31-05(F), the Director may modify the site approval to add or delete certain portable sources or add or delete certain terms and conditions as appropriate.

PART II - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>
P001 - Diesel Generator - Mobile Unit Located on Barge	OAC rule 3745-31-05(A)(3)
	OAC rule 3745-17-11(B)(5)(b)
	OAC rule 3745-17-07(A)(1)
	OAC rule 3745-18-06(G)
	OAC rule 3745-21-08(B)
	OAC rule 3745-23-06(B)
	OAC rule 3745-31-02(A)(2)

Applicable Emissions
Limitations/Control Measures

Emissions shall not exceed:

2.78 pounds per hour (lbs/hr) of sulfur dioxide (SO₂);

16.45 lbs/hr of nitrogen oxides (NO_x);

0.49 lb/hr of volatile organic compounds (VOC); and

3.77 lbs/hr of carbon monoxide (CO).

The requirements of this rule also include compliance with the requirements of OAC rules 3745-35-07(B), 3745-17-11(B)(5)(b) and 3745-17-07(A).

Emissions shall not exceed the following, as a rolling, 12-month summation:

4.20 tons SO₂

24.70 tons NO_x

0.80 ton VOC

5.70 tons CO

0.41 ton particulate emissions (PE)

See Section B.2 below.

Emissions shall not exceed 0.35 lb PE/million BTU of actual heat input. See Section A.2.a below.

Emissions shall not exceed 0.062 lb PE/million BTU of actual heat input. See Section A.2.b below.

Visible particulate emissions shall not exceed 20% opacity as a six-minute average, except as provided by rule.

Exempt. See Section A.2.c below.

See Section A.2.d below.

See Section A.2.e below.

2. Additional Terms and Conditions

- 2.a** The requirement to comply with this particulate emission limitation shall terminate on the date the U.S. EPA approves the 0.062 lb/million Btu actual heat input emission limitation as a revision to the Ohio SIP for particulate matter.
- 2.b** This particulate emission limitation shall be effective and federally enforceable on the date the U.S. EPA approves this particulate emission limitation as a revision to the Ohio SIP for particulate matter.
- 2.c** This emissions unit is exempt from the requirements of OAC rule 3745-18-06(G) pursuant to OAC rule 3745-18-06(B).
- 2.d** The permittee has satisfied the "best available control techniques and operating practices" required pursuant to OAC rule 3745-21-08(B) by committing to comply with the best available technology requirements established pursuant to OAC rule 3745-31-05(A)(3) in this Permit to Install.

On November 5, 2002, OAC rule 3745-21-08 was revised to delete paragraph (B); therefore, paragraph (B) is no longer part of the State regulations. However, that rule revision has not yet been submitted to the U.S. EPA as a revision to Ohio's State Implementation Plan (SIP). Therefore, until the SIP revision occurs and the U.S. EPA approves the revisions to OAC rule 3745-21-08, the requirement to satisfy the "best available control techniques and operating practices" still exists as part of the federally-approved SIP for Ohio.

- 2.e** The permittee has satisfied the "latest available control techniques and operating practices" required pursuant to OAC rule 3745-23-06(B) by committing to comply with the best available technology requirements established pursuant to OAC rule 3745-31-05(A)(3) in this Permit to Install.

On February 15, 2005, OAC rule 3745-23-06 was rescinded; therefore, paragraph (B) is no longer part of the State regulations. However, that rule revision has not yet been submitted to the U.S. EPA as a revision to Ohio's State Implementation Plan (SIP). Therefore, until the U.S. EPA approves the revision, the requirement to satisfy the "latest available control techniques and operating practices" still exists as part of the federally-approved SIP for Ohio.

B. Operational Restrictions

Martin**PTI A****Issued: 5/25/2006**Emissions Unit ID: **P001**

1. The permittee shall only burn No. 2 fuel oil or diesel fuel, containing no greater than 0.5% sulfur by weight, in this emissions unit.
2. The maximum fuel usage for emissions unit P001 shall not exceed 96,600 gallons as a rolling 12-month summation. To ensure enforceability during the first 12 calendar months of operation following the issuance of this permit, the permittee shall not exceed the fuel usage specified in the following table:

<u>Month(s)</u>	<u>Maximum Cumulative Fuel Usage (gallons)</u>
1-1	19,200
1-2	38,400
1-3	57,600
1-4	76,800
1-5	96,000
1-6	96,600
1-7	96,600
1-8	96,600
1-9	96,600
1-10	96,600
1-11	96,600
1-12	96,600

After the first 12 calendar months of operation following the startup of emissions unit P001, compliance with the annual fuel usage limitation shall be based upon a rolling 12-month summation of the fuel usage.

C. Monitoring and/or Record keeping Requirements

1. The permittee shall maintain documentation on the sulfur content, in percent by weight, of all fuels received.
2. For each day during which the permittee burns a fuel other than No. 2 fuel oil or diesel fuel, the permittee shall maintain a record of the type and quantity of fuel burned in this emissions unit.
3. The permittee shall maintain monthly records of the following information for P001:

- a. The fuel usage, in gallons, for each month;
- b. The heat content, in BTU/gallon, for all fuels received;
- c. During the first 12 calendar months of operation following the issuance of this permit, the cumulative fuel usage, calculated by adding the current month's fuel usage to the fuel usage for each calendar month since the issuance of this permit; and
- d. Beginning after the first 12 calendar months of operation following the issuance of this permit, the rolling 12-month summation of the fuel usage, calculated by adding the current month's fuel usage to the fuel usage for the preceding eleven calendar months.

D. Reporting Requirements

1. The permittee shall submit deviation (excursion) reports that identify each day when a fuel other than No. 2 fuel oil or diesel fuel was burned in this emissions unit. Each report shall be submitted within 30 days after the deviation occurs.
2. The permittee shall submit quarterly deviation (excursion) reports which identify the following:
 - a. For the first 12 calendar months of operation following the issuance of this permit, all exceedances of the maximum allowable cumulative fuel usage;
 - b. Any exceedance of the rolling 12-month fuel usage limitation; and
 - c. Any exceedance of the sulfur content fuel restriction specified in Section B.1.

These deviation (excursion) reports shall be submitted in accordance with Section A.2 of the General Terms and Conditions of this permit.

E. Testing Requirements

1. Compliance with the emissions limitations in Section A.1 of these terms and conditions shall be determined in accordance with the following methods:
 - a. Emissions Limitation:

Emissions shall not exceed 2.78 lbs/hr SO₂.

Applicable Compliance Method:

Compliance shall be demonstrated by multiplying the emission factor from AP-42, Table 3.4-1, 10/1996 (0.004045 lb/HP-hr) by the maximum rated capacity of P001 (688 HP).

If required, the permittee shall demonstrate compliance with this emission limitation in accordance with the methods and procedures specified in Methods 1-4 and 6 of 40 CFR Part 60, Appendix A.

b. Emissions Limitation:

Emissions shall not exceed 4.20 tons SO₂ as a rolling 12-month summation.

Applicable Compliance Method:

Compliance shall be demonstrated by utilizing the summation of the fuel usage (gallons) for each month in the rolling 12-month period and the emission factor from AP-42, Table 3.4-1, 10/1996 (0.004045 lb/HP-hr) as shown in the equation below.

$$(0.0005 \text{ ton/lb})(\text{fuel use, gal/yr})(\text{emission factor, lb SO}_2\text{/HP-hr})(\text{rated capacity, HP})(\text{fuel heat content, million BTU/gal}) / (\text{rated capacity, million BTU/hr}) = \text{ton SO}_2\text{/yr}$$

c. Emissions Limitation:

Emissions shall not exceed 16.45 lbs/hr NO_x.

Applicable Compliance Method:

Compliance shall be demonstrated by multiplying the emission factor from AP-42, Table 3.4-1, 10/1996 (0.024 lb/HP-hr) by the maximum rated capacity of P001 (685 HP).

If required, the permittee shall demonstrate compliance with this emission limitation in accordance with the methods and procedures specified in Methods 1-4 and 7 of 40 CFR Part 60, Appendix A.

d. Emissions Limitation:

Emissions shall not exceed 24.70 tons NO_x as a rolling 12-month summation.

Emissions Unit ID: P001

Applicable Compliance Method:

Compliance shall be demonstrated by utilizing the summation of the fuel usage (gallons) for each month in the rolling 12-month period and the emission factor from AP-42, Table 3.4-1, 10/1996 (0.024 lb/HP-hr) as shown in the equation below.

$$(0.0005 \text{ ton/lb})(\text{fuel use, gal/yr})(\text{emission factor, lb NOx/HP-hr})(\text{rated capacity, HP})(\text{fuel heat content, million BTU/gal}) / (\text{rated capacity, million BTU/hr}) = \text{ton NOx/yr}$$

- e. Emissions Limitation:
 Emissions shall not exceed 0.49 lb/hr VOC.

Applicable Compliance Method:

Compliance shall be demonstrated by multiplying the emission factor from AP-42, Table 3.4-1, 10/1996 (0.000705 lb/HP-hr) by the maximum rated capacity of P001 (685 HP).

If required, the permittee shall demonstrate compliance with this emission limitation in accordance with the methods and procedures specified in Methods 1-4 and 25A of 40 CFR Part 60, Appendix A.

- f. Emissions Limitation:
 Emissions shall not exceed 0.80 ton VOC as a rolling 12-month summation.

Applicable Compliance Method:

Compliance shall be demonstrated by utilizing the summation of the fuel usage (gallons) for each month in the rolling 12-month period and the emission factor from AP-42, Table 3.4-1, 10/1996 (0.000705 lb/HP-hr) as shown in the equation below.

$$(0.0005 \text{ ton/lb})(\text{fuel use, gal/yr})(\text{emission factor, lb VOC/HP-hr})(\text{rated capacity, HP})(\text{fuel heat content, million BTU/gal}) / (\text{rated capacity, million BTU/hr}) = \text{ton VOC/yr}$$

- g. Emissions Limitation:
 Emissions shall not exceed 3.77 lbs/hr CO.

Applicable Compliance Method:

Compliance shall be demonstrated by multiplying the emission factor from AP-42, Table 3.4-1, 10/1996 (0.85 lb/million BTU) by the maximum rated

capacity of P001 (4.411 million BTU/hr).

If required, the permittee shall demonstrate compliance with this emission limitation in accordance with the methods and procedures specified in Methods 1-4 and 10 of 40 CFR Part 60, Appendix A.

- h. Emissions Limitation:
Emissions shall not exceed 5.70 tons CO as a rolling 12-month summation.

Applicable Compliance Method:

Compliance shall be demonstrated by multiplying the summation of [the fuel usage (gallons) multiplied by the heat content (BTU/gallon)] for each month in the rolling 12-month period by the emission factor from AP-42, Table 3.4-1, 10/1996 (0.85 lb/million BTU) and multiplying by 1×10^{-6} million BTU/BTU, and dividing by 2000 lb/ton.

- i. Emissions Limitation:
0.35 lb PE/million BTU of actual heat input.

Applicable Compliance Method:

Compliance shall be determined based on the emission factor of 0.062 lb/million Btu specified in AP-42, Table 3.4-2, 10/1996. Note that Ohio EPA has revised the emission limitation specified in OAC rule 3745-17-11(B)(5)(b) based upon the currently applicable emission factor. The revised rule was adopted by the Director of Ohio EPA in December of 1997, and it will be submitted to the U.S. EPA as a proposed revision to the Ohio SIP for particulate matter. When the SIP revision is approved by the U.S. EPA, the 0.35 lb/million BTU actual heat input emission limitation will no longer be applicable.

- j. Emissions Limitation:
0.062 lb PE/million BTU of actual heat input.

Applicable Compliance Method:

Compliance shall be determined based on the emission factor of 0.062 lb/million BTU specified in AP-42, Table 3.4-2, 10/1996.

If required, the permittee shall demonstrate compliance with this emission limitation in accordance with the methods and procedures specified in Methods 1-5 of 40 CFR Part 60, Appendix A.

- k. Emissions Limitation:
Emissions shall not exceed 0.41 ton PE as a rolling 12-month summation.

Applicable Compliance Method:

Compliance shall be demonstrated by multiplying the summation of [the fuel usage (gallons) multiplied by the heat content (BTU/gallon)] for each month in the rolling 12-month period by the emission factor from AP-42, Table 3.4-2, 10/1996 (0.062 lb/million BTU) and multiplying by 1×10^{-6} million BTU/BTU, and dividing by 2000 lb/ton.

- l. Emissions Limitation:
Visible particulate emissions shall not exceed 20% opacity as a 6-minute average, except as provided by rule.

Applicable Compliance Method:

If required, the permittee shall demonstrate compliance with this emission limitation in accordance with Method 9 of 40 CFR Part 60, Appendix A.

F. Miscellaneous Requirements

1. Pursuant to OAC rule 3745-31-03(A)(1)(p), the permittee of a portable emissions unit may relocate within the State of Ohio without first obtaining a permit to install (PTI) providing certain criteria are met. The portable emissions unit shall meet one of the two following scenarios in order to qualify for this PTI exemption for the new location:
 - a. The following determinations have been documented, pursuant to OAC rule 3745-31-03(A)(1)(p)(i):
 - i. The portable emissions unit is equipped with the best available technology for such portable emissions unit;
 - ii. The portable emissions unit is operating pursuant to a currently effective permit to operate (PTO) or registration status;
 - iii. The applicant has provided proper notice of intent to relocate the portable emissions unit to the Ohio EPA Southeast District Office and the appropriate field office having jurisdiction over the new site within a minimum of 30 days prior to the scheduled relocation; and

- iv. In the Ohio EPA Southeast District Office's and the appropriate field office's (having jurisdiction over the new site) judgement, the proposed site is acceptable under OAC rule 3745-15-07.
- b. In the alternative, pursuant to OAC rule 3745-31-03(A)(1)(p)(ii), the permittee of a portable emissions unit may relocate within the State of Ohio without first obtaining a PTI, providing the following criteria of OAC rule 3745-31-05(E) are met:
 - i. The portable emissions unit permittee possesses an Ohio EPA PTI, PTO or registration status;
 - ii. The portable emissions unit is equipped with best available technology;
 - iii. The portable emissions unit owner has identified the proposed site to Ohio EPA;
 - iv. Ohio EPA has determined that the portable emissions unit, at the proposed site, will have an acceptable environmental impact;
 - v. A public notice, consistent with OAC Chapter 3745-47, is published in the county where the proposed site is located;
 - vi. The owner of the proposed site has provided the portable emissions unit owner with approval or equivalent declaration that it is acceptable to the site owner to move the portable emissions unit to this proposed site; and
 - vii. The portable emissions unit owner has provided Ohio EPA with 15 days written notice of the relocation.

Any site approvals issued by the Ohio EPA, pursuant to OAC rule 3745-31-03(A)(1)(p)(ii), shall be valid for no longer than 3 years and are subject to renewal.

In order for the Ohio EPA Southeast District Office and the appropriate field office having jurisdiction over the new site to determine compliance with all of the above criteria, the permittee of the portable or mobile emissions unit must file a " Notice of Intent to Relocate", within the specified time frame (30 or 15 days) prior to the relocation of the emissions unit with the Ohio EPA Southeast District Office and the appropriate field office having jurisdiction over the new site. Upon receipt of the notice, the Ohio EPA Southeast District Office, and/or appropriate field office having

Martin

PTI A

Issued: 5/25/2006

Emissions Unit ID: **P001**

jurisdiction over the new site, will evaluate the request in accordance with the above criteria.

Failure to submit said notification and to receive Ohio EPA approval prior to relocation of the emissions unit may result in fines and civil penalties.

Pursuant to OAC rule 3745-31-05(F), the Director may modify the site approval to add or delete certain portable sources or add or delete certain terms and conditions as appropriate.
