

PERMIT TO OPERATE AN AIR CONTAMINANT SOURCE

Date of Issuance 07/28/95 Application No. 1576130634K026

Effective Date 07/28/95 Permit Fee \$000

This document constitutes issuance to:

CENTRAL STATES CAN CO
700 -16TH ST., S.E.
MASSILLON

OHIO 44646

of a permit to operate for:

2/3 PIECE CAN END SEALING COMPOUND LINE W/CAT INCI
8-73 BLANK LINE, LINING MACHINE

The following terms and conditions are hereby expressly incorporated into this permit to operate:

1. This permit to operate shall be effective until 07/28/98
You will be contacted approximately six months prior to this date regarding the renewal of this permit. If you are not contacted, please write to the appropriate Ohio EPA field office.
2. The above-described source is and shall remain in full compliance with all applicable State and federal laws and regulations and the terms and conditions of this permit.
3. Prior to any modification of this source, as defined in rule 3745-31-01 of the Ohio Administrative Code (OAC), a permit to install must be granted by the Ohio EPA pursuant to OAC Chapter 3745-31.
4. The Director of the Ohio EPA or an authorized representative may, subject to the safety requirements of the permit holder, enter upon the premises of this source at any time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State and federal air pollution laws and regulations and the terms and conditions of this permit.
5. A permit fee in the amount specified above must be remitted within 15 days from the issuance date of this permit.
6. Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA field office must be notified in writing of any transfer of this permit.
7. This source and any associated air pollution control system(s) shall be maintained regularly in accordance with good engineering practices in order to minimize air contaminant emissions. Any malfunction of this source or any associated air pollution control system(s) shall be reported immediately to the appropriate Ohio EPA field office in accordance with OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of this source.
8. Any unauthorized or emergency release of an air contaminant from this source which, due to the toxic or hazardous nature of the material, may pose a threat to public health, or otherwise endanger the safety or welfare of the public, shall be reported immediately to the appropriate Ohio EPA field office (during normal business hours) or to the Ohio EPA's Emergency Response Group (1-800-282-9378). (Additional reporting may be required pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act.)

9. The appropriate Ohio EPA field office is:

AIR POLLUTION CNTRL DIV. CANTON CITY HEALTH DEPT. -
CITY HALL 420 MARKET AVE. NORTH
CANTON, OH 44702-1544 (216)-489-3385

10. If this term and condition is checked, the permit holder is subject to the attached special terms and conditions.

OHIO ENVIRONMENTAL PROTECTION AGENCY

Director

APPLICATION NUMBER : 15 76 13 0634 K026
FACILITY NAME : CENTRAL STATES CAN CO
EQUIPMENT DESCRIPTION : 2/3 PIECE CAN END SEALING COMPOUND
LINE W/CAT INCIN
COMPANY ID : B-73 BLANK LINE, LINING MACHINE

SPECIAL TERMS AND CONDITIONS

1. **Applicable Federal and State Regulation(s)**

The following rules of the Ohio Administrative Code establish the applicable emission limitations and/or control requirements for this source:

3745-15-06	3745-15-07
3745-21-09 (D) (1) (e)	3745-21-09 (D) (2) (e)
3745-31-05	3745-35-02

(This condition in no way limits the applicability of other requirements of the Ohio Administrative Code to this source.)

2. **Allowable Mass Emission Limitation(s) and/or Control Requirements**

The allowable mass emission limitation(s) and/or control requirements for the operation(s), equipment and/or property identified above are specified in the following table:

Operation(s), Equipment, and/or Property

Two and Three Piece Food Can End Seal Compound Coating Line with Dryer and Catalytic Incinerator; Lining Machine for Applying the Seal Compound; Central States ID: B-73 Blank Line

Allowable Mass Emission Limitation(s) and/or Control requirements

Use of Dryer/Catalytic Incinerator

Emission Limit of 7.4 Lbs of OC or Less per Gallon of Solids Applied

- * 2.33 Lb OC/Hr
- * 53.6 Lb OC/Day
- * 8.0 TPY OC

* These OC allowables include the OC emissions not captured by the control system and the OC emissions from the stack serving the catalytic incinerator.

See the Following Special Terms and Conditions

3. No more than 690 gallons of cleanup solvent shall be used annually, and only nonphotochemically reactive cleanup solvents, shall be employed in this emission unit.

4. **Record-Keeping and Reporting Requirements for Surface Coating Lines:**

This facility shall maintain daily records which list the following information for each surface coating or ink employed in this emission unit.

- a. the company identification of the surface coating;
- b. the number of gallons employed;
- c. the VOC content, in pounds of VOC per gallon of coating;
- d. the VOC content, in pounds of VOC per gallon of coating excluding water and exempt solvents;
- e. the water content, in percent by volume;
- f. the nonvolatile (solids) content, in percent by volume; and
- g. the type and amount of cleanup solvent employed.

These daily records, as well as any supporting coating or ink analyses and computations, shall be retained in the company's files for a period of not less than two years and shall be made available to the Director or any authorized representative of the Director for review. Copies of these records will be made available upon request.

This facility shall submit semi-annual reports to the Canton City Health Department, Air Pollution Control Division, 420 Market Avenue North, Canton, Ohio 44702-1544, Phone (216) 489-3385, which summarize the following information for each coating employed in this emission unit during the previous six calendar months: coating identification of the surface coating; the total number of gallons employed; the VOC content in pounds of VOC per gallon of coating; the VOC content (in pounds VOC per gallon of coating excluding water and exempt solvents); the water content; the nonvolatile (solids) content; and the type and amount of cleanup solvent employed. The reports shall be submitted by February 15 and August 15 of each year and shall cover the previous six calendar months (July through December and January through June, respectively).

CENTRAL STATES CAN CO.

PAGE 4

5. This facility shall continuously monitor and record the temperature of the exhaust gases from the catalytic incinerator serving this emission unit. The temperature records shall be retained in this facility's files for a period of not less than two years and shall be made available to the Director or any authorized representative of the Director for review during normal business hours.

A catalyst inlet temperature control set point of not less than 600°F shall be maintained for air flow into the incinerator except during periods of start-up and shutdown. The average actual catalyst outlet temperature shall be 650°F or higher except during periods of start-up and shutdown.

This facility shall submit semi-annual reports to the Canton City Health Department, Air Pollution Control Division, 420 Market Avenue North, Canton, Ohio 44702-1544, Phone (216) 489-3385, which provide the following information for the previous six calendar months for each period during which the average incinerator exhaust gas temperatures fell below 650°F:

- a. the date of the excursion;
- b. the time interval over which the excursion occurred;
- c. the temperature values during the excursion;
- d. the cause(s) for the excursion; and
- e. the corrective action which has been or will be taken to prevent similar excursions in the future.

The reports shall be submitted by February 15 and August 15 of each year and shall cover the previous six calendar months (July through December and January through June, respectively).

Please note that the submission of this semi-annual report does not preclude the Permittee from reporting malfunctions of air pollution control equipment required by Ohio Administrative Code (OAC) 3745-15-06.
