

PERMIT TO OPERATE AN AIR CONTAMINANT SOURCE

Date of Issuance 07/07/95 Application No. 1576000074P902

Effective Date 07/07/95 Permit Fee \$000

This document constitutes issuance to:

EMAI INC., ESSROC MATERIALS, INC.
8282 MIDDLEBRANCH AVE NE
MIDDLEBRANCH OHIO 44652

of a permit to operate for:

ROTARY DRYER W/ESP & ASSOC. MATERIAL HANDLING W/BN
DRYER

The following terms and conditions are hereby expressly incorporated into this permit to operate:

1. This permit to operate shall be effective until 07/06/98.
You will be contacted approximately six months prior to this date regarding the renewal of this permit. If you are not contacted, please write to the appropriate Ohio EPA field office.
2. The above-described source is and shall remain in full compliance with all applicable State and federal laws and regulations and the terms and conditions of this permit.
3. Prior to any modification of this source, as defined in rule 3745-31-01 of the Ohio Administrative Code (OAC), a permit to install must be granted by the Ohio EPA pursuant to OAC Chapter 3745-31.
4. The Director of the Ohio EPA or an authorized representative may, subject to the safety requirements of the permit holder, enter upon the premises of this source at any time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State and federal air pollution laws and regulations and the terms and conditions of this permit.
5. A permit fee in the amount specified above must be remitted within 15 days from the issuance date of this permit.
6. Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA field office must be notified in writing of any transfer of this permit.
7. This source and any associated air pollution control system(s) shall be maintained regularly in accordance with good engineering practices in order to minimize air contaminant emissions. Any malfunction of this source or any associated air pollution control system(s) shall be reported immediately to the appropriate Ohio EPA field office in accordance with OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of this source.
8. Any unauthorized or emergency release of an air contaminant from this source which, due to the toxic or hazardous nature of the material, may pose a threat to public health, or otherwise endanger the safety or welfare of the public, shall be reported immediately to the appropriate Ohio EPA field office (during normal business hours) or to the Ohio EPA's Emergency Response Group (1-800-282-9378). (Additional reporting may be required pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act.)
9. The appropriate Ohio EPA field office is:
AIR POLLUTION CNTRL DIV. CANTON CITY HEALTH DEPT. -
CITY HALL 420 MARKET AVE. NORTH
CANTON, OH 44702-1544 (216)-489-3385
10. If this term and condition is checked, the permit holder is subject to the attached special terms and conditions.

OHIO ENVIRONMENTAL PROTECTION AGENCY

Donald R. Schreyer

Director

APPLICATION NUMBER: 15 76 00 0074 P902
FACILITY NAME: EMAI INC., ESSROC MATERIALS, INC.
EQUIPMENT DESCRIPTION: ROTARY DRYER W/ESP & ASSOC. MATERIAL HANDLING W/BH
COMPANY ID: DRYER

SPECIAL TERMS AND CONDITIONS

1. The following rules of the Ohio Administrative Code establish the applicable emission limitations and/or control requirements of this source:

3745-17-07
3745-17-11
3745-17-08

(This condition in no way limits the applicability of other requirements of the Ohio Administrative Code to this source).

2. **Allowable Mass Emission Limitation (s):**

For Dryer:

The mass emissions from this source will not exceed the following:

49 LBS PART/HR

For Material Handling Including Conveyor Belts, Transfer Points, and Ladder Chute:

The baghouse must achieve an outlet emission rate of not greater than .030 grains of particulate emissions per dry standard cubic foot of exhaust gases or there are no visible emissions from the exhaust stack, whichever is less stringent.

3. Emissions from the dryer collected by the multi-clone and the ESP will be transferred to a mobile bulk tanker and then pneumatically discharged into the mill surge bin.

Visible particulate emissions of fugitive dust will not exceed twenty per cent opacity as a three-minute average and will be determined according to Test Method nine as set forth in the "Appendix on Test Methods" in 40 CFR, Part 60, "Standards of Performance for new stationary sources."

EMAI, Inc., ESSROC Materials, Inc.

June 1, 1995

4. **Stack Test Requirements for Particulate Emissions:**

Within 6 months prior to the expiration of this permit, this facility will conduct, or have conducted, an emission test (s) for this source in order to demonstrate compliance with the allowable mass emissions rate for particulates.

The emission test (s) will be conducted in accordance with the test methods and procedures specified in OAC Rule 3745-17-03.

No later than 30 days prior to the proposed test date (s), this facility will submit an "Intent to Test" notification which will describe in detail the proposed test methods and procedures, the source operation parameters, the time (s) and date (s) of the test (s), and the person (s) who will be conducting the test (s).

Failure to submit such notification for review and approval prior to the test (s) may result in the field office's refusal to accept the results of the emission test (s).

Personnel from the Ohio EPA field office will be permitted to witness the test (s), examine the testing equipment and acquire data and information regarding the source operating parameters.

A comprehensive written report on the results of the emission test (s) will be submitted to the Canton City Health Department, Air Pollution Control Division, 420 Market Avenue N., Canton, Ohio 44702-1544, within 30 days following completion of the test (s).
