Date: August 9, 1993 — [Revised July 15, 1997] [Revised September 02, 2004] [Revised May 30, 2007] [March 5, 2008] [January 13, 2011] October, 2013
Re: Open burning permissions and denials procedural requirements update

What this memo covers

This memo updates the previous versions of the *Open burning permission and denials procedural requirements* memo dated August 1993, July 1997, September 2004, May 2007 and March 5, 2008, January 13, 2011 to reflect the new Director and associated delegation procedures for scanning permissions and denials into the new eDocument Management system.

The purpose of this memo is to:

- Identify and document common processing questions
- Provide templates for open burning permissions and denial letters (including appeal provisions)
- Establish and document the procedures for public notice and OEPA *Weekly Review* publication of all open burning actions
- Establish and document the procedures for establishing an Ohio EPA Place ID and scanning the signed permission/denial into the OnBase edocument management system.

What this memo does not cover

- *OAC Chapter 3745-19* contains the open burning standards.
- *Engineering Guide 53* provides Interpretation of Open Burning Standards.
- *Open burning permission request form* – located on the Ohio EPA, Division of Air Pollution Control web page at [www <http://www.epa.state.oh.us/dapc/general/openburning.html>](http://www.epa.state.oh.us/dapc/general/openburning.html)
- *Open burning permission notification form* – located on the Ohio EPA, Division of Air Pollution Control web page at [www <http://www.epa.state.oh.us/dapc/general/openburning.html>](http://www.epa.state.oh.us/dapc/general/openburning.html)

Common processing questions

- **Are permissions/denials required to be sent by certified mail?**

Formatted: Font: 8 pt, Do not check spelling or grammar

Yes. Each written permission or denial is an action of the Director. The letter must be sent via certified mail to ensure appeal rights of the recipient are preserved. If the certified mail is rejected, the address and contact should be checked and the correspondence should be sent again via certified mail. Note that the new request forms include a request for a phone number or the requestor. This may aid confirming a correct address for mailing purposes. If the mail is rejected a second time, the correspondence can be hand-delivered. If unsuccessful, simply make a note in the open burning file and retain the correspondence according to the records retention schedule.

- **Can an approved burn in a restricted area occur when the requestor receives the certified permission?**

Not necessarily. OAC rule 3745-19-05(A)(1) states:

- o *An application for permission to open burn shall be submitted in writing at least ten working days before the fire is to be set. Saturday, Sunday, and legal holidays shall not be considered a working day.*

The burn must occur, at a minimum eleven days from the date of the request and after approval has been received unless the permission specifically waives the ten day period. The ten day period is included so that the request can be evaluated (including a possible site visit), processing of the request, and public notice of the approval.

- **Does a new application need to be submitted if conditions don't permit the burn to occur within the authorized period?**

Generally, no. The requestor can fax in a letter indicating the reason the burn did not occur or could not be completed. You can process another permission based on the letter and the original application. No ten day waiting period is needed in this case. A new application may be required if the material to be burned or the location of the burn is different from the original application.

- **Are permissions issued as final actions?**

Permissions are to be issued as final actions, with appeal rights to the Environmental Review Appeals Commission; denials are to be issued as proposed actions, with the right to an adjudication hearing. To assure uniformity the formats attached to this memorandum (Attachment A and B) will be used.

Copies of all permission and denial letters must be sent on the date of issuance to Mike Ahern, Manager, PIDM so that they can be placed in the Director's journal.

Are denials issued as final actions?

No. Denials must be issued as proposed actions to allow the applicant to request adjudication of the denial. However, the template letter provides for a future effective date. This future effective date must be at least 30 days after the issue date of the proposed denial. Public notice of the denial in WRAPN will be identified as a proposed denial with a future effective date (see WRAPN instruction below).

Who gets copies of permission and denial letters?

Copies of all permission and denial letters must be sent on the date of issuance to Mike Ahern, Manager, PIDM so that they can be placed in the Director's journal.

Can I group process requests?

Formatted: Font: 8 pt, Do not check spelling or grammar

Formatted: Font: 8 pt, Do not check spelling or grammar

Generally, it is better to process each request individually so that the actions are separately appealable. However, there may be instances where it makes sense to group multiple requests into one approval or denial. Public notice of like-kind actions can be group processed as long as each individual action is clearly identified in the notice (see WRAPN instruction below).

How are actions public noticed and published in the Agency publication *Weekly Review*?

As of January, 2008, all District Office and local air agencies ~~(with the exception of Lake County General Health District and Mahoning-Trumbull APC)~~ have access to the Agency electronic public notice request system (WRAPN) via the CITRIX VPN. Each open burning contact has been granted a user name and password for the system. This system replaces the hard copy public notice/weekly review request forms. Please contact Mike Ahern if you do not have a user account in the WRAPN.

▪ *Following are the steps for accessing the secure system for local air agencies:*

- 1) Log into WRAPN via the Remote Access Server (RAS) – contact Mike Ahern if you do not have a WRAPN icon on your desktop or in your program list in Windows
- 2) Complete a notice request for each permission/denial (see Attachment “C” for details)
- 3) Save the request
- 4) When you have completed all the notices, Exit out of WRAPN

▪ *Following are the steps for accessing the secure system for OEPA District Offices:*

- 1) Have your LAN Administrator set WRAPN up for you on your desktop
- 2) Log into WRAPN
- 3) Complete a notice request for each permission/denial (see Attachment “C” for details)
- 4) Save the request
- 5) Exit out of WRAPN

The system will gather all requested entered during the week and will publish them in a combined Agency notice to be sent by legal services to the appropriate newspaper. The requests will also be combined into the Agency “Weekly Review” publication and be posted to the Agency Weekly Review and Public Notice web page.

How are letters scanned into the Agency Onbase edocument management system?

Each District Office and local air agency will be responsible to establish an Ohio EPA Place ID using the steps identified below via the “Places” web tool for every issued permission or denial. The Place ID is a unique ID across all Ohio EPA media that identifies a regulated place within Ohio. The Place ID must be included on the first page of the letter (see above for modified template design).

Establishing a Place ID using the Places web tool:

1. Log into Webapps
2. Choose the “Places” option in the left menu selection
3. Search for the address to confirm a Place ID does nto already exist
4. If found, use the existing Place ID on the document and proceed to to step XX, otherwise, click on the “New Place” link

13. Add the Place ID to the permission/denial letter in the location identified in the modified templates below.

14. Print the permission/denial letter

15. Have the letter signed by the delegated individual in your office

16. Make copies/mail as appropriate

17. Scan the letter into the eDoc system using the steps identified below.

Scanning letters into OnBase

The following steps assume you already have an OAKS account and that your access to CITRIX and OnBase have been established – if not, please see the install instructions provided via link on Answer Place ID 2517 (you must be logged into the Answer Place to see the documents).

Local Air Agency Staff

1. Log into Onbase via your CITRIX account as follows (see Answer Place 2363 for initial OnBase and CITRIX access):

a. Navigate to <https://epafarm.epa.ohio.gov>

b. Log in using your user name and password

You should see a screen that looks similar to this:

Formatted: Indent: Left: 1.58", No bullets or numbering

Formatted: Font: 8 pt, Do not check spelling or grammar

Formatted: Font: 8 pt, Do not check spelling or grammar

- c. Single-click on the "Unity Client" option
- d. OnBase will launch. Log into Onbase
- e. Scan the hard copy letter and place it in the ingestion folder (this step varies by office location and scanner set-up – see "Part 2" of the eDoc Phase 1 OnBase Citrix Setup" document if you do not have folders)
- f. Follow the general directions identified in the OnBase training manual starting on page 31 that cover "Indexing a Document from a Scan Queue"
- g. Note in the OnBase indexing instructions that in order to allow public users to retrieve the document it must be assigned to a Document Type and the required applicable Keyword Values that must be populated. Use the following identifiers as part of uploading the document:
 - i. The secondary ID is the same as the unique ID you created in order to create the WRAPN record (your initials, the date and either 1,2,3 etc. or a,b,c etc.)
 - ii. Document Type should be "Open Burning"

RE: Permission to Open Burn

Dear **[Salutation]**:

My staff have reviewed your application for permission to open burn, dated **[Date]**. In your application you requested permission to open **burn [type of material and/or purpose]** at **[specific address]**. This address is in a **[restricted/non-restricted]** area. Therefore, your request for permission to open burn is made pursuant to **[cite the specific OAC rule(s)]**.

I find that your request is allowed under the Ohio Administrative Code rules governing open burning. I hereby grant you permission to open burn at the site under the attached conditions. You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to ORC Section 3745.04.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall also be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

RE: Denial of request for permission to Open Burn

Dear **[Salutation]**:

My staff have reviewed your application for permission to open burn, dated **[Date]**.

I must deny permission for the reasons stated below

In your application you requested permission to open burn **[type of material and/or purpose]** at **[specific address]**. Your application must be denied because **[state reasons and cite specific rules; if you wish to offer alternatives for disposal you may do so in a following paragraph]**.

This denial is issued as a proposed action pursuant to Ohio Revised Code Section 3745.07. This action will become final on the date indicated unless you or a citizen objector files an appeal requesting an adjudication hearing within thirty (30) days of the date of issuance as provided by Section 3745.07 of the Ohio Revised Code. Requests for a hearing shall be in writing and shall specify the issues of fact and law to be contested. Requests for hearings shall be sent to the Hearing Clerk, Ohio EPA, Box 1049, 50 West Town Street, Columbus, Ohio 43216-0149.

If you do not appeal this action, it will become final automatically as of the effective date shown above.

If you have any questions regarding the above, please contact **[DO/LAA Contact]** at **[Phone Number]**.

Sincerely,

_____, as agent for

Steps for data entry:

(1) Log In to WRAPN

Local Air Agency personnel will have establish a connection to WRAPN via the Remote Access Server (RAS). Please contact Mike Ahern if you do not see a WRAPN icon on your desktop or in your programs listing in Windows. District Office personnel should contact the ITS helpdesk if you do not see a WRAPN icon on your desktop or in your programs listing in Windows. Double click the WRAPN icon

(a) RAS access (LAA folks only): A Novell login will appear for the local air agency personnel

Enter:

- (i) User name: *Openburn*
- (ii) Password: *Notices*
- (iii) Select the "Local Workstation" check box

(b) WRAPN Access: District Office personnel should use their normal log in/password; local air agency personnel should use the user name and password provided by DAPC.

(2) Choose the correct Type:

(a) Note: it is important to choose the correct type:

- (i) Approved permission for open burning OAC Chapter 3745-19; or,
- (ii) Denied permission for open burning OAC Chapter 3745-19

You will notice other type codes for air actions; **DO NOT USE THESE.**

(3) **Included In**: These two fields should be defaulted to checked, if not make sure they are so a notice and an entry in the Agency *Weekly Review* are both requested.

- (4) **Identification No:** This field can be populated using the same format your office has used in the past. The key is for the ID to be unique within a calendar year. The suggested format is the date followed by your initials, followed by "a" through "z" or "1" through "99". See the example above.
- (5) **Date of Action:** This should be the issue date on the permission or denial letter.
- (6) **Entity Name:** This should be who the permission/denial is issued to.
- (7) **County:** This should be the county where the burn is requested to occur. Note: this identifies where the item is printed in the weekly review and which newspaper the notice is published in.
- (8) **Mailing address:** This most times is the mailing address of the applicant. However, for open burning, **this address should reflect where the burn will actually occur.** The address can be descriptive (e.g., ¼ mile south of the intersection of SR A and County Road B).
- (9) **Description:** Should always be "Air"
- (10) **Twp/City-State-Zip:** This most times is the mailing address of the applicant. However, for open burning, **this information should reflect where the burn will actually occur.**
- (11) **Receiving waters:** Leave blank
- (12) **Remarks, Standard Code:** If the action is a permission, use code **11**, if it is a denial, choose code **XX**.
- (13) **Remarks, Others:** This is where the rubber meets the road, be as descriptive as you like. It is suggested you include a slightly modified version of the first paragraph of the permission or denial letter. The idea is to let the public know what is requested to be burned, where, and any conditions for approval/reason for denial.
- (14) **Meeting/Complaint Remarks:** Leave this field blank
- (15) **Choose Save from the File menu.**

Other things you can do in WRAPN.....

You can see/modify your entered records:

- (1) Choose "List Notifications" from the tool bar or from the **Actions** option in the menu
- (2) Select the row you want to view/edit
- (3) Make changes
- (4) **Choose Save from the File menu.**

You can delete entered records before Thursday, 4:00 pm each week.

- (1) Choose "List Notifications" from the tool bar or from the **Actions** option in the menu
- (2) Select the row you want to view/delete
- (3) Chose "Delete" (the trash can) or "Delete" from the **Actions** option in the menu

You can add multiple entries in one session. After completing an entry:

- (1) Choose "**Data Entry**" from the tool bar or choose "Data Entry" from the **File, Open** option in the menu
- (2) Enter the new notification
- (3) **Choose Save from the File menu.**
