

PUBLIC NOTICE
1/27/2015 Issuance of Draft Air Pollution Title V Permit

IVEX Protective Packaging Inc. (Protec Pac USA)
456 S. Stolle Avenue, P.O. Box 4699
Sidney, OH 45365-8846
Shelby County

FACILITY DESC: Urethane and Other Foam Product (except Polystyrene)
Manufacturing

PERMIT #: P0116041

PERMIT TYPE: Renewal

PERMIT DESC: Renewal of the Title V permit for a polyolefin foam production that includes two extrusion lines, a scrape grinder and a degassing warehouse.

The Director of the Ohio Environmental Protection Agency issued the draft permit above. The permit and complete instructions for requesting information or submitting comments may be obtained at: <http://epa.ohio.gov/dapc/permitsonline.aspx> by entering the permit # or: Craig Osborne, Ohio EPA DAPC, Southwest District Office, 401 East Fifth Street, Dayton, OH 45402. Ph: (937)285-6357.

PUBLIC NOTICE
1/28/2015 Issuance of Draft Air Pollution Title V Permit

Pilkington North America Inc
140 Dixie Highway,
Rossford, OH 43460-1215
Wood County

FACILITY DESC: Flat Glass Manufacturing

PERMIT #: P0118251

PERMIT TYPE: Renewal

PERMIT DESC: Title V Renewal Permit for a facility that manufactures float glass for industrial purposes and the automotive industry.

The Director of the Ohio Environmental Protection Agency issued the draft permit above. The permit and complete instructions for requesting information or submitting comments may be obtained at: <http://epa.ohio.gov/dapc/permitsonline.aspx> by entering the permit # or: Peter Park, Toledo Department of Environmental Services, 348 South Erie Street, Toledo, OH 43604. Ph: (419)936-3015.

PUBLIC NOTICE
1/28/2015 Issuance of Draft Air Pollution Permit-To-Install and Operate

Wingate Packaging , Inc.
4347 INDECO CT.,
Cincinnati, OH 45241
Hamilton County

FACILITY DESC: Other Commercial Printing
PERMIT #: P0117474
PERMIT TYPE: OAC Chapter 3745-31 Modification

PERMIT DESC: Chapter 31 modification for six flexographic printing presses and facility-wide cleanup operations.

The Director of the Ohio Environmental Protection Agency issued the draft permit above. The permit and complete instructions for requesting information or submitting comments may be obtained at: <http://epa.ohio.gov/dapc/permitsonline.aspx> by entering the permit # or: Bonnie Pray, Southwest Ohio Air Quality Agency, 250 William Howard Taft Rd., Cincinnati, OH 45219. Ph: (513)946-7777.

PUBLIC NOTICE
1/29/2015 Issuance of Draft Air Pollution Title V Permit

Whirlpool Corporation - Clyde Operations
119 Birdseye St.,
Clyde, OH 43410-1397
Sandusky County

FACILITY DESC: Household Laundry Equipment Manufacturing
PERMIT #: P0117223
PERMIT TYPE: Renewal

PERMIT DESC: Renewal Title V operating permit for a household laundry equipment manufacturing facility.

The Director of the Ohio Environmental Protection Agency issued the draft permit above. The permit and complete instructions for requesting information or submitting comments may be obtained at: <http://epa.ohio.gov/dapc/permitsonline.aspx> by entering the permit # or: Andrea Moore, Ohio EPA DAPC, Northwest District Office, 347 North Dunbridge Road, Bowling Green, OH 43402. Ph: (419)352-8461.

**PUBLIC NOTICE
PROPOSED CONSENT ORDER**

The Ohio Environmental Protection Agency (Ohio EPA) has entered into a proposed Consent Order with Cinnamon Lake Utilities Association, Inc., (Defendant), to resolve Ohio EPA's complaint filed in the Ashland County Court of Common Pleas case number 14-CIV-053. The proposed Consent Order requires the Defendant to comply with all applicable provisions of Ohio's Water Pollution Control Law, R.C. Chapter 6111 and Ohio Drinking Water laws, R.C. Chapter 6109 and the rules and regulations promulgated thereunder, and the terms and conditions of all plans, orders, schedules and/or permits issued to Defendants. The proposed Consent Order requires the inspection of the inflow and infiltration into the sanitary sewer system, the submittal of annual plans detailing the corrective actions initiated, and an approvable plan to complete the remaining repairs to eliminate excessive inflow and infiltration. The proposed Consent Order also requires the payment of a sixty thousand dollar (\$60,000) civil penalty.

Copies of the proposed Consent Order can be obtained from the Ohio EPA, Northwest District Office by calling the Division of Surface Water Enforcement Supervisor at (419) 352-8461 or by writing to:

Ohio EPA, Northwest District Office
Division of Surface Water
P.O. Box 466
Bowling Green, Ohio 43402

Written comments should be submitted to Ohio EPA, Northwest District Office at the above address. Written Comments should be submitted **on or before February 25, 2015**.

The final approval and entry of the proposed Consent Order will not occur until after the thirty (30) day public comment period has expired. The thirty day period commences **on January 26, 2015**. Both the State of Ohio and Cinnamon Lake Utilities Association, Inc. reserve the right to withdraw or alter the proposed Consent Order based on comments received during the public comment period.

Date of Public Notice: February 02, 2015

**PUBLIC NOTICE
NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for a project conduct the routine dredging of the Ashtabula River Federal navigation channel. The application was submitted by the Buffalo District of the U.S. Army Corps of Engineers. The project is located in the Ashtabula River within the Federal Navigation channel. The Buffalo District Corps of Engineers Public Notice Number for this project is ASHTABULA-15. The Ohio EPA ID Number for this project is 144600.

As required by the Anti-degradation Rule, 3745-1-05, of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would entail the dredging of an estimated 300,000 cubic yards of material, with placement of the dredged material at the existing, authorized open-lake placement area in Lake Erie. An estimated 62 acres of channel would be dredged under this alternative. The applicant's proposed minimal degradation alternative, if approved, would entail the dredging of an estimated 200,000 cubic yards of material, with placement of the dredged material at the existing, authorized open-lake placement area in Lake Erie. An estimated 41 acres of channel would be dredged under this alternative. This is the minimum amount of dredging required in order to maintain a passable channel for deep-draft commercial shipping. The applicant's proposed non-degradation alternative, if approved, would have no direct impacts on waters of the state.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of the Ashtabula River and Lake Erie. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an anti-degradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.

Starting, February 02, 2015, copies of the application and technical support information may be inspected on Ohio EPA-DSW website: www.epa.ohio.gov/dsw

Persons wishing to 1) be on Ohio EPA's interested parties mailing list for this project, 2) request a public hearing, or 3) submit written comments for Ohio EPA's consideration in reviewing the application should do so in writing to Ohio EPA-DSW, Attention: Permits Processing Unit, P.O. Box 1049, Columbus, Ohio 43216-1049 within thirty days of the date of this public notice.

Date of Public Notice: January 16, 2015

**PUBLIC NOTICE
NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for a project is to create a retail development within an area designated by the Village of Orange for commercial use. The application was submitted by Pine Orange LLC. The project is located along Pinecrest Drive in the Village of Orange. The Buffalo District Corps of Engineers Public Notice Number for this project is 2014-00066. The Ohio EPA ID Number for this project is 144530.

As required by the Anti-degradation Rule, 3745-1-05, of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would result in the filling of 361 linear feet of ephemeral stream, 650 linear feet of one intermittent stream, 0.057 acres of forested Category 1 wetland, 0.396 acres of non-forested Category 1 wetland, 2.364 acres of non-forested Category 2 wetland and 0.489 acres of forested Category 2 wetland. The applicant's proposed minimal degradation alternative, if approved, would result in the filling of 361 linear feet of three ephemeral streams, 539 linear feet of one intermittent stream, 0.057 acres of forested Category 1 wetland, 0.396 acres of non-forested Category 1 wetland, 1.603 acres of non-forested Category 2 wetland and 0.398 acres of forested Category 2 wetland. The applicant's proposed non-degradation alternative, if approved, would have no direct impacts on waters of the state.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of the Chagrin River. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an anti-degradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.

Starting January 16, 2015, copies of the application and technical support information may be inspected on Ohio EPA-DSW website: www.epa.ohio.gov/dsw

Persons wishing to 1) be on Ohio EPA's interested parties mailing list for this project, 2) request a public hearing, or 3) submit written comments for Ohio EPA's consideration in reviewing the application should do so in writing to Ohio EPA-DSW, Attention: Permits Processing Unit, P.O. Box 1049, Columbus, Ohio 43216-1049 within thirty days of the date of this public notice.

Date of Public Notice: January 24, 2015

**PUBLIC NOTICE
NOTICE OF RECEIPT OF 401 APPLICATION AND PUBLIC HEARING**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for a project to replace and realign the State Route 109 Bridge over the Maumee River. The application was submitted by the Ohio Department of Transportation. The project is located south of Liberty Center in Henry County. The Huntington District Corps of Engineers Public Notice Number for this project is LRH-2013-070-MAU. The Ohio EPA ID Number for this project is 144582.

As required by the Anti-degradation Rule, 3745-1-05, of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would impact 592 linear feet of one perennial stream, the Maumee River, and 0.58 acres of one category 2 wetland. The applicant's proposed minimal degradation alternative, if approved, would impact 150 linear feet of one perennial stream, the Maumee River, and 0.30 acres of one category 2 wetland. The applicant's proposed non-degradation alternative, if approved, would have no direct impacts on waters of the state.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of the Maumee River and one associated wetland. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an anti-degradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.

Starting January 24, 2015, copies of the application and technical support information may be inspected on Ohio EPA-DSW website: www.epa.ohio.gov/dsw

Ohio EPA will hold a public information session and public hearing relative to issues of lower water quality on March 19, 2015 at 6:00p.m. at the Liberty Center Public Library. The public hearing will end when all interested parties have had an opportunity to provide testimony related to the project.

All interested persons are entitled to attend or be represented and give written or oral comments on the proposed project. The purpose of the hearing is to obtain additional information that will be considered by Ohio EPA prior to any further action on the application.

Ohio EPA will continue to accept written comments on the application through the close of business on March 26, 2015. Comments received after this date may not be considered as part of the official record of the hearing. Anyone may submit written comments or requests to be placed on a mailing list for information by writing to: Ohio EPA-DSW, Attention: Permits Processing Unit, P.O. Box 1049, Columbus, Ohio 43216-1049.

Date of Public Notice: January 24, 2015

PUBLIC NOTICE
Ohio EPA Finalizes Amended Decision Document
Green I Landfill Site, Logan, Ohio

On January 23, 2015, the Ohio Environmental Protection Agency (EPA) finalized an Amended Decision Document concerning the Green I Landfill located on Hunters Woods Road in Green Township, Hocking County, near the town of Logan, Ohio (Site). The original Preferred Plan for remediation of the Site was issued by Ohio EPA on February 9, 2010 (2010 Preferred Plan), followed by a Decision Document dated November 22, 2010 (2010 Decision Document). The Goodyear Tire & Rubber Company (Goodyear) and the General Electric Corporation (GE) appealed the 2010 Decision Document to the Environmental Review and Appeals Commission (ERAC). Based on the review of available information, including the information provided by Goodyear on January 16, 2013, and on the Ohio EPA approval on July 2, 2012, of Goodyear's request for an exemption pursuant to Ohio Revised Code (ORC) 3734.02(G) to a number of landfill capping requirements, Ohio EPA has modified the selected remedial alternative included in the 2010 Decision Document.

The approximately 10½ acre Green I Landfill began operations in 1970 and ceased accepting waste in 1974. The landfill accepted household, commercial and industrial wastes. Based on the information identified during the remedial investigation and feasibility study, the preferred remedial alternative in the 2010 Decision Document for the Site included: the construction of a multi-layer cap; the installation of a leachate (*i.e.*, water that has come into contact with buried landfill wastes) collection system; dewatering and removal of sediments from an affected off-site pond; an environmental covenant establishing activity and use limitations for the Site property; and associated reporting.

Based on the July 2, 2012, exemption request and subsequent approval by the Agency, the selected remedial alternative in the 2010 Decision Document was modified to include a composite cap system involving an impermeable flexible membrane liner, passive gas venting, a clay layer consisting of existing soils at the Site, a drainage layer, and a protective layer and vegetative cover. Additionally, based on the receipt and evaluation of information provided by Goodyear and GE on January 16, 2013, the dewatering and removal of sediment from the off-site pond required in the 2010 Decision Document was determined to be unnecessary.

On December 31, 2013, Ohio EPA issued an Amended Preferred Plan outlining Ohio EPA's preferred modified alternative to remediate contamination at the Site. A public meeting was held February 12, 2014, during which public comments on the Amended Preferred Plan were accepted. In addition, written comments on the Amended Preferred Plan were accepted through February 21, 2014. The comments received by the Agency at the public meeting and during the comment period are addressed in the Responsiveness Summary included in the Amended Decision Document.

The effective date of this final action is January 23, 2015. You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review and Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action.

The appeal must be accompanied by a filing fee of \$70.00 made payable to "Ohio Treasurer," which the Commission, in its discretion, may reduce if by affidavit it is demonstrated that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review and Appeals Commission at the Environmental Review and Appeals Commission, 77 South High Street, 17th Floor, Columbus, Ohio 43215.

A copy of the Amended Decision Document has been provided to the Logan-Hocking Public Library located at 230 East Main Street in Logan, Ohio. The Amended Decision Document and related materials are available for review at Ohio EPA's Southeast District Office, located at 2195 Front Street in Logan, Ohio, by calling Angie Hardesty, Public Records Coordinator, at (740) 385-8501 for an appointment.

**PUBLIC NOTICE
ISSUANCE OF APPROVAL TO RELOCATE A PORTABLE AIR CONTAMINANT
SOURCE
AMERICAN EAGLE RECYCLING, INC.**

Issue Date: 01/28/2015
Relocation Number: REL03097
Facility ID: 1318008084

Date of Public Notice: 15 JAN 2015

**PUBLIC NOTICE
NOTICE OF RECEIPT OF 401 APPLICATION AND PUBLIC HEARING
REVISED**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for a project to dredge the Federal navigation channels of Toledo Harbor and place the dredged material in the open-lake placement area. The application was submitted by Martin Wargo, U.S. Army Corps of Engineers. The project is located in the Federal navigation channels of Toledo Harbor. The Buffalo District Corps of Engineers Public Notice Number for this project is TOLEDO-15. The Ohio EPA ID Number for this project is 144601.

As required by the Anti-degradation Rule, 3745-1-05, of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would place 1.5 million cubic yards of material in Lake Erie. The applicant's proposed minimal degradation alternative, if approved, would place 1.1 million cubic yards of material in Lake Erie. The applicant's proposed non-degradation alternative, if approved, would have no direct impacts on waters of the state.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of Lake Erie. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an anti-degradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.

Starting 15 JAN 2015, copies of the application and technical support information may be inspected on Ohio EPA-DSW website: www.epa.ohio.gov/dsw

Ohio EPA will hold a public information session and public hearing relative to issues of lower water quality on **February 18, 2015**, at 6:00 p.m. at Toledo City Council Chambers, One Government Center, 640 Jackson Street, Toledo, Ohio. The public hearing will end when all interested parties have had an opportunity to provide testimony related to the project.

All interested persons are entitled to attend or be represented and give written or oral comments on the proposed project. The purpose of the hearing is to obtain additional information that will be considered by Ohio EPA prior to any further action on the application.

Ohio EPA will continue to accept written comments on the application through the close of business on **February 25, 2015**. Comments received after this date may not be considered as part of the official record of the hearing. Anyone may submit written comments or requests to be placed on a mailing list for information by writing to: Ohio EPA-DSW, Attention: Permits Processing Unit, P.O. Box 1049, Columbus, Ohio 43216-1049.

**PUBLIC NOTICE
NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for a project to construct a recreational facility referred to as Central Park to include a playground and amphitheater. The application was submitted by the City of Green. The project is located at Town Park Blvd. The Huntington District Corps of Engineers Public Notice Number for this project is LRH 2014-1038 TUS. The Ohio EPA ID Number for this project is 134254.

As required by the Anti-degradation Rule, 3745-1-05, of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would require filling 350 linear feet of an unnamed intermittent stream and 1.82 acres of an emergent and scrub/shrub wetland. The applicant's proposed minimal degradation alternative, if approved, would require filling 350 linear feet of an unnamed intermittent stream and 1.35 acres of an emergent and scrub/shrub wetland. The applicant's proposed non-degradation alternative, if approved, would have no direct impacts on waters of the state.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of the Tuscarawas River watershed (14 HUC 05040001-030-020, River Code 17-538 Nimisila Creek). Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an anti-degradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.

Starting January 19, 2015, copies of the application and technical support information may be inspected on Ohio EPA-DSW website: www.epa.ohio.gov/dsw

Persons wishing to 1) be on Ohio EPA's interested parties mailing list for this project, 2) request a public hearing, or 3) submit written comments for Ohio EPA's consideration in reviewing the application should do so in writing to Ohio EPA-DSW, Attention: Permits Processing Unit, P.O. Box 1049, Columbus, Ohio 43216-1049 within thirty days of the date of this public notice.

PUBLIC NOTICE
ISSUANCE OF APPROVAL TO RELOCATE A PORTABLE AIR CONTAMINANT
SOURCE
Stoneco Equipment #21.8795

Issue Date: 01/26/2015
Relocation Number: REL03080
Facility ID: 0664960031

Facility Location: Stoneco Equipment #21.8795
10148 County Road 313,
Findlay, OH 45840

Facility Description: Asphalt Paving Mixture and Block Manufacturing

Ohio EPA has received a request to relocate a portable air contaminant source for the company identified above. Upon review of the request, the Director has approved the relocation and the facility is authorized to move to 8812 Fremont Pike, Perrysburg, Ohio 43551 upon the publication of this notice.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Ohio Treasurer Josh Mandel," which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
77 South High Street, 17th Floor
Columbus, OH 43215

All inquiries concerning this action may be directed to Ohio EPA DAPC, Southeast District Office at (740)385-8501.
