

PERMIT TO OPERATE AN AIR CONTAMINANT SOURCE

Date of Issuance 03/18/94 Application No. 1576130634K009

Effective Date 03/18/94 Permit Fee \$000

This document constitutes issuance to:

CENTRAL STATES CAN CO
700 -16TH ST., S.E.
MASSILLON

OHIO 44646

of a permit to operate for:

INTERIOR SPRAY CAN COATING LINE W/THERMAL INCIN.
C-05 FISHER #102 SPRAY MACHINE #8800-C140 OVE

The following terms and conditions are hereby expressly incorporated into this permit to operate:

1. This permit to operate shall be effective until 03/17/97
You will be contacted approximately six months prior to this date regarding the renewal of this permit. If you are not contacted, please write to the appropriate Ohio EPA field office.
2. The above-described source is and shall remain in full compliance with all applicable State and federal laws and regulations and the terms and conditions of this permit.
3. Prior to any modification of this source, as defined in rule 3745-31-01 of the Ohio Administrative Code (OAC), a permit to install must be granted by the Ohio EPA pursuant to OAC Chapter 3745-31.
4. The Director of the Ohio EPA or an authorized representative may, subject to the safety requirements of the permit holder, enter upon the premises of this source at any time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State and federal air pollution laws and regulations and the terms and conditions of this permit.
5. A permit fee in the amount specified above must be remitted within 15 days from the issuance date of this permit.
6. Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA field office must be notified in writing of any transfer of this permit.
7. This source and any associated air pollution control system(s) shall be maintained regularly in accordance with good engineering practices in order to minimize air contaminant emissions. Any malfunction of this source or any associated air pollution control system(s) shall be reported immediately to the appropriate Ohio EPA field office in accordance with OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of this source.
8. Any unauthorized or emergency release of an air contaminant from this source which, due to the toxic or hazardous nature of the material, may pose a threat to public health, or otherwise endanger the safety or welfare of the public, shall be reported immediately to the appropriate Ohio EPA field office (during normal business hours) or to the Ohio EPA's Emergency Response Group (1-800-282-9378). (Additional reporting may be required pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act.)
9. The appropriate Ohio EPA field office is:
AIR POLLUTION CNTRL DIV. CANTON CITY HEALTH DEPT. -
CITY HALL 420 MARKET AVE. NORTH
CANTON, OH 44702-1544 (216)-489-3385
10. If this term and condition is checked, the permit holder is subject to the attached special terms and conditions.

OHIO ENVIRONMENTAL PROTECTION AGENCY

Director

EPA 3834
Revised 9-90*Donald R. Schlegel*

APPLICATION NUMBER: 15 76 13 0634 K009
FACILITY NAME: CENTRAL STATES CAN CO
EQUIPMENT DESCRIPTION: INTERIOR SPRAY CAN COATING LINE W/THERMAL INCIN.
COMPANY ID: C-05 FISHER #102 SPRAY MACHINE #B800-C140 OVE

SPECIAL TERMS & CONDITIONS

1. The following rules of the Ohio Administrative Code establish the applicable emission limitations and/or control requirements of this source:

3745-31-05
3745-21-09(D)(1)(c)

(This condition in no way limits the applicability of other requirements of the Ohio Administrative Code to this source.)

2. Record-Keeping and Reporting Requirements for Surface Coating or Printing Lines

This facility shall maintain monthly records which list the following information for each surface coating, ink or cleanup material employed in this source:

- (A) the company identification of the surface coating, ink or cleanup material;
- (B) the number of gallons employed;
- (C) the VOC content, in pounds of VOC per gallon of coating;
- (D) the VOC content, in pounds of VOC per gallon of coating, minus water;
- (E) the water content, in percent by volume;
- (F) the nonvolatile (solids) content, in percent by volume;
- (G) the gallons of cleanup material used; and
- (H) the density (in pounds per gallon) of the cleanup material used.

These monthly records, as well as any supporting coating or ink analyses and computations, shall be retained in the company's files for a period of not less than three years and shall be made available to the Director or any authorized representative of the Director for review during normal business hours.

This facility shall submit semi-annual reports to the Canton City Health Department, Division of Air Pollution Control, 420 Market Avenue North, Canton, Ohio 44702, which summarize the following information for each coating and cleanup material employed in this source during the previous six calendar months: company identification of the surface coating or cleanup material, the total number of gallons employed, the VOC content (in pounds VOC per gallon of coating, minus water), the water content and the nonvolatile (solids) content. The reports shall be submitted by February 15 and August 15 of each year and shall cover the previous six calendar months (July through December and January through June, respectively).

3. Temperature Restrictions, Monitoring, Recording and Reporting

This facility shall continuously monitor and record the temperature of the exhaust gases from the thermal incinerator serving this source. The temperature records shall be retained in this facility's files for a period of not less than three years and shall be made available to the Director or any authorized representative of the Director for review during normal business hours.

An outlet temperature of not less than 1100°F shall be maintained for the exhaust gases from the incinerator.

This facility shall submit semi-annual reports which provide the following information for each period during which the incinerator exhaust gas temperatures fall below 1100°F:

- (A) the date of the excursion;
- (B) the time interval over which the excursion occurred;
- (C) the temperature values during the excursion;
- (D) the cause(s) for the excursion; and
- (E) the corrective action which has been or will be taken to prevent similar excursions in the future.

This report does not waive the reporting requirements of OAC rule 3745-15-06.

The reports shall be submitted by February 15 and August 15 of each year and shall cover the previous six calendar months (July through December and January through June, respectively).

4. No more than 11,388 gallons of coating shall be used by this source in any year.

5. Allowable Emission Limitation(s)

The emissions from this source shall not exceed the following:

2.95 lbs OC/hour
12.9 tons OC/year

6. The emissions from this source shall be vented to a thermal incinerator. This control device will have a minimum capture efficiency of 75%, a minimum control efficiency of 95% and a minimum overall control efficiency of 71.25%.

7. Stack Test requirements for Volatile Organic Compound or Organic Compound Emissions

Within 6 months prior to the expiration of this permit, this facility shall conduct, or have conducted, emission tests for this source in order to demonstrate compliance with the allowable VOC or OC emission limitation and/or emission control system performance requirements. The emission tests shall be conducted in accordance with the test methods and procedures specified in OAC rule 3745-21-10. The test(s) shall be conducted under maximum production rates unless otherwise specified or approved by the Ohio EPA.

Not later than 30 days prior to the proposed test date(s), this facility shall submit an "Intent to Test" notification. The "Intent to Test" notification shall describe in detail the proposed test methods and procedures, the source operating parameters, the time(s) and date(s) of the tests, and the person(s) who will be conducting the tests. Failure to submit such notification for review and approval prior to the tests may result in the Canton City Health Department, Air Pollution Control Division's refusal to accept the results of the emission tests.

Personnel from the Canton City Health Department, Division of Air Pollution Control shall be permitted to witness the tests, examine the testing equipment, and acquire data and information regarding the source operating parameters.

A comprehensive written report on the results of the emission tests shall be submitted with 30 days following completion of the tests.
