Sugarcreek Industries  
Joanna Wenker  
P.O. Box 460 425 South Broadway  
Sugarcreek, OH 44681

Enclosed Please find a modification to the Ohio EPA Permit To Install referenced above which will modify the terms and conditions.

You are hereby notified that this action by the Director is final and may be appealed to the Ohio Environmental Review Appeals Commission pursuant to Chapter 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed within thirty (30) days after the notice of the Directors action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency within three (3) days of filing with the Commission. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
309 South Fourth Street, Room 222  
Columbus, Ohio 43215

Sincerely,

Michael W. Ahern, Supervisor  
Field Operations and Permit Section  
Division of Air Pollution Control

SEDO

FINAL ADMINISTRATIVE MODIFICATION OF PERMIT TO INSTALL 06-04114

Application Number: 06-04114

APS Premise Number: 0679000200

Permit Fee: \$0

Name of Facility: Sugarcreek Industries

Person to Contact: Joanna Wenker

Address: P.O. Box 460 425 South Broadway  
Sugarcreek, OH 44681

Location of proposed air contaminant source(s) [emissions unit(s)]:  
**425 South Broadway**  
**Sugarcreek, Ohio**

Description of proposed emissions unit(s):  
**Administrative modification to include cleanup emissions; permit will now be a synthetic minor.**

The above named entity is hereby granted a modification to the permit to install described above pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this modification does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described source(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans included in the application, the above described source(s) of pollutants will be granted the necessary operating permits.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Director

## **Part I - GENERAL TERMS AND CONDITIONS**

### **A. Permit to Install General Terms and Conditions**

#### **1. Compliance Requirements**

The emissions unit(s) identified in this Permit to Install shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.

#### **2. Reporting Requirements**

The permittee shall submit required reports in the following manner:

- a. Reports of any required monitoring and/or recordkeeping information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
- b. Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the appropriate Ohio EPA District Office or local air agency. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly, i.e., by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

#### **3. Records Retention Requirements**

Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.

#### **4. Inspections and Information Requests**

The Director of the Ohio EPA, or an authorized representative of the Director, may, subject to the safety requirements of the permittee and without undue delay, enter upon the premises of this source at any reasonable time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State air pollution laws and regulations and the terms and conditions of this permit. The permittee shall furnish to the Director of the Ohio EPA, or an authorized representative of the Director, upon receipt of a written request and within a reasonable time, any information that may

be requested to determine whether cause exists for modifying, reopening or revoking this permit or to determine compliance with this permit. Upon verbal or written request, the permittee shall also furnish to the Director of the Ohio EPA, or an authorized representative of the Director, copies of records required to be kept by this permit.

**5. Scheduled Maintenance/Malfunction Reporting**

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction of any emissions units or any associated air pollution control system(s) shall be reported to the appropriate Ohio EPA District Office or local air agency in accordance with paragraph (B) of OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emissions unit(s) that is (are) served by such control system(s).

**6. Permit Transfers**

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA District Office or local air agency must be notified in writing of any transfer of this permit.

**7. Air Pollution Nuisance**

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

**8. Termination of Permit to Install**

This Permit to Install shall terminate within eighteen months of the effective date of the Permit to Install if the owner or operator has not undertaken a continuing program of installation or modification or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation or modification. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

**9. Construction of New Sources(s)**

The proposed emissions unit(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed sources cannot meet the requirements of this permit or cannot meet applicable standards.

If the construction of the proposed emissions unit(s) has already begun or has been completed prior to the date the Director of the Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.

**10. Public Disclosure**

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

**11. Applicability**

This Permit To Install is applicable only to the emissions unit(s) identified in the Permit To Install. Separate Permit To Install for the installation or modification of any other emissions unit(s) are required for any emissions unit for which a Permit To Install is required.

**12. Best Available Technology**

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

**13. Source Operation and Operating Permit Requirements After Completion of Construction**

- a. If the permittee is required to apply for a Title V permit pursuant to OAC Chapter 3745-77, the permittee shall submit a complete Title V permit application or a complete Title V permit modification application within twelve (12) months after commencing operation of the emissions units covered by this permit. However, if the proposed new or modified source(s) would be prohibited by the terms and conditions of an existing Title V permit, a Title V permit modification must be obtained before the operation of such new or modified source(s) pursuant to OAC rule 3745-77-04(D) and OAC rule 3745-77-08(C)(3)(d).
- b. If the permittee is required to apply for permit(s) pursuant to OAC Chapter 3745-35, the source(s) identified in this Permit To Install is (are) permitted to operate for a period of up to one year from the date the source(s) commenced operation. Permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws, regulations, and policies. Pursuant to OAC Chapter 3745-35,

the permittee shall submit a complete operating permit application within thirty (30) days after commencing operation of the source(s) covered by this permit.

**14. Construction Compliance Certification**

The applicant shall provide Ohio EPA with a written certification (see enclosed form) that the facility has been constructed in accordance with the Permit to Install application and the terms and conditions of the Permit to Install. The certification shall be provided to Ohio EPA upon completion of construction but prior to startup of the source.

**15. Fees**

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable Permit to Install fees within 30 days after the issuance of this Permit to Install.

**B. Permit to Install Summary of Allowable Emissions**

The following information summarizes the total allowable emissions, by pollutant, based on the individual allowable emissions of each air contaminant source identified in this permit.

**SUMMARY (for informational purposes only)  
TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS**

<b><u>Pollutant</u></b>	<b><u>Tons Per Year</u></b>
VOC	15.0
HAP	8.0

**PART II - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)**

**A. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
R001 - Electrostatic paint line. Administrative modification to include cleanup emissions and synthetic minor.	OAC rule 3745-31-05(A)(3)	VOC emissions from coating operations shall not exceed 7.21 pounds per hour, 7.5 tons per year.  VOC emissions from cleanup operations shall not exceed 7.5 tons per year.  The requirements of this rule also include compliance with the requirements of OAC rule 3745-35-07(B) and OAC rule 3745-21-09(U)(1)(i).
	OAC rule 3745-21-09 (U)(1)(i)	Volatile organic compounds (VOC) content of coatings shall not exceed 3.0 pounds per gallon of coating, excluding water and exempt solvents.
	OAC rule 3745-35-07(B)	Total hazardous air pollutant (HAP) emissions from the facility shall not exceed 8.0 tons per 12-month rolling period. See B.1.

**2. Additional Terms and Conditions**

**2.a** None

**B. Operational Restrictions**

1. The permittee shall not employ more than 2000 gallons per 12-month rolling period for cleanup.

NOTE: The number of gallons of cleanup material employed is the difference between the gallons of cleanup material received and the gallons of cleanup material shipped off site.

**C. Monitoring and/or Recordkeeping Requirements**

1. The permittee shall collect and record the following information each month for the line:
  - a. the name and identification number of each coating, as applied;
  - b. the VOC content of each coating (excluding water and exempt solvents), as applied, in pounds per gallon;
  - c. the individual HAP content of each coating, as applied, in pounds per gallon;
  - d. the number of gallons (excluding water and exempt solvents) of each coating employed;
  - e. the total VOC emissions from all coatings employed [the sum of (b. times d.) for all coatings], in pounds or tons; and
  - f. the total emissions of each individual HAP from all coatings employed [the sum of (c. times d.) for all coatings], in pounds or tons.
2. The permittee shall collect and record the following information each month for the cleanup activities:
  - a. the name and identification of each cleanup material employed;
  - b. the number of gallons of each cleanup material employed;
  - c. the VOC content of each cleanup material, in pounds per gallon;
  - d. the total HAP content of each cleanup material, in pounds per gallon;
  - e. the total VOC emissions from all cleanup materials employed [the sum of (b. times c.) for all cleanup materials], in pounds or tons; and
  - f. the total emissions of HAP from all cleanup materials employed [the sum of (b. times d.) for all cleanup materials], in pounds or tons.
3. The permittee shall collect and record the following information each month:

- a. the total emissions of HAP (the sum of 1.f. and 2.f.) from all coatings and cleanup materials employed in the previous 12 months, in tons; and
- b. the total number of gallons of cleanup material employed in the previous 12 months.

**D. Reporting Requirements**

1. The permittee shall notify the Ohio EPA Southeast District Office in writing of any monthly record showing the use of noncomplying coatings. The notification shall include a copy of such record and shall be sent to the Ohio EPA Southeast District Office within 30 days following the end of the calendar month.
2. The permittee shall submit quarterly reports which include the following information:
  - a. the total emissions of HAP from all coatings and cleanup materials, in tons, during each calendar month and each rolling, 12-month period; and
  - b. the total number of gallons of cleanup material employed during each calendar month and each rolling, 12-month period.

These reports shall be submitted by January 31, April 30, July 31, and October 31 of each year and shall include information for each month during the previous calendar quarter.

**E. Testing Requirements**

1. Compliance with the emission limitation(s) in Section A.1 of these terms and conditions shall be determined in accordance with the following method(s):
  - a. Emission Limitation:  
  
Volatile organic compounds (VOC) content of coatings shall not exceed 3.0 pounds per gallon of coating, excluding water and exempt solvents.  
  
Applicable Compliance Method:  
  
Compliance shall be based upon the record keeping requirements specified in Section C. Formulation data or USEPA Method 24 shall be used to determine the VOC contents of the coatings.
  - b. Emission Limitation:  
  
VOC emissions from coating operations shall not exceed 7.21 pounds per hour, 7.5 tons per year.

Applicable Compliance Method:

Compliance with the 7.21 pounds VOC per hour limit is demonstrated based on the maximum capacity of the spraying equipment while using coatings that comply with the VOC content limitation of 3.0 pounds VOC per gallon of coating, excluding water and exempt solvents.

Compliance with the 7.5 tons VOC per year limit is demonstrated based on the maximum annual production capacity of the coating line while using coatings that comply with the VOC content limitation of 3.0 pounds VOC per gallon of coating, excluding water and exempt solvents.

c. Emission Limitation:

VOC emissions from cleanup operations shall not exceed 7.5 tons per year. Total hazardous air pollutant (HAP) emissions from the facility shall not exceed 8.0 tons per 12-month rolling period. The permittee shall not employ more than 2000 gallons per 12-month rolling period for cleanup.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements specified in Section C. Formulation data or USEPA Method 24 shall be used to determine the VOC contents of the coatings and cleanup materials.

**F. Miscellaneous Requirements**

1. Pursuant to OAC rule 3745-35-07(B)(2), all the terms and conditions of this permit are federally enforceable. The applicant has requested the restrictions in this permit to limit the potential to emit and, therefore, avoid Title V applicability.
