Date of Public Notice: August 10, 2014

**PUBLIC NOTICE
NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for a project to construct marine ways used for barge maintenance. The application was submitted by Superior Marine, Inc. The project is located at 5852 County Road 1. The Huntington District Corps of Engineers Public Notice Number for this project is LRH-1997-956-OHR. The Ohio EPA ID Number for this project is 144399.

As required by the Antidegradation Rule, 3745-1-05, of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would impact 566 linear feet of the Ohio River, and 0.06 acres of category 1 wetlands. The applicant's proposed minimal degradation alternative, if approved, would impact 300 linear feet of the Ohio River and 0.06 acres of category 1 wetland. Since this is a water dependent project the non-degradation would be a no-build option.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of the Ohio River. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an anti-degradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.

Starting August 5, 2014, copies of the application and technical support information may be inspected at Ohio EPA-DSW, Lazarus Government Center, 50 West Town Street, Suite 700, Columbus, Ohio, by first calling (614) 644-2001. Copies of the application and technical support information can be made available upon request at Ohio EPA District Offices by calling the same number.

Persons wishing to 1) be on Ohio EPA's interested parties mailing list for this project, 2) request a public hearing, or 3) submit written comments for Ohio EPA's consideration in reviewing the application should do so in writing to Ohio EPA-DSW, Attention: Permits Processing Unit, P.O. Box 1049, Columbus, Ohio 43216-1049 within thirty days of the date of this public notice.
