

Synthetic Minor Determination and/or Netting Determination
Permit To Install 06-06439
Oster Enterprises (Canton Asphalt Co.)

A. Source Description

Canton Asphalt will operate a stationary, 150 TPH batch mix asphalt plant. Roads, parking, storage piles and material handling operations are already permitted at this site.

B. Facility Emissions and Attainment Status

The only emissions currently at this facility are minor amounts of fugitive PM. This is in an attainment area not included in Appendix A of OAC 3745-17-08.

C. Source Emissions

Facility emissions of carbon monoxide are calculated from AP-42 at 60.0 #/hr which extrapolates to 263 TPY at year-round operation. While it is not possible to operate an asphalt plant 8760 hours per year at this latitude, emissions still need to be restricted. This is accomplished by limiting production to 105,000 tons per year, which reduces allowable emissions of CO to 21 TPY. Emissions of other pollutants are not significant.

D. Conclusion

Federally enforceable limits in this PTI are adequate to ensure that Title V and PSD thresholds for CO emission rates are not exceeded.

**RE: DRAFT PERMIT TO INSTALL
TUSCARAWAS COUNTY
Application No: 06-06439**

CERTIFIED MAIL

DATE: 3/22/2001

Oster Enterprises (Canton Asphalt Co.)
John Beck
1833 Riverside Dr NW
Massillon, OH 44647

You are hereby notified that the Ohio Environmental Protection Agency has made a draft action recommending that the Director issue a Permit to Install for the air contaminant source(s) [emissions unit(s)] shown on the enclosed draft permit. This draft action is not an authorization to begin construction or modification of your emissions unit(s). The purpose of this draft is to solicit public comments on the proposed installation. A public notice concerning the draft permit will appear in the Ohio EPA Weekly Review and the newspaper in the county where the facility will be located. Public comments will be accepted by the field office within 30 days of the date of publication in the newspaper. Any comments you have on the draft permit should be directed to the appropriate field office within the comment period. A copy of your comments should also be mailed to Robert Hodanbosi, Division of Air Pollution Control, Ohio EPA, P.O. Box 1049, Columbus, OH, 43266-0149.

A Permit to Install may be issued in proposed or final form based on the draft action, any written public comments received within 30 days of the public notice, or record of a public meeting if one is held. You will be notified in writing of a scheduled public meeting. Upon issuance of a final Permit to Install a fee of **\$2000** will be due. Please do not submit any payment now.

The Ohio EPA is urging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Pollution Prevention at (614) 644-3469. If you have any questions about this draft permit, please contact the field office where you submitted your application, or Mike Ahern, Field Operations & Permit Section at (614) 644-3631.

Very truly yours,

Thomas G. Rigo, Manager
Field Operations and Permit Section
Division of Air Pollution Control

CC: USEPA SEDO WV PA

STATE OF OHIO ENVIRONMENTAL PROTECTION AGENCY

**Permit To Install
Terms and Conditions**

**Issue Date: To be entered upon final issuance
Effective Date: To be entered upon final issuance**

DRAFT PERMIT TO INSTALL 06-06439

Application Number: 06-06439
APS Premise Number: 0679000270
Permit Fee: **To be entered upon final issuance**
Name of Facility: Oster Enterprises (Canton Asphalt Co.)
Person to Contact: John Beck
Address: 1833 Riverside Dr NW
Massillon, OH 44647

Location of proposed air contaminant source(s) [emissions unit(s)]:
**3467 Dover Zoar Rd.
Bolivar, Ohio**

Description of proposed emissions unit(s):
Hot Mixed Asphalt Batch Plant.

The above named entity is hereby granted a Permit to Install for the above described emissions unit(s) pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Director

Oster Enterprises (Canton Asphalt Co.)

Facility ID: 0679000270

PTI Application: 06-06439

Issued: To be entered upon final issuance

Part I - GENERAL TERMS AND CONDITIONS

A. Permit to Install General Terms and Conditions

1. Compliance Requirements

The emissions unit(s) identified in this Permit to Install shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.

2. Reporting Requirements Related to Monitoring and Recordkeeping Requirements

The permittee shall submit required reports in the following manner:

- a. Reports of any required monitoring and/or recordkeeping information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
- b. Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the appropriate Ohio EPA District Office or local air agency. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly, i.e., by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

3. Records Retention Requirements

Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.

4. Inspections and Information Requests

The Director of the Ohio EPA, or an authorized representative of the Director, may, subject to the safety requirements of the permittee and without undue delay, enter upon the premises of this source at any reasonable time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State air pollution laws and regulations and the terms and conditions of this permit. The permittee shall furnish to the Director of the Ohio EPA, or an authorized representative of the Director, upon receipt of a written request and within a reasonable time, any

Oster Enterprises (Canton Asphalt Co.)

Facility ID: 0679000270

PTI Application: 06-06439

Issued: To be entered upon final issuance

information that may be requested to determine whether cause exists for modifying, reopening or revoking this permit or to determine compliance with this permit. Upon verbal or written request, the permittee shall also furnish to the Director of the Ohio EPA, or an authorized representative of the Director, copies of records required to be kept by this permit.

5. Scheduled Maintenance/Malfunction Reporting

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction of any emissions units or any associated air pollution control system(s) shall be reported to the appropriate Ohio EPA District Office or local air agency in accordance with paragraph (B) of OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emissions unit(s) that is (are) served by such control system(s).

6. Permit Transfers

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA District Office or local air agency must be notified in writing of any transfer of this permit.

7. Air Pollution Nuisance

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

8. Termination of Permit to Install

This Permit to Install shall terminate within eighteen months of the effective date of the Permit to Install if the owner or operator has not undertaken a continuing program of installation or modification or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation or modification. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

9. Construction of New Sources(s)

The proposed emissions unit(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may

Oster Enterprises (Canton Asphalt Co.)

Facility ID: 0679000270

PTI Application: 06-06439

Issued: To be entered upon final issuance

lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional

Oster Enterprises (Canton Asphalt Co.)

Facility ID: 0679000270

PTI Application: 06-06439

Issued: To be entered upon final issuance

facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed sources cannot meet the requirements of this permit or cannot meet applicable standards.

If the construction of the proposed emissions unit(s) has already begun or has been completed prior to the date the Director of the Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.

10. Public Disclosure

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

11. Applicability

This Permit to Install is applicable only to the emissions unit(s) identified in the Permit to Install. Separate application must be made to the Director for the installation or modification of any other emissions unit(s).

12. Best Available Technology

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

13. Source Operation and Operating Permit Requirements After Completion of Construction

- a. If the permittee is required to apply for a Title V permit pursuant to OAC Chapter 3745-77, the permittee shall submit a complete Title V permit application or a complete Title V permit modification application within twelve (12) months after commencing operation of the emissions units covered by this permit. However, if the proposed new or

Oster Enterprises (Canton Asphalt Co.)

Facility ID: 0679000270

PTI Application: 06-06439

Issued: To be entered upon final issuance

modified source(s) would be prohibited by the terms and conditions of an existing Title V permit, a Title V permit modification must be obtained before the operation of such new or modified source(s) pursuant to OAC rule 3745-77-04(D) and OAC rule 3745-77-08(C)(3)(d).

- b. If the permittee is required to apply for permit(s) pursuant to OAC Chapter 3745-35, the source(s) identified in this Permit To Install is (are) permitted to operate for a period of up to one year from the date the source(s) commenced operation. Permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws, regulations, and policies. Pursuant to OAC Chapter 3745-35, the permittee shall submit a complete operating permit application within thirty (30) days after commencing operation of the source(s) covered by this permit.

14. Construction Compliance Certification

The applicant shall provide Ohio EPA with a written certification (see enclosed form) that the facility has been constructed in accordance with the Permit to Install application and the terms and conditions of the Permit to Install. The certification shall be provided to Ohio EPA upon completion of construction but prior to startup of the source.

15. Fees

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable Permit to Install fees within 30 days after the issuance of this Permit to Install.

B. Permit to Install Summary of Allowable Emissions

The following information summarizes the total allowable emissions, by pollutant, based on the individual allowable emissions of each air contaminant source identified in this permit.

**SUMMARY (for informational purposes only)
TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS**

<u>Pollutant</u>	<u>Tons Per Year</u>
PM	4.2

PART II - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

Operations, Property,
and/or Equipment

Applicable Rules/Requirements

P901 - 150 TPH Batch Plant

OAC rule 3745-31-05(A)(3)

Aggregate storage bins and cold
aggregate elevator

PTI Application 06-06430

Issue

Facility ID: 0679000270

Emissions Unit ID: **P901**

2. Additional Terms and Conditions

- 2.a** In accordance with OAC rule 3745-31-05, this emissions unit has been approved for the use of recycled asphalt products.

Oster

PTI

Issued: To be entered upon final issuance

Emissions Unit ID: P901

B. Operational Restrictions

1. The maximum annual production rate for this emissions unit shall not exceed 105,000 tons, based upon a rolling 12-month summation of the production rates.

To ensure enforceability during calendar year 2001, the permittee shall not exceed the production levels specified in the following table:

Month Maximum Cumulative Allowable Production (tons)

1	1,000
1 - 2	2,000
1 - 3	20,000
1 - 4	40,000
1 - 5	60,000
1 - 6	80,000
1 - 7	100,000
1 - 8	105,000
1 - 9	105,000
1 - 10	105,000
1 - 11	105,000
1 - 12	105,000

After the first 12 calendar months of operation following the issuance of this permit, compliance with the annual production rate limitation shall be based upon a rolling, 12-month summation of the production rates.

C. Monitoring and/or Recordkeeping Requirements

1. The permittee shall perform daily checks, when the emissions unit is in operation and when the weather conditions allow, for any visible emissions from the stack serving the unit. The presence or absence of any visible emissions shall be noted in an operations log. If visible emissions are observed, the permittee shall also note the following in the operations log:
 - a. the color of the emissions;
 - b. whether the emissions are representative of normal operations;
 - c. if the emissions are not representative of normal operations, the cause of the abnormal

Oster

PTI /

Emissions Unit ID: **P901**

Issued: To be entered upon final issuance

emissions;

- d. the total duration of any visible emission incident; and,
 - e. any corrective actions taken to eliminate the visible emissions.
2. The permittee shall maintain monthly records of the following information:
 - a. The production rate for each month.
 - b. Beginning after the first 12 calendar months of operation following issuance of this permit, the rolling, 12-month summation of the production rates.

Also, during calendar year 2001, the permittee shall record the cumulative production rate for each calendar month.

D. Reporting Requirements

1. The permittee shall submit semiannual written reports which (a) identify all days during which any visible emissions were observed from the stack serving the emissions unit and (b) describe any corrective actions taken to eliminate the visible emissions. These reports shall be submitted to the Director (the Ohio EPA Southeast District Office) by January 31 and July 31 of each year and shall cover the previous 6-month period.
2. The permittee shall submit deviation (excursion) reports which identify all exceedances of the rolling, 12-month production rate limitation and, for calendar year 2001, all exceedances of the maximum allowable monthly production levels.
3. Pursuant to the NSPS, the source owner/operator is hereby advised of the requirement to report the following at the appropriate times:
 - a. construction date (no later than 30 days after such date);
 - b. anticipated start-up date (not more than 60 days or less than 30 days prior to such date);
 - c. actual start-up date (within 15 days after such date); and
 - d. date of performance testing (If required, at least 30 days prior to testing).

Oster Enterprises (Canton Asphalt Co.)

4. These deviation reports as denoted in terms D.2 shall be submitted in accordance with Part I, term A.2.

E. Testing Requirements

1. Emissions Limitation:
0.04 gr/dscf and 12.0 lb/hr of PM
1.23 lb/hr of VOC

Compliance Method: Within 60 days after achieving the maximum production rate at which the emissions unit will be operated, but no later than 180 days after startup of the emissions unit, the permittee shall conduct, or have conducted, an emissions test for this emissions unit in order to demonstrate compliance with the allowable mass emission rate for particulate matter. The particulate test shall be conducted in accordance with the test methods and procedures specified in Methods 1-5 of 40 CFR Part 60, while the emissions unit is operating at or near maximum capacity and using virgin materials

Within six months of issuance of this permit, the permittee shall conduct, or have conducted, an emission test(s) for this emissions unit in order to demonstrate compliance with the allowable mass emission rate(s) for volatile organic compounds. The VOC test(s) shall be conducted in accordance with the test methods and procedures specified in Method 25 of 40 CFR Part 60 while the emissions unit is operating at or near maximum capacity and using recycled asphalt products.

Not later than 30 days prior to the proposed test date(s), the permittee shall submit an "Intent to Test" notification. The "Intent to Test" notification shall describe in detail the proposed test methods and procedures, the emissions unit operating parameters, the time(s) and dates(s) of the test(s), and the person(s) who will be conducting the test(s). Failure to submit such notification for review and approval prior to the test(s) may result in the field office's refusal to accept the results of the emissions test(s).

Personnel from the Ohio EPA District Office or local air agency shall be permitted to witness the test(s), examine the testing equipment and acquire data and information regarding the emissions unit operating parameters.

Oster

PTI /

Emissions Unit ID: **P901**

Issued: To be entered upon final issuance

A comprehensive written report on the results of the emission test(s) shall be submitted within 30 days following completion of the test(s).

2. Emission Limitation:
4.2 TPY PM

Oster

PTI

Emissions Unit ID: **P901**

Issued: To be entered upon final issuance

Compliance Method:

Compliance shall be determined by multiplying the stack tested emission rate, in pounds per ton of production, by the annual production rate, in tons per year.

3. Emission Limitation:
0.5 TPY VOC

Compliance Method:

Compliance shall be determined by multiplying the stack tested emission rate, in pounds per ton of production, by the annual production rate, in tons per year.

4. Emissions Limitation:
CO - 60.0 lb/hr; 21.0 TPY
NO_x - 3.75 lb/hr; 1.3 TPY
SO₂ - 0.69 lb/hr; 0.3 TPY

Compliance Method:

Compliance with the emissions limitations for CO, NO_x and SO₂ shall be determined by a one time calculation using AP-42, Chapter 11.1, (12/00) emission factors for the individual pollutant, in lb/ton, multiplied by the appropriate production rate, 150 tons/hr or 105,000 tons per year.

5. Emission Limitation:
20% opacity

Compliance Method:

Compliance shall be determined in accordance with Method 9, as written in 40 CFR Part 60, Appendix A, and with OAC 3745-17-03.

F. Miscellaneous Requirements

None
