Hoge Lumber Company  
John Hoge  
701 South Main Street  
New Knoxville, OH 45871

Enclosed please find an Ohio EPA Permit to Install which will allow you to install the described source(s) in a manner indicated in the permit. Because this permit contains several conditions and restrictions, I urge you to read it carefully.

The Ohio EPA is urging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Pollution Prevention at (614) 644-3469.

You are hereby notified that this action by the Director is final and may be appealed to the Ohio Environmental Review Appeals Commission pursuant to Chapter 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed within thirty (30) days after the notice of the Directors action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency within three (3) days of filing with the Commission. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
236 East Town Street, Room 300  
Columbus, Ohio 43215

Very truly yours,

Thomas G. Rigo, Manager  
Field Operations and Permit Section  
Division of Air Pollution Control

cc: USEPA

NWDO

**FINAL PERMIT TO INSTALL 03-13470**

Application Number: 03-13470  
APS Premise Number: 0306000120  
Permit Fee: **\$200**  
Name of Facility: Hoge Lumber Company  
Person to Contact: John Hoge  
Address: 701 South Main Street  
New Knoxville, OH 45871

Location of proposed air contaminant source(s) [emissions unit(s)]:  
**701 South Main Street**  
**New Knoxville, Ohio**

Description of proposed emissions unit(s):  
**8.94 mmBTU/hr portable diesel fired electric generator.**

The above named entity is hereby granted a Permit to Install for the above described emissions unit(s) pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Director

## **Part I - GENERAL TERMS AND CONDITIONS**

### **A. Permit to Install General Terms and Conditions**

#### **1. Compliance Requirements**

The emissions unit(s) identified in this Permit to Install shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.

#### **2. Reporting Requirements Related to Monitoring and Recordkeeping Requirements**

The permittee shall submit required reports in the following manner:

- a. Reports of any required monitoring and/or recordkeeping information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
- b. Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the appropriate Ohio EPA District Office or local air agency. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly, i.e., by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

#### **3. Records Retention Requirements**

Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.

#### **4. Inspections and Information Requests**

The Director of the Ohio EPA, or an authorized representative of the Director, may, subject to the safety requirements of the permittee and without undue delay, enter upon the premises of this source at any reasonable time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State air pollution laws and regulations and the terms and conditions of this permit. The permittee shall furnish to the Director of the Ohio EPA, or an authorized representative of the Director, upon receipt of a written request and within a reasonable time, any information that may

be requested to determine whether cause exists for modifying, reopening or revoking this permit or to determine compliance with this permit. Upon verbal or written request, the permittee shall also furnish to the Director of the Ohio EPA, or an authorized representative of the Director, copies of records required to be kept by this permit.

**5. Scheduled Maintenance/Malfunction Reporting**

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction of any emissions units or any associated air pollution control system(s) shall be reported to the appropriate Ohio EPA District Office or local air agency in accordance with paragraph (B) of OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emissions unit(s) that is (are) served by such control system(s).

**6. Permit Transfers**

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA District Office or local air agency must be notified in writing of any transfer of this permit.

**7. Air Pollution Nuisance**

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

**8. Termination of Permit to Install**

This Permit to Install shall terminate within eighteen months of the effective date of the Permit to Install if the owner or operator has not undertaken a continuing program of installation or modification or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation or modification. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

**9. Construction of New Sources(s)**

The proposed emissions unit(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed sources are inadequate or cannot meet applicable standards.

If the construction of the proposed emissions unit(s) has already begun or has been completed prior to the date the Director of the Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities prove to be inadequate or cannot meet applicable standards.

**10. Public Disclosure**

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

**11. Applicability**

This Permit to Install is applicable only to the emissions unit(s) identified in the Permit to Install. Separate application must be made to the Director for the installation or modification of any other emissions unit(s).

**12. Best Available Technology**

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

**13. Source Operation and Operating Permit Requirements After Completion of Construction**

This facility is permitted to operate each source described by this Permit to Install for a period of up to one year from the date the source commenced operation. This permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws, regulations, and policies. Pursuant to OAC Chapter 3745-35, the permittee shall submit a complete operating permit application within thirty (30) days after commencing operation of the emissions unit(s) covered by this permit.

**14. Construction Compliance Certification**

The applicant shall provide Ohio EPA with a written certification (see enclosed form) that the facility has been constructed in accordance with the Permit to Install application and the terms and conditions of the Permit to Install. The certification shall be provided to Ohio EPA upon completion of construction but prior to startup of the source.

**15. Fees**

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable Permit to Install fees within 30 days after the issuance of this Permit to Install.

**B. Permit to Install Summary of Allowable Emissions**

The following information summarizes the total allowable emissions, by pollutant, based on the individual allowable emissions of each air contaminant source identified in this permit.

**SUMMARY (for informational purposes only)**  
**TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS**

<b><u>Pollutant</u></b>	<b><u>Tons Per Year</u></b>
<b>NOx</b>	<b>24.86</b>
<b>SO2</b>	<b>0.03</b>
<b>PE</b>	<b>0.36</b>
<b>CO</b>	<b>3.63</b>
<b>VOC</b>	<b>0.85</b>

**PART II - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)**

**A. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
8.94 mmBTU/hr portable diesel fired electric generator	OAC rule 3745-31-05(A)(3)	0.52 lbs/hr particulate emissions (PE) 0.36 tpy PE  0.04 lb/hr sulfur dioxide (SO <sub>2</sub> ) 0.03 tpy SO <sub>2</sub>  5.18 lb/hr carbon monoxide (CO) 3.63 tpy CO  35.52 lbs/hr nitrogen oxides (NO <sub>x</sub> )  1.21 lbs/hr volatile organic compounds (VOC) 0.85 tpy VOC  10% opacity as a 6-minute average, except during start-up and shutdown  See A2.a - A.2.e. below.
	OAC rule 3745-31-05(D)	24.68 tpy NO <sub>x</sub> per rolling 12-month period based on fuel usage restrictions (See A.2.f. and B.1.)
	OAC rule 3745-17-07(A)	See A.2.g below.
	OAC rule 3745-17-11(B)(5)(b)	See A.2.g below.
	OAC rule 3745-18-06(G)	0.062 lb particulates per mmBtu actual heat input.

See A.2.e below.

**2. Additional Terms and Conditions**

- 2.a** The permittee shall only burn low sulfur diesel fuel, containing less than 0.05% sulfur by weight, in this emissions unit.
- 2.b** The permittee shall only relocate this emissions unit to an approved site as specified in section F.1 below.
- 2.c** The permittee shall obtain a new permit to install in the event that the generator is scrapped out and replaced with a new unit.
- 2.d** The NO<sub>x</sub> emissions from either this emissions unit shall not exceed 24.68 tpy based on a rolling 12-month summation.
- 2.e.** The requirements of this rule also include compliance with the requirements of OAC Rule 3745-31-05(D).
- 2.f.** The permittee has requested a federally enforceable limitation of 24.68 tons of NOx per rolling 12-month period based on fuel usage restrictions (See B.1.).
- 2.g.** The emissions limit based on this applicable rule is less stringent than the limit established pursuant to OAC rule 3745-31-05.

**B. Operational Restrictions**

- 1. The maximum annual usage of #2 oil shall not exceed 97,300 gallons/year, based upon a rolling, 12-month summation of the fuel usage input rates.

To ensure enforceability during the first 12 calendar months of operation following the issuance of this permit, the permittee shall not exceed the fuel usage levels specified in the following table:

<u>Month(s)</u>	<u>Maximum Allowable Cumulative Fuel Usage (Gallons)</u>
1	8200
1-2	16,400
1-3	24,600
1-4	32,800
1-5	41,000
1-6	49,200
1-7	57,400

1-8	65,600
1-9	73,800
1-10	82,000
1-11	90,200
1-12	97,300

After the first 12 calendar months of operation following the issuance of this permit, compliance with the annual fuel usage limitation shall be based upon a rolling, 12-month summation of the monthly fuel usage rates.

**C. Monitoring and/or Recordkeeping Requirements**

1. The permittee shall maintain monthly records of the following information:
  - a. the fuel usage each month (in gallons); and
  - b. beginning after the first 12 calendar months of operation following the issuance of this permit, the rolling, 12-month summation of the fuel usage (in gallons).

Also, during the first 12 calendar months of operation following the issuance of this permit, the permittee shall record the cumulative fuel usage for each calendar month.

2. The permittee shall (in conjunction with the information required in C.1.) collect and record the following information each month for the purposes of determining NOx emissions for emissions unit P004:
  - a. The rolling, 12-month NOx emissions, in tons.

**D. Reporting Requirements**

1. The permittee shall submit deviation (excursion) reports which identify all exceedances of the rolling, 12-month fuel usage limitation and, for the first 12 calendar months of operation following the issuance of this permit, all exceedances of the maximum allowable cumulative fuel usage levels. These reports are due by the date described in Part 1 - General Terms and Conditions of this permit under section (A)(2).

**E. Testing Requirements**

1. Compliance with the emission limitation(s) in Section A.I. of these terms and conditions shall be determined in accordance with the following method(s):

a. **Emission Limitation:**

0.062 lb particulates per mmBtu actual heat input

0.52 lbs PE/hr

0.36 tpy particulates

**Applicable Compliance Method:**

Compliance shall be based upon an emission factor supplied by the facility of 0.062 lbs/mmBTU \* the maximum heat input of the emissions unit (8.94 mmBTU/hr). The ton per year limitation represents the potential to emit based on 1,400 hours of operation per year of operation which equates to the 97,300 gallons per year fuel usage restriction.

If required, the permittee shall demonstrate compliance by testing in accordance with Method 5, 40 CFR Part 60, Appendix A.

b. **Emission Limitation:**

0.04 lb/hr sulfur dioxide (SO<sub>2</sub>)

0.03 tpy SO<sub>2</sub>

**Applicable Compliance Method:**

Compliance shall be based upon an emission factors contained in AP-42 Chapter 3.4.5 (10/96) \* the maximum heat input of the emissions unit (8.94 mmBTU/hr). The ton per year limitation represents the potential to emit based on 1,400 hours of operation per year of operation which equates to 97,300 gallons per year fuel usage restriction.

If required, the permittee shall demonstrate compliance by testing in accordance with Method 6, 40 CFR Part 60, Appendix A.

c. **Emission Limitation:**

5.18 lb/hr carbon monoxide (CO)

3.63 tpy CO

**Applicable Compliance Method:**

Compliance shall be based upon an emission factor supplied by the facility of 0.58 lbs/mmBTU \* the maximum heat input of the emissions unit (8.94 mmBTU/hr). The ton per year limitation represents the potential to emit based on 1,400 hours of operation per year of operation which equates to 97,300 gallons per year fuel usage restriction.

If required, the permittee shall demonstrate compliance by testing in accordance with Method 10, 40 CFR Part 60, Appendix A.

d. **Emission Limitation:**

35.52 lbs/hr nitrogen oxides (NO<sub>x</sub>)  
24.86 tpy NO<sub>x</sub> per rolling 12-month period.

**Applicable Compliance Method:**

Compliance shall be based upon an emission factor supplied by the facility of 3.97 lbs/mmBTU \* the maximum heat input of the emissions unit (8.94 mmBTU/hr). Compliance with the rolling ton per year limitation shall be demonstrated by the recordkeeping in C.2.

If required, the permittee shall demonstrate compliance by testing in accordance with Method 7, 40 CFR Part 60, Appendix A.

e. **Emission Limitation:**

1.5 lbs/hr volatile organic compounds (VOC)  
1.17 tpy VOC

**Applicable Compliance Method:**

Compliance shall be based upon an emission factor supplied by the facility of 0.13 lbs/mmBTU \* the maximum heat input of the emissions unit (8.94 mmBTU/hr). The ton per year limitation represents the potential to emit based on 1,400 hours of operation per year of operation which equates to 97,300 gallons per year fuel usage restriction.

If required, the permittee shall demonstrate compliance by testing in accordance with Method 25, 25a or 18 (as appropriate) 40 CFR Part 60, Appendix A.

f. **Emission Limitation:**

10% opacity as a 6-minute average

**Applicable Compliance Method:**

40 CFR Part 60, Appendix A - Method 9

**F. Miscellaneous Requirements**

1. Relocation of the Emissions Unit

Under the terms and conditions of permits to install number 03-13466, this emissions unit is approved for use at the following site. Per 40 CFR Part 89, this emissions unit must not remain at any one of the listed sites for a period greater than one year:

Hoge Lumber Company, 701 S. Main Street, New Knoxville, OH 45871

2. Notice of Relocation of the Emissions Unit to Listed Sites

The applicant shall provide a written notice to Ohio EPA, Northwest District Office within a minimum of thirty days after the relocation to one of the above listed sites.

3. Notice of Relocation of the Emissions Unit to Non Listed Sites

If this permittee wishes to move this emissions unit to a site not listed in term F.1., the permittee must first (1) obtain a new permit to install, (2) comply with the requirements of Ohio Administrative Code (OAC) rule 3745-31-03(A)(1)(p)(i), or (3) comply with the requirements of OAC rule 3745-31-03(A)(1)(p)(ii).

**NSR Discussion**

This PTI is for a temporary emissions unit which will be located at Hoge Lumber Company in New Knoxville. Per 40 CFR Part 89, for non-road engines, this unit cannot remain at one site for a period greater than one year. A synthetic minor is also not required, but federally enforceable limits will be included in this permit.

Please complete for these type permits (For PSD/NSR Permit, place mouse over this text):
