Public Notice
Ohio Environmental Protection Agency
Notice Regarding Updates to
Division of Surface Water Policy Manual

Notice is hereby given that Ohio Environmental Protection Agency has reviewed the Division of Surface Water Policy Manual. These materials cover technical aspects of the National Pollutant Discharge Elimination System permits and Pretreatment program. In accordance with Section 3745.30 of the Ohio Revised Code (ORC), the Division is required to maintain a central compendium of all policies and to review policies at least once every five years. ORC Section 3745.30(A)(1) excludes documents regarding the internal organization or operation of the Agency. The Division has removed one policy because the content is out of date and has been replaced with rules. There are no new policy documents.

A summary of the specific changes made is available upon request. The revised policy manual is available on the Division's web page (<http://www.epa.ohio.gov/dsw/policy/policy.aspx>) or through the contact listed below. To request information, call the Division of Surface Water at (614) 644-2001 or write the address below:

Public Hearing
Ohio Environmental Protection Agency
Five-Year Rule Review of Ohio Administrative Code (OAC) rule 3745-19-01, 3745-19-02, 3745-19-03, 3745-19-04, 3745-19-05 and 3745-19-06

Notice is hereby given that the Ohio Environmental Protection Agency, Division of Air Pollution Control (DAPC) has performed a review of the above referenced rules primarily to satisfy the requirements of Section 119.032 of the Ohio Revised Code (five-year review). The DAPC finds the following rules to be necessary and with need for changes. The DAPC proposes to amend Ohio Administrative Code (OAC) rules 3745-19-01; Definitions, 3745-19-02; Relations to other prohibitions, 3745-19-03; Open burning in restricted areas, 3745-19-04; Open burning in unrestricted areas, 3745-10-05; Permission to individuals to open burn, and 3745-19-06; Open burning unilateral order.

DAPC is not recommending any changes to the scope or intent of the rules and most of the proposed amendments are minor in nature, primarily for clarification, formatting and typographical corrections. One new purpose for open burning was added to OAC rules 3745-19-03 and 3745-19-04. This addition to each rule will facilitate the disposal of confiscated marijuana by law enforcement officials. In the past, this activity could be performed via written permission under the emergency or extraordinary provisions of these two rules. As this activity is infrequent and performed only by law enforcement officials, Ohio EPA has determined that this activity would not require notification or written permission from Ohio EPA in order to expedite that open burning activity.

Based on a comment submitted by The Regional Air Pollution Control Agency (RAPCA) suggesting that a size restriction be incorporated into the rules for the disposal of agricultural and residential waste in unrestricted areas, Ohio EPA has added a notification requirement for waste piles exceeding a certain size for these types of waste disposal activities and created new paragraph (B)(3)(f) in OAC rule 3745-19-04.

Based on a comment that two additional health/medical agencies be referenced in OAC rule 3745-19-04(D) for the open burning for the control of disease or pests via notification to Ohio EPA, Ohio EPA has added the "Ohio Department of Health" and the "Centers for Disease Control and Prevention" to the list of agricultural agencies in that paragraph. These were also added to the equivalent rule for restricted areas found in OAC rule 3745-19-03(C)(1).

Based on a comment, additional clarification language, compared to the draft rule, was added to paragraph (A)(1) of OAC rule 3745-19-05 concerning the submittal and approval time frame requirements for written permission to open burn.

Pursuant to Section 121.39 of the Ohio Revised Code, DAPC was required to consult with interested parties affected by the rules before the Division formally adopts them. On July 19, 2011 these rules went out for a 30-day review by interested parties.

Pursuant to Section 119.03 of the Ohio Revised Code, a public hearing on these rule changes will be conducted on **Friday, March 9, 2012 at 10:30 AM** at Ohio EPA, Lazarus Government Center, 50 W. Town Street, Suite 700, Columbus, Ohio. All visitors to Ohio EPA must register at the Security desk in the lobby upon arrival. Please bring photo identification (such as a valid driver's license). For security reasons, visitor's are required to wear their badge at all times while in the building. Please arrive early to complete these procedures.

Pursuant to Part D of Title I of the Clean Air Act, Ohio EPA is required to establish a state implementation plan (SIP) for the attainment and maintenance of the National Ambient Air Quality Standards (NAAQS). The above-mentioned rules are a part of Ohio's SIP and the proposed amendments will be submitted to USEPA as a modification of the SIP. The above-mentioned hearing shall be considered the public hearing for the SIP submittal.

All interested persons are entitled to attend or be represented at the hearing and give written or oral comments on these rule changes. All oral comments presented at the hearing, and all written statements submitted at the hearing or by the close of business on March 9, 2012, will be considered by Ohio EPA prior to final action on this rule. Written statements submitted after March 9, 2012, may be considered as time and circumstances permit, but will not be part of the official record of the hearing.

These rules are available on DAPC's regulations Web page for downloading at: <http://www.epa.ohio.gov/dapc/regs/regs.aspx#Open>. Questions regarding accessing the web site should be directed to Arunee Niamlarb at 614-728-1342; other questions or comments about these rules should be directed to Lee Burkleca at Ohio EPA, (614) 728-1344, lee.burkleca@epa.state.oh.us or mailed to Lee Burkleca, Ohio EPA, Division Air Pollution Control, Lazarus Government Center, P.O. Box 1049, Columbus, Ohio 43216-1049. Persons submitting comments electronically are encouraged to follow-up with a hard copy via regular mail.

PUBLIC NOTICE
OHIO ENVIRONMENTAL PROTECTION AGENCY
INITIAL CERTIFICATION OF ENVIRONMENTAL PROFESSIONAL
UNDER OHIO'S VOLUNTARY ACTION PROGRAM

Notice is hereby given that on January 31, 2012, the Director of the Ohio Environmental Protection Agency, pursuant to Ohio Revised Code ("ORC") 3746.04(B)(5) and Ohio Administrative Code ("OAC") 3745-300-05, issued an initial "certified professional" certification to: Colleen Myers, CP # 340.

The issuance of the certification is a final action of the Director and will be public noticed in accordance with OAC 3745-47-07. The action may be appealed to the Environmental Review Appeals Commission ("Commission") pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be filed with the Commission within thirty (30) days after notice of the action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Treasurer, State of Ohio", which the Commission, in its discretion, may reduce if by affidavit it is demonstrated that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Commission at the following address: 77 South High Street, 17th Floor, Columbus, Ohio 43215.

If you would like to review a copy of the certificate, or any documents related to the certification, please contact DERR Records Management Officer, at Ohio EPA, Division of Environmental Response and Revitalization, Voluntary Action Program, P.O. Box 1049, Columbus, OH 43216-1049, or by telephone at (614) 644-2924.

Date of Public Notice: February 2, 2012

**PUBLIC NOTICE
NOTICE OF RECEIPT OF ISOLATED WETLAND PERMIT
APPLICATION (LEVEL 2)**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, an Isolated Wetland Permit (level two) for a project to expand an existing residual waste treatment facility. The application was submitted by Duke Energy. The project is located east of the intersection of State Routes 756 and 743 in Washington Township, Clermont County. The Ohio EPA ID number for this project is 113736.

The review of the application will be conducted, and a decision whether to grant or deny the application will be made, in accordance with Ohio Revised Code (ORC) Sections 6111.02 to 6111.028 and other applicable provisions of state laws. Other alternatives as proposed by the applicant resulting in less adverse impact to the isolated wetland ecosystem will be considered by Ohio EPA during the review process.

Starting February 2, 2012, copies of the application and technical support information may be inspected at Ohio EPA-DSW, Lazarus Government Center, 50 West Town Street, Suite 700, Columbus, Ohio, by first calling (614) 644-2001. Applications can be made available at Ohio EPA District Offices by calling the same number.

Persons wishing to 1) be on Ohio EPA's interested parties mailing list for this project, 2) request a public hearing, or 3) submit written comments for Ohio EPA's consideration in reviewing the application should do so in writing to Ohio EPA-DSW, Attention: Permits Processing Unit, P.O. Box 1049, Columbus, Ohio 43216-1049 within twenty days of the date of this public notice.

Date of Public Notice: February 2, 2012

**PUBLIC NOTICE
NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for a project to fill streams and wetlands to accommodate an expansion of an existing residual waste landfill. The application was submitted by Duke Energy. The project is located east of the intersection of State Routes 756 and 743 in Washington Township, Clermont County. The Louisville District Corps of Engineers Public Notice Number for this project is LRL-2010-964-ncc. The Ohio EPA ID Number for this project is 113781.

As required by the Antidegradation Rule, rule 3745-1-05 of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would impact 14,963 linear feet of primary headwater habitat streams and 2.37 acres of wetlands. The applicant's proposed minimal degradation alternative, if approved, would result in the filling of 11,486 linear feet of primary headwater habitat stream and 1.81 acres of wetlands. The applicant's proposed non-degradation alternative, if approved, would have no direct impacts on waters of the state.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of Little Indian Creek. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an antidegradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.

Starting February 2, 2012, copies of the application and technical support information may be inspected on Ohio EPA-DSW website: www.epa.ohio.gov/dsw

Persons wishing to 1) be on Ohio EPA's interested parties mailing list for this project, 2) request a public hearing, or 3) submit written comments for Ohio EPA's consideration in reviewing the application should do so in writing to Ohio EPA-DSW, Attention: Permits Processing Unit, P.O. **PUBLIC NOTICE
NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for removal of an existing breakwater and timber crib pier to be replaced by construction of a new 153 linear foot (LF) armor stone revetment, a 12 by 100 LF steel crib pier connected by 2 bridges. The application was submitted by Robert and Heidi Quinn and the project is located at 128 Runway Drive on Kelley's Island, Erie County, Ohio. The Buffalo District Corps of Engineers Project # is 2011-01536. The Ohio EPA ID Number for this project is 113849.

As required by the Antidegradation Rule, rule 3745-1-05 of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would result in 640 cubic yards (CY) (2,672 square feet) of fill placement on the Lake Erie bottom, below the ordinary high water mark (OHWM). The applicant's proposed minimal degradation alternative, if approved, would result in 598 CY (2,472 square feet) of fill placement on the Lake Erie bottom, below the OHWM. The applicant's proposed non-degradation alternative, if approved, would have no direct impacts on waters of the state.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of Lake Erie. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an antidegradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.
